I. POLICY DESCRIPTION:

The earliest possible identification of infants and toddlers with disabilities is a primary Early Intervention Program objective. This policy clarifies the Public Health Law (Public Health Law (§ 2542.3) and program regulations 10 NYCRR §69-4.3(c) for referral to Early Intervention Regional Offices or to the Developmental Monitoring Unit. The EIP Referral Form with directions for completion can be found on the New York City DOHMH website at: <http://www.nyc.gov/html/doh/downloads/pdf/earlyint/ei-referral-form.pdf>.

NOTE:

- **Referrals made by NYC Early Intervention providers must be made via the New York Early Intervention System (NYEIS).**
- Instruction for navigating NYEIS are denoted in *italics* in the body of this Policy

II. PROCEDURE:

Responsible Party	Action
Primary Referral Source	1. Required to refer to Early Intervention within two (2) working days children, aged birth to 36 months, suspected of having a disability or who appear at risk for a developmental delay. Primary referral sources include: <ul style="list-style-type: none"> • Early Intervention provider agencies; • Hospitals; • Pediatric and/or primary healthcare providers;

- Day care programs;
- Local health units;
- Local school districts;
- Local social service districts (ACS);
- Public health facilities;
- Early Childhood Direction Centers;
- Operators of any clinic approved under Article 28 of Public Health Law, Article 16 or 31 of the Mental Hygiene Law (PHL § 2541(15), 10 NYCRR § 69-4.1(aj))

Note:

- Parents may refer their children to EIP at any time.

2. Must refer to EI based on two categories :

- a. Suspected of having a delay
 - i. The child has a condition with a known likelihood of leading to a developmental delay such as Down syndrome, a birth weight of less than 1,000 grams (2.2 pounds), failure of two hearing screenings or a confirmed hearing or vision loss;
 - ii. Additional conditions provided at 10NYCRR §69-4.3 (e);
 - iii. The results of a developmental screening or diagnostic procedure(s), direct experience, observation, or impression of the child’s developmental progress that suggests a possible delay;
 - iv. Parent/caregiver is requesting an evaluation, or has provided information indicating the possibility of delay or disability.

Note:

- Children who meet the above criterion should be referred to the Early Intervention Program where they will receive:
 - Initial Service Coordination (ISC),
 - A Multidisciplinary Evaluation (MDE), and, if found eligible, an
 - Individualized Family Service Plan (IFSP).
 - i. All Early Intervention services are at no direct cost to the family.

- b. At risk for delay:
 - i. Children who are not suspected of having a disability and do not have a diagnosed condition with a high probability of delay, but are at increased risk for developmental delay because of specific biomedical risk factors or other risk criteria (PHL §2541 (1), 10 NYCRR 69-4.3 (f));
 - ii. Children with substantiated abuse or neglect, in the ACS system;
 - iii. Children evaluated and found not eligible for Early Intervention.

Note:

- Children who meet the criteria (in b) should be referred to Developmental Monitoring (DM) in Early Intervention where they will receive:
 - Monitoring of the child’s progress using the Ages and Stages Questionnaire®. The questionnaire is completed by mail or phone. If

the questionnaire suggests atypical development, DM will transfer the child, with parental consent, for further assessment.

3. The primary referral source does not need written consent from the parent to make a referral to the EIP (see directions for completion of Early Intervention Program referral form). However, a referral cannot be made if the parent objects.
 - a. If a parent objects to the referral, a referral source should:
 - i. Maintain written documentation of the parent's objection and follow-up actions;
 - ii. Provide the parent with the name of the EIP and information on how to make a referral if parent wishes to contact the program in the future;
 - iii. Make reasonable efforts to follow-up with the parent **within two (2) months** and, if appropriate, refer the child at that time unless the parent objects.

Note:

- Referrals must be made to the borough of the child's residence, the Developmental Monitoring Unit or via the ACS Referral Hotline.
4. Referrals by non Early Intervention provider referral sources are made to the NYC EIP by :
 - a. Faxing a **Referral Form** directly to the Regional Office (RO) in the borough of the child's residence;
 - b. Calling 311 and asking for "Early Intervention"; or
 - c. Calling the ACS Referral Hotline at 877-885-KIDZ (5439)
 - i. ONLY employees of the Administration for Children's Services (ACS) or agencies contracted with ACS can use this referral method.
 - All ACS referrals must be made using the designated hotline number.
 - Faxed forms are discouraged for ACS referrals.

Note:

- **A child's referral should be submitted via only one method, fax or phone, not both.**
5. If the **Referral Form** is faxed, the primary referral sources should keep a copy of the faxed transmittal of the **Referral Form**.
 - a. Primary referral sources are responsible for ensuring the confidentiality of all information transmitted at the time of the referral.
 6. Referrals made by NYC Early Intervention providers must be made via the New York Early Intervention System (NYEIS)
 - a. *From the Home Menu button - Click on Create Referral*
 - b. *Enter mandatory information*
 - i. *All mandatory fields are indicated by a yellow asterisk*

Instructions for Completing the Early Intervention Program Referral Form

(Please do not fax with the referral form)

NOTE TO REFFERAL SOURCE:

ACS Referral Hotline: Child with a suspected of known delay OR Child is typically developing but may be “at risk” for atypical development AND is involved in the ACS Foster Care, Protective Services or Preventative services. Early Intervention Specialists at the ACS Hotline will discuss appropriate Next steps in the Early Intervention process. **All ACS referrals must be called in using this designated hotline number.** Fax referrals are discouraged for ACS referrals.

Write legibly or type all referral information. The referral form is divided into three (3) sections.

Section 1 - Contains information fields that **must** be included when making a referral to the NYC Early Intervention Program (EIP). Section 1 does not require parental consent to submit this information. **This section should be filled out completely for the referral to be accepted.**

Note: Family has the right to refuse to have their child referred to EIP.

Section 2 - Contains information that should be transmitted only with informed parental consent. Consent can be verbal or taken from another consent form used by the referring agency.

Section 3 - Contains information that requires a parent’s written signature on this Referral Form.

Although Sections 2 and 3 require parental consent, the information contained in these sections is important for appropriate routing of the referral and assignment of Initial Service Coordinator (ISC). Therefore, it is recommended that all sections be completed if possible.

Information on this form must be typed or printed legibly (other than parent signature in Section 3).

Section 1

1. Write the child’s full name, last name first. Write the child’s date of birth in two (2) digit month, day, and year (e.g., 03/25/09).
2. Check the box indicating the child’s gender and write the full address where the child resides, including the city (or borough) and the zip code.
3. **Race and Ethnicity.** Check the appropriate box for each section. *More than one racial designation for a child can be selected.*
4. Write the name of the child’s biological or adoptive mother, last name first. On the right side, write the telephone numbers where the mother can be contacted.
5. Write the name of an alternate caregiver (such as the foster parent) or contact person and that person’s telephone number. Check the appropriate box to indicate the relationship to the child and specify what that is if “other” is checked.
6. **Reason for Referral.** Check Early Intervention, Developmental Monitoring or ACS Hotline. If the child is being referred because there is a particular concern, write that information in the *Comments* box (See Appendix A). **All ACS referrals must be called in using the designated hotline number. Fax referrals are discouraged for ACS referrals.**
7. **Person Presenting Referral to Early Intervention.** Write the name, agency or facility (if any), address, telephone and fax numbers of the person referring the child to NYCEIP and completing this form. Check the appropriate box for *Referral Source Type* reflecting the person who is actually making the referral. For example, check the box for Community Program or EI Agency if the person making the referral represents an EI Provider Agency or a community agency (e.g., ECDC). Additional information can be added in the *Comments* box.

Section 2

8. Write the mother’s date of birth in two (2) digit month, day and year (e.g., 11/10/82).
9. Write the primary language spoken at home. This information will assist in determining whether a bilingual ISC needs to be assigned.
10. Check the appropriate box to indicate whether the family is known to ACS.
11. Write the name of child’s primary health care provider and his/her telephone number.
12. Write the name of the hospital in which the child was born and the location, e.g., address, borough or city and state/country.
13. Write the child’s birth weight in pounds and ounces or grams. Include the gestational age in weeks, if known.
14. If the child has a known diagnosis, write that here (e.g., autism, Down syndrome, cerebral palsy, etc.). General concerns can be written in the *Comments* box.

Section 3

15. Indicate if a copy of the Multidisciplinary Evaluation (MDE) should be sent to the referring professional *if the parent consents to the release of this information.* ***This section requires written parental consent on this form*** and no information should be provided without the parent’s signature.

Request for ISC

16. If the person/agency making the referral is requesting a particular initial service coordinator (ISC), write the name of the Service Coordinator (SC), the SC’s ID number, the name and ID number of the service coordination agency, and the telephone and fax numbers for the agency. Include the reason for requesting initial service coordination. According to NYS law, a specific ISC or ISC agency can be requested when there is “an established relationship with the child or family.” However, the EI Regional Office (RO) determines the assignment of ISC and documents this in the bottom right box on the form.

Note: A specific ISC or ISC agency can be requested when there is an established relationship with the child or family, but assignment is at the discretion of the EI RO.

NOTE: If there are questions about completing the form or making the referral, call the EI RO in the borough where the child resides or call 311 and ask for “Early Intervention.”

Appendix A- Reason for Referral Clarification

Section 1 contains the **REASON FOR REFERRAL** block. The individual referring the child must indicate whether the child is being referred to EIP in the child’s borough of residence, **Child Find Developmental Monitoring (DM) or the ACS Referral Hotline**. The following indicators should assist with deciding which **REASON FOR REFERRAL** box to check and where to send the referral.

EARLY INTERVENTION: Child with a suspected or known developmental delay or disability.

This referral is sent to the EIP Regional Office (RO) in the child’s borough of residence for a Multidisciplinary Evaluation (MDE). Check this box for a child with a developmental delay(s) and/or a diagnosed physical or mental condition with a high probability of a future developmental delay. The child should meet one or more of the following criteria:

- The child has a condition with a known likelihood of leading to a developmental delay such as Down Syndrome, a birth weight of less than 1,000 grams (2.2 pounds), failure of two (2) hearing screenings or has a confirmed hearing or vision loss;
- The results of a developmental screening or diagnostic procedure, direct experience, observation, and perception of the child’s developmental progress indicate that he or she is not developing similarly to same age peers; or
- Parent or caregiver is requesting an evaluation or has provided information that indicates the possibility of a developmental delay or disability.

DEVELOPMENTAL MONITORING: Child is developing typically but may be “at risk” for atypical development, or child missed or a failed newborn hearing screening or re-screening (not re-screened within seventy-five (75) days).

This referral is sent to the citywide Child Find - DM Office. Check this box for a child who missed or failed his/her newborn hearing screening and did not return for follow-up within seventy-five (75) days. Also, check this box for a child who meets one or more of the risk criteria listed below:

Neonatal Risk Criteria	Post-Neonatal Risk Criteria	Other Risk Criteria
<ul style="list-style-type: none"> • Birth weight 1,000 - 1,500 grams • Gestational age less than 33 weeks • NICU stay of ten (10) days or more • CNS insult/abnormality • Asphyxia (5 min APGAR less than 4) • Growth deficiency/nutrition problems (e.g., SGA) • Presence of Inborn Metabolic Disorder • Maternal prenatal alcohol abuse • Congenital malformations • Hyper- or hypotonicity • Hyperbilirubinemia (above 15 mg/d) • Hypoglycemia (serum glucose less than 20 mg) • Maternal prenatal abuse of illicit substances • Prenatal exposure to therapeutic drugs with known risk • Venous lead level more than 19 mcg/dl • HIV infection • Maternal PKU 	<ul style="list-style-type: none"> • Parental developmental disability or mental illness • Suspected/family history of hearing impairment • Suspected/family history of vision impairment • Other risk criteria identified by referral source (describe) • Parental concern re: development • Questionable score on Developmental/sensory screen • Illness/trauma with CNS Implications and ICU more than ten (10) days • Serous Otitis Media within three (3) months • Growth deficiency/nutritional problems, F.T.T., iron deficiency 	<ul style="list-style-type: none"> • No prenatal care • Homelessness • Questionable score on Developmental/Sensory screen • History of child abuse or neglect* • No well child care by six (6) months • Concern re: parenting due to poor bonding, impairment in psychological/ interpersonal functioning • Significant immunization delay • Parental drug or alcohol abuse • Perinatally/congenitally transmitted Infection (e.g., HIV, hepatitis B, syphilis) • Parental developmental disability or mental illness • Other risk criteria identified by referral source (describe) <p>* Referrals of typically developing children in ACS Foster Care who have not been screened should be sent to DM</p>

Dear Parent/Guardian:

Welcome to the New York City Early Intervention Program! The Early Intervention Program (EIP) is a program for families of children under three years of age who have significant delays in development.

Your child: _____ was referred by: _____ on ____/____/____.

What happens next in Early Intervention?

The first person you will meet in Early Intervention is your **Initial Service Coordinator (ISC)**. Your Initial Service Coordinator is _____. S/he can be reached at: _____.

The ISC will contact you to set up an appointment. At this meeting your ISC will:

- Explain the Early Intervention (EI) process and answer your questions about the program.
- Explain your rights and responsibilities in Early Intervention.
- Give you a copy of The Early Intervention Program: A Parent's Guide for Children with Special Needs - Birth to Age Three. (on-line at: www.health.state.ny.us/community/infants_children/early_intervention/parents_guide/index.htm)
- Collect your child's insurance information or refer you to a Child Benefit Advisor if necessary.
- Help you choose an **Agency** to evaluate your child at no cost to you.

The Evaluation

- Your child will have a complete evaluation to find out if s/he has a delay that meets the EIP's eligibility requirements. This is called a **Multidisciplinary Evaluation (MDE)**.
 - During the evaluation tell the evaluators what your child can do and what you would like him/her to learn.
- Your evaluation team will discuss the results of the evaluations with you. The EIP will review your child's evaluation to ensure quality and may ask the evaluators or you for more information. Children with mild delays are not eligible for Early Intervention.

The IFSP Meeting

- If the evaluation shows that your child is eligible for the EIP, an **Individualized Family Service Plan (IFSP)** meeting will be held **within forty-five (45) days from referral**. Your ISC will call you to arrange a date, time and location that is convenient for you.
- The Early Intervention Official Designee (EIOD), and the rest of the team will meet with you to decide how EI will work with you to help your child develop in the best way that he or she can. Your child learns all day long, by doing everyday things. You can help your child during those times. EI is here to help you.
- You may also have the opportunity to meet with our Department's Child Benefit Advisors. They will talk to you about benefits available for your child including health insurance.

What should you do next?

- It is very important to **keep all of your EI appointments**. Call your ISC if you cannot keep an appointment or if an evaluator misses an appointment. If you miss appointments and we don't hear from you, we may have to close your child's case.
- Have your child's doctor fill out the medical form that comes with this letter.
- Tell your ISC whenever there is a change in your contact information.
- Visit the NYC DOHMH Early Intervention Program website: Along with information about the Early Intervention Program, you can also find the list of agencies contracted with NYC to provide service coordination, evaluations, and services: <http://www.nyc.gov/html/doh/html/earlyint/earlydirectory.shtml>

If you have questions your Service Coordinator cannot answer, you need other help, or you do not receive A Parent's Guide call the Early Intervention Regional Office at 212-487-3920 or 212-487-3926 and ask for an Assistant Director. You can also call the Early Intervention Director of Consumer Affairs at 347-396-6828.

Sincerely,

Director, Regional Office

NYC EARLY INTERVENTION PROGRAM
INFORMATION FOR PARENTS ABOUT ELIGIBILITY
QUESTIONS AND ANSWERS

Q: My child was found not eligible for the Early Intervention Program (EIP). S/he isn't doing things like other children his/her age. Why isn't s/he eligible?

A: The Early Intervention Program, by law, only provides services for children who have significant delays in development.

It is normal for children to develop skills at different times and at their own pace. For example, one child may start to walk at 11 months while another child starts at 16 months.

Difficulties eating new foods and temper tantrums can also be a normal part of early child development.

These children are not eligible for Early Intervention.

Q: The reports that I got said that my child has a delay. They recommended that s/he gets therapy. But I was told that s/he is not eligible for Early Intervention. How can that be?

A: While your child might have a delay, it might not be significant enough for Early Intervention. According to the State Department of Health, a severe delay in communication may be seen when a child has:

- no single words at 18 months,
- fewer than 30 words at 24 months
- no two word combinations at 36 months.

The program does not serve children who are “late talkers” or “late walkers”.

Your child might still benefit from therapy. You can bring the reports to your doctor, and ask if your doctor could recommend therapy paid for by your health insurance.

Your Service Coordinator can also help you find low cost therapy services. Some graduate school programs have clinics that provide therapy on a sliding scale. These schools are listed below.

Q: I am still concerned. What can I do?

A: Ask your Service Coordinator for a referral to the EIP Developmental Monitoring. You will be contacted on a regular basis to complete an Ages and Stages Questionnaire (ASQ). This will tell you if your child is still developing within age limits or if he/she should be re-evaluated.

YOUR FAMILY RIGHTS IN EARLY INTERVENTION

The New York City Early Intervention Program (EI) recognizes that the family is an essential part of the early intervention team. The program will do its best to meet the needs of your family and your child. However, you may have concerns that you feel are not being addressed, or disagreements with decisions. Your family has rights that are guaranteed by the Individuals with Disabilities Education Act (IDEA):

- You have the right to say yes or no to having your child screened or evaluated.
- You have the right to choose the evaluator and on-going service coordinator.
- You have the right to say yes or no to any EI service without risking your right to other services.
- You have the right to look at and request a change to your child's written record.
- You have the right to keep information about your family private.
- You have the right to be told about and to appeal any possible changes to your child's evaluation or any other early intervention service before changes are made.
- You have the right to take part in – and ask other people of your choice to attend – all meetings where decisions will be made about changes in your child's evaluation or services.
- You have the right to an explanation of how your insurance may be used to pay for early intervention services.
- You have the right to due process (appeal) procedures mediation, impartial hearing or systems complaint to resolve concerns: (*see below).
- You have the right to use due process procedures if your child is not found eligible for early intervention services.

If you have concerns or do not agree with a decision.:

- **First, discuss your concern or disagreement with your Service Coordinator. S/he will explain your options and rights in further detail.**
- **You can call the Early Intervention Official Designee (EIOD) or an Assistant Director in the Early Intervention Regional Office at the number below:**

<u>Brooklyn:</u> 718 722-3310	<u>Queens:</u> 718 480-2249	<u>Staten Island:</u> 718 420-5350
<u>Bronx:</u> 718 410-4110	<u>Manhattan:</u> 347 396-6183	
- **Or, you can call the EI Director of Consumer Affairs, Beverly Samuels, at (347) 396-6828.**

Due Process – If you still have a concern or disagreement, you can appeal the decision by requesting:

- **Mediation** – This is a way to discuss your concerns and reach agreement with a mediator and the Early Intervention Program. Your Service Coordinator can help request mediation, or you can send a letter to the address below.
- **Impartial Hearing** – This is another way to settle disagreements. It is more formal and carried out by hearing officers who are administrative law judges (ALJs) assigned by the NYS Department of Health. The ALJs make the final decision about the complaint. You can send a letter to address below.
- **Systems Complaints** – This is a way to request that the NYS Department of Health investigate how the Early Intervention Program is working. If you believe that your Early Intervention Official, service provider, or service coordinator is not doing their job under the law (IDEA), you can write to the address below.

Sus Derechos como Padres en el Programa de Intervención Temprana

El Programa de Intervención Temprana de la Ciudad de Nueva York (EI) reconoce que la familia es una parte esencial del equipo de intervención temprana. Mientras el programa tratará de hacer todo lo posible para satisfacer las necesidades de su familia y su hijo(a), usted pueda que tenga preocupaciones que sienta que no han sido resueltas. Su familia tiene derechos garantizados por el Acta de Educación de Individuos con Incapacidades (IDEA):

- Usted tiene el derecho de decir si o no a una evaluación o examen de su hijo(a)
- Usted tiene el derecho de escoger un evaluador y después que elegibilidad para el Programa sea establecido y un plan de servicios individualizado para su familia sea escrito, un coordinador de servicios
- Usted tiene el derecho de decir si o no, a cualquier tipo de servicio de intervención temprana sin arriesgar su derecho a otros tipos de servicios
- Usted tiene el derecho de examinar y modificar el registro escrito de su hijo(a) bajo el Programa de Intervención Temprana
- Usted tiene el derecho de mantener privada la información de su familia
- Usted tiene el derecho de ser informado de cualquier cambio posible en la evaluación u otros servicios de intervención temprana, antes de que se hagan los cambios.
- Usted tiene el derecho de participar y pedir a otros que participen en todas las reuniones donde se tomen decisiones acerca de los cambios en la evaluación o servicios de su hijo(a)
- Usted tiene el derecho de recibir una explicación de cómo se utilizará su seguro para pagar por los servicios de intervención temprana
- Usted tiene el derecho de usar el proceso debido para resolver quejas (apelación) a través de mediación, audiencia imparcial o quejas sobre el sistema (citados abajo)
- Usted tiene el derecho de apelar si su hijo(a) no es encontrado elegible para recibir servicios de intervención temprana

Si algo le preocupa o esta en desacuerdo con una decisión, hay varias entidades con quien puede hablar.

- **Primero, discuta su preocupación o de lo que esta en desacuerdo con su coordinador de servicios. El/Ella le explicará sus opciones y derechos con mayor detalle.**
- **Usted puede llamar al Oficial Designado de Intervención Temprana (EIOD) o a un Asistente de Director en la oficina Regional de Intervención Temprana, del condado donde reside, a uno de los números siguientes:**

Chapter 2: Foster Care and Surrogacy

**NYC EARLY INTERVENTION PROGRAM
DETERMINING NEED FOR A SURROGATE PARENT & ASSIGNMENT
OF SURROGATE PARENT IN EARLY INTERVENTION**

IF THE APPOINTMENT OF A SURROGATE PARENT IS REQUIRED

New York City Early Intervention Program

Policy Title: Determining The Need For Assigning A Surrogate Parent	Effective Date: July 1, 2010
Policy Number/Attachment: 2-A	Supersedes: N/A
Attachments: Applicable Forms: <ul style="list-style-type: none"> • Fax Confirmation of Initial Service Coordinator and Important Dates • Referral Form Surrogacy Forms: <ul style="list-style-type: none"> • Steps Taken to Determine Need for Surrogate Parent for Children in Foster Care Form • Foster Care Letter Part I • Foster Care Letter Part II • Surrogate Parent Designation by Parent Form. 	Regulation/Citation: NYS Regs. 69-4.15 Children in Care (a) – (k)

I. POLICY DESCRIPTION:

The New York City Early Intervention Program (EIP) is committed to ensuring that children in foster care receive a timely Multidisciplinary Evaluation (MDE) to establish eligibility. Once eligibility has been established, an Individualized Family Service Plan (IFSP) meeting will be held within **forty-five (45) days** of referral to the EIP.

When the parent(s)' availability to participate in the Early Intervention (EI) process is limited due to life circumstances, including the child's placement in foster care, the Initial Service Coordinator (ISC) must:

- Facilitate the parent's involvement in the EI process;
- Determine whether the parent will be involved or whether a surrogate parent is needed; and
- Inform the EIP of the need for a surrogate.

Note: This policy also applies to instances when a child, already in the EIP, should need a surrogate parent for the first time.

II. PROCEDURE:

Responsible Party	Action
Initial Service Coordinator	<ol style="list-style-type: none"> 1. Reviews the Referral Form to determine if a child resides with a biological parent. <ul style="list-style-type: none"> • Referral Form – <i>Section 1 – Relation to Child</i>; • Referral Form - <i>Section 1 –Referral Source Type</i>; • Referral Form – <i>Section 2 – Child Known to ACS</i>; 2. Contacts the Referral Source, ACS and/or the foster care agency to determine the availability of the parent.

- a. If the child is **not in foster care and there is a "person in parental relation,"**:
- i. **10NYCRR69-4.1 (1) (ah) defines *parental relation* as:**
 - the child's legal guardian;
 - the child's standby guardian appointed by the Surrogate Court;
 - the child's custodian; a person shall be regarded as the custodian of a child if he or she has assumed the charge and care of the child because the parents or legally appointed guardian of the minor have died, are imprisoned, are mentally ill, or have been committed to an institution, or because they have abandoned or deserted such child or are living outside the state or their whereabouts are unknown; or
 - Persons acting in the place of a parent, such as a grandparent or stepparent with whom the child lives (person in parental relation), as well as persons who are legally responsible for the child's welfare
 - ii. **A person in parental relation** may sign all consents, including the **Consent for Evaluation**.
 - iii. A surrogate parent does not need to be assigned.

Note: When a child is a ward of the State, and lives with a foster parent, the child may need a surrogate parent.

- b. For children **in foster care**, the steps described below should be followed in a timely manner.
- i. All steps must be thoroughly documented on the **Steps Taken to Determine Need for Surrogate Parent for Children in Foster Care Form**.

Steps to Determine Need for Surrogate

1. Sends to child's Foster Care Caseworker (FCC) the **Foster Care Letter Parts I and II** within **two (2) days** of receipt of the **Fax Confirmation of Initial Service Coordinator and Important Dates**, and **Referral Forms** for a child in foster care from the Regional Office.
 - a. If the FCC was the primary referral source, the **Foster Care Letter Part I** will:
 - i. Serve as confirmation of the referral to EIP; and
 - ii. Provide the name and phone number of the Initial Service Coordinator (ISC).
 - b. If someone other than the caseworker made the referral (eg: foster parent, child's doctor), the **Foster Care Letter Part I** will serve as:
 - i. Notification to the FCC that a referral to EI has been made; and
 - ii. Provide the name and phone number of the ISC.
2. Calls the FCC **no later than three (3) business days** after the letter is sent to confirm receipt and discuss whether a surrogate parent needs to be appointed.
 - a. If the FCC has not yet received the **Foster Care Letters**, a copy

	<p style="text-align: center;">must be faxed to him/her.</p> <p>Note:</p> <ul style="list-style-type: none"> • If the ISC cannot reach the FCC, s/he should speak with a supervisor. If the parent objects to the child’s participation in EIP, the FCC will inform the parent that: <ul style="list-style-type: none"> • The ISC will contact him/her to discuss EI with them. 2. Complete Foster Care Letter Part II and send it to the ISC.
<p>Initial Service Coordinator</p>	<p><u>If the parental rights have not been terminated:</u></p> <ol style="list-style-type: none"> 1. Receives completed Foster Care Letter Part II from the FCC. 2. Contacts the parent within three (3) business days of being notified by the

FCC to discuss the parent's choice to participate in EIP, to assign a Surrogate Parent or to close the child's case:

- a. If the parent would like to participate in EIP:
 - i. Discusses the parent's role in the EI process.
- b. If the parent is unable to participate but would like to designate a specific person to be the surrogate parent:
 - i. Completes the **Surrogate Parent Designation by Parent Form** with the name provided by the parent (or by the caseworker on behalf of the parent); and
 - ii. Sends the form to the caseworker to complete with the parent; or
 - iii. Sends the **Surrogate Parent Designation by Parent Form** to the parent for completion along with a self-addressed, stamped envelope and instructions to complete and return the form to the ISC as soon as possible.
- c. If the parent notifies the caseworker that s/he objects to the child's participation in EI:
 - i. Discusses the EIP with the parent. If the parent continues to object to the child's participation in EIP:
 - Notifies the FCC that the parent continues to object or if the ISC was unable to reach the parent;
 - Closes the Case (see Closure Policy).

I. POLICY DESCRIPTION:

Once the need for a surrogate has been established by the Initial Service Coordinator (ISC) or Ongoing Service Coordinator (OSC) and Foster Care Caseworker (FCC), the surrogate parent must be named and appointed by the Early Intervention Regional Office. An evaluation agency may not conduct the Multidisciplinary Evaluation (MDE) if a child's parental status is unknown.

The surrogate parent may not be an employee of any agency involved in the provision of EI or other services to the child, including staff from the New York City Administration for Children's Services (ACS) or the foster care agency serving the child. A foster parent is not considered to be a "person in parental relation" and technically is not an employee of a foster care agency. Therefore, a foster parent may be selected as the surrogate parent after consultation with the FCC or another representative from the foster care agency.

Other choices for surrogate parent are:

- a person voluntarily designated by the parent;
- a relative who has an ongoing relationship with the child;
- a friend of the parent who has an ongoing relationship with the child; and
- if no suitable individual is identified, a qualified volunteer.

The surrogate parent has the same rights and responsibilities as the parent in the Early Intervention Program (EIP) and represents the child in all matters related to:

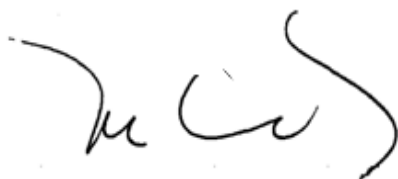

- screening, evaluation, and assessment of the child;
- development and implementation of the IFSP, including **six (6) month** and annual

- reviews;
- the ongoing provision of EI services;
- the right to request mediation or an impartial hearing in the event of a dispute; and
- any other rights accorded to families in the EIP.

Policy Title: Foster Care Information in Child Records	Effective Date: July 1, 2010
Policy Number/Attachment: 2-C	Supersedes: N/A
Department/Unit: Bureau of Early Intervention	Regulation/Citation: Early Intervention Program & Administration for Children’s Services Agreement; State Department of Health Guidance 2000

I. POLICY DESCRIPTION:

At the inception of the New York City Early Intervention Program (EIP) in 1993, EIP and the Administration for Children’s Services (ACS) agreed upon a policy regarding children’s addresses. Early Intervention (EI) records would contain the names, addresses, and telephone numbers of foster care agencies but not the addresses or phone numbers of foster parents. This procedure prevented parents, who have the right to review their child’s records, from obtaining information that might otherwise be unavailable to them. Subsequently, State Department of Health (SDOH) provided guidance in a letter dated January 27, 2000, **that it is permissible to maintain foster home contact information in EI files, if it is removed prior to releasing foster children’s EI records to parents.**

II. PROCEDURE:

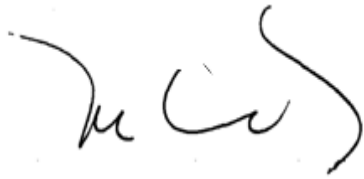

Responsible Party	Action
Service Coordinators/ Regional Office Staff	<p><u>Foster Care Information Maintenance</u></p> <ol style="list-style-type: none"> 1. Foster home contact information is maintained in EI files, <ol style="list-style-type: none"> a. Names, addresses and other identifying information of foster parents can be used on all EI forms and paperwork. This includes: <ol style="list-style-type: none"> i. Referral form; ii. All consent forms; iii. Initial, Review and Annual Individualized Family Service Plan (IFSP); and iv. The Family Information Form in the “Child Lives With” section. 2. Foster care agency information will be documented where appropriate on all EI forms. Foster care agency information includes but is not limited to: <ol style="list-style-type: none"> a. Agency name, address, telephone and fax numbers; and b. Caseworker name and telephone number.

Request for Records for Children in Foster Care

1. A record of a child in foster care is requested by a parent:
 - a. Identifying information of a foster care placement (name, phone number, and address) **must** be removed by the sending party (through the use of a black marker or white redaction tape, and subsequent photocopying) prior to release of any records to the parent.
 - i. Identifying information must be completely obscured and not readable.

Note:

- Upon request, the service coordinator (SC) should share all records with the Foster Care Caseworker (FCC), including, but not limited to: Evaluations; IFSPs; and Progress reports.
- The SC should also invite the ACS/FCC to IFSP meetings and scheduled conferences.

SURROGACY FORMS

INSTRUCTIONS FOR COMPLETION

STEPS TAKEN TO DETERMINE NEED FOR SURROGATE PARENT FOR CHILDREN IN FOSTER CARE

The **Initial Service Coordinator (ISC)** must use this form to document the steps taken to assess the need for a surrogate parent for a child in foster care. When completed, a copy should be kept in the service coordinator's case record and a copy sent to the Regional Director/EIOD. Refer to the **Surrogate Parent Assignment Process** for guidance in following the steps outlined on this form.

Sections 1, 2 and 3 document the steps the ISC must follow from referral through possible assignment of a surrogate parent. A copy of this form completed through Section 3, with the other forms listed in this section, must be sent to the EIOD/Regional Director when completed.

When this form is completed through Section 5, copies of this form and the approved **Assignment of Surrogacy by EIOD** must be sent by the ISC to the:

- Surrogate parent
- Evaluation site
- Foster Care Caseworker

NOTE: If, due to a change in life circumstances, a child currently participating in the Early Intervention Program needs to have a surrogate parent assigned for the first time, all of the steps noted in this form must be taken by the Ongoing Service Coordinator.

FOSTER CARE LETTER PART I

RE: Child's Name (Last, First):	
EI #:	DOB: / /
Foster Care Agency:	
Address:	

Date: ____/____/____

Dear _____:
Name of Foster Care Caseworker

The above-named child, who is in foster care with your agency, has been referred to/is participating in the NYC Early Intervention Program (EIP) by _____ for service coordination, evaluation, and possible therapeutic services. Please complete the attached **Foster Care Letter Part II** and return it to me within three (3) business days.

If, when you contact the parent(s) to inform her/him of the EIP, the parent indicates a desire to participate in the Early Intervention process, please provide me with the contact information for the parent. You should also share my contact information with the parent. If I cannot reach the parent or if the parent does not contact me within three (3) business days, I will contact you.

If the parent is unable to participate but would like to designate someone to be a surrogate parent, please proceed in one of the following ways:

- If the parent wants to speak with me to discuss the designation, I will contact him/her or s/he can contact me. If I am not able to speak with the parent within three (3) calendar days, I will be in touch with you.
- If the parent prefers to address the designation process with you, please contact me so that I can complete the **Surrogate Parent Designation by Parent** form with the name provided to you by the parent or send you the form to complete and return. If the parent does not designate a surrogate, the EIP will assign a surrogate parent with your input, as provided for in Article 25 of the New York State Public Health Law.

If parental rights have **not** been terminated or voluntarily surrendered **and** the parent objects to the child's participation in the EIP, check the appropriate box on the **Foster Care Letter Part II** and return it to me immediately so that I can follow up with the parent. If the parent continues to object, we will close the EI case and send you a copy of the case closure form.

I will be calling you to discuss the possible need for a surrogate parent and who your agency thinks would be most appropriate if a surrogate parent is required and not designated by the parent.

If you have any questions, I can be reached at (____)_____.

Sincerely,

INSTRUCTIONS FOR USE

FOSTER CARE LETTER PART I

- The **Initial Service Coordinator (ISC)** must send this letter and the **FOSTER CARE LETTER PART II** to the foster care agency within two (2) days of receipt of the referral when a child who is in foster care has been referred to the NYC Early Intervention Program (EIP).

If the referral source was someone other than the ACS or Foster Care Caseworker (FCC) (such as the foster parent or a primary health care provider), this letter serves as a way of informing the foster care agency of the child's referral to the EIP. If the FCC made the referral, this letter serves as confirmation of EIP's receipt of the referral.

The ISC must monitor the time frames to ensure that the child receives a timely evaluation.

- **The Ongoing Service Coordinator (OSC)** must send this letter and the **FOSTER CARE LETTER PART II** to the foster care agency within two (2) days of notification that a child currently receiving Early Intervention services has been placed in foster care

The letter informs the FCC of the steps required for the child to continue the Early Intervention (EI) process. It also specifies the time frames for the FCC's responsibilities and response to the service coordinator.

INSTRUCTIONS FOR COMPLETION

FOSTER CARE LETTER PART II

To determine whether a Surrogate Parent is needed:

- If parental rights **have been terminated** or **voluntarily surrendered**, **do not attempt to contact** the parent. The Service Coordinator (SC) should consult with the Foster Care Caseworker (FCC) to determine who would be an appropriate surrogate parent.
- If parental rights have **not** been terminated or voluntarily surrendered, the FCC must make a good faith effort to contact the parent to discuss whether s/he wants to be involved or wishes to designate a surrogate parent

After the attempt to contact the parent(s) [refer to the **Surrogate Parent Assignment Process** for guidelines] the FCC must use this form (**Part II**) to notify the SC of the response or lack of response by the parent(s) by checking the appropriate boxes.

When the parent wants to participate in the process, the SC should contact the parent to discuss his/her involvement. The parent may also contact the SC. If the contact between the parent and SC does not occur within three (3) business days, the ISC should immediately call the FCC to discuss whether the assignment of a surrogate parent has become necessary and if so, who should be assigned.

If the parent wants to designate a surrogate parent, the SC should contact the parent or the parent may contact the ISC. When the parent(s) wants to call the SC to discuss the designation of a surrogate parent, the FCC should give the parent(s) a deadline of three (3) business days by which s/he must make the call. If the contact between the parent and SC does not occur within three (3) business days, the SC should immediately call the FCC to discuss whether the assignment of a surrogate parent has become necessary and, if so, who should be assigned. Alternately, the parent can tell the FCC who s/he would like designated, and the FCC can provide the name of that person to the SC or complete the **Surrogate Parent Designation by Parent** form and return it to the SC.

When the SC sends the **Foster Care Letter Part I** to the FCC, the **Foster Care Letter Part II** should be attached.

INSTRUCTIONS FOR COMPLETION

SURROGATE PARENT DESIGNATION BY PARENT

NOTE: This form need only be used when parental rights have not been terminated or voluntarily surrendered. If parental rights have been terminated or surrendered, the parent(s) should not be contacted.

This form is to be completed by:

- The parent *or*
- An NYC Early Intervention Program (EIP) staff person or a Foster Care Caseworker (FCC) when they have information provided by the parent who is unable to participate in the IFSP process or make decisions about the EIP and would like to designate a particular person to serve as the surrogate parent.

For children in foster care, the address of the person designated by the parent may be confidential and in those cases, should not be shared with the parent. In addition, if at any time the parent requests to withdraw or change his/her designation, the service coordinator should notify the FCC.

The service coordinator (SC) is responsible for ensuring that the parent has been offered the option of voluntarily appointing a surrogate parent. However, the parent is not required to designate a specific person. (If the parent does *not* name a surrogate parent, the SC will follow the surrogacy procedures described in the [Determining the Need for Assigning a Surrogate Parent policy](#).)

The SC must keep a copy of this form in the child's case record and send a copy to:

- The Regional Director/EIOD
- The evaluator(s)
- The service provider(s).

INSTRUCTIONS FOR COMPLETION

ASSIGNMENT or TERMINATION OF SURROGACY BY EIOD

Initial Service Coordinator (ISC)

- The ISC must obtain the information requested and complete this form after consultation with the Administration for Children's Services (ACS) or the foster care agency involved with the child.
- The ISC must send the completed form to the Regional Director/EIOD for approval before the surrogate parent may sign any consents and the evaluation can be initiated.
- After a surrogate parent is assigned, that person is authorized to sign all consents that a parent would sign.

A foster parent may be assigned as a surrogate parent only after consultation with ACS or the foster care agency. Other possible choices for surrogate parent are:

- a person voluntarily designated by the parent (use the **Surrogate Parent Designation by Parent form**)
- a relative or friend(s) of the parent who has an ongoing relationship with the child
- if no suitable individual is identified from these choices, a qualified volunteer.

Refer to the **Surrogate Parent Assignment Process** for more information on the selection of a surrogate parent.

Ongoing Service Coordinator (OSC)

1. When reviewing the IFSP at the Six (6) Month or Annual Review or at other appropriate times, the EIOD shall, in consultation with the foster care caseworker, determine whether there have been any changes in circumstances that warrant a review of the appointment of a particular surrogate parent. If a change in surrogate parent is found to be necessary, the EIOD will appoint a new surrogate and will indicate the termination of the previous surrogate parent on the **Assignment/Termination of Surrogacy by EIOD** form.

2. When a child, already in the Early Intervention Program should need a surrogate parent for the first time due to changes in life circumstances, the SC should complete this form, along with the other necessary surrogacy forms. Refer to the **Determining the Need for a Surrogate Parent Policy**, and the **Assignment of a Surrogate Parent Policy**.

The SC must complete a **Child Information Change Form** and submit it with the **Assignment/Termination of Surrogacy by EIOD** form whenever there is a change in the surrogate parent assignment.

NOTE: When the child is not in foster care, his/her birth or adoptive parents are unavailable, and the child has no one in parental relation, the Regional Director/EIOD shall appoint a qualified surrogate parent.

The surrogate parent assignment may be changed at any time upon written request by the birth or adoptive parent(s), the surrogate parent or the Regional Director/EIOD. The SC must keep a copy of the approved form in the child's case record and send copies to the evaluation site and/or all service providers.

NOTE: A reproduced copy of this signed form is deemed to have the same force and effect as the original. The Consent to Release Information form must be signed at the initial IFSP meeting and at each Review and Annual IFSP meeting.

Information and Parental Consent for Use of Private Insurance to Cover Early Intervention Services

When a child's parent has insurance that is subject to the New York State Insurance Law it is a required payment source for services provided under the Early Intervention Program. Private health insurance is used to help pay for early intervention services for children like yours who can be helped by these important services.

Under NYS Public Health Law and regulations:

1. Your Early Intervention Official (EIO) must collect information and documentation about your child's insurance coverage, including Medicaid and other government payers. Your service coordinator will collect this information and give it to your EIO. This information includes: the type of insurance policy or health benefits plan, the name of the insurer or plan administrator, the policy or plan identification number, the type of coverage in the policy and any other information needed to bill your insurance. Your service coordinator will explain your rights and responsibilities, and the protections that the law provides for families.
2. Your EIO must collect your social security number and your child's social security number.

The early intervention services your child needs will be provided at no cost to your family. You will not be required to pay any out-of-pocket costs, such as deductibles or co-payments, for services your child and family receive in the Early Intervention Program. In addition, New York State Insurance Law prohibits insurers from charging any benefits paid for early intervention services against any maximum annual or lifetime policy limits ("caps"). This means that any payment made by your insurance company for early intervention services will not decrease your family's total insurance coverage.

If the use of your private insurance would result in any cost to your family (such as if your employer is self-insured and not prohibited from applying early intervention payments against a policy cap), your insurance will not be billed without your informed consent. Incidental costs, such as the time needed to file an insurance claim or the postage needed to mail the claim, are not considered a cost to your family.

Your insurance will be billed unless you provide documentation that it is not subject to NYS Insurance Law.

If your insurance is NOT subject to Insurance Law you can choose to sign a special consent form to allow NYC EIP to bill your insurance anyway.

The early intervention services available to your child and family will not be limited to what is covered by your insurance. Your Early Intervention Official has to make sure that appropriate early intervention services are provided to your child, even if you have no insurance.

**ACKNOWLEDGEMENT OF NEW YORK CITY EI PROGRAM INTENT TO EXERCISE
SUBROGATION RIGHTS**

I understand that the New York City Early Intervention Program intends to seek payment from third party payors covered by the New York State Insurance Law.

___ I give the New York City Early Intervention Program permission to seek reimbursement from my health insurance company. I authorize the release of any medical information or other information necessary to process claims. I authorize payment of medical benefits to the New York City Early Intervention Program. I have been informed that under the Public Health Law and Insurance Law the use of insurance is at no cost to me.

___ I understand that the New York City Early Intervention Program has the right to access my insurance information if my plan is subject to NYS insurance law

___ My insurance is not covered by NYS law, but I give permission to the New York City Early Intervention Program to seek reimbursement from my health insurance company. I authorize the release of any medical information or other information necessary to process claims. I authorize payment of medical benefits to the New York City Early Intervention Program.

Instructions for Completion

The Service Coordinator must review the information in this document when the child first enters the Early Intervention Program, and whenever the parent has questions about the use of insurance in the Early Intervention Program.

This form should also be used if the parent informs the Service Coordinator that there has been a change in their insurance company/policy that has changed their insurance status either making it subject or not subject to NYS Insurance Law.

If the parent refuses to provide the NYC Early Intervention Program with their insurance information, and they cannot provide evidence that their plan is NOT subject to NYS Insurance Law, they must complete the **Notice of Parent Refusal To Provide Insurance Information**. In this situation the parent must be informed that the NYC Early Intervention Program will attempt to access their insurance information as required by NYS laws and regulations.

If the parent has insurance that is not governed by NYS Insurance Law, they may give permission for the Early Intervention Program to access their insurance by signing this form.

INSURANCE INFORMATION INSTRUCTIONS

Service Coordinators (SC) must use this form to record the child's insurance information prior to the initial IFSP meeting, and whenever the family informs the SC that the child's insurance coverage has changed. This form should be used only when the insurance plan is **not** listed in the Insurance coverage screen in NYEIS

For the purpose of this requirement "insurance" refers to any third-party coverage, including private insurance, Medicaid, Medicaid managed care, and Child Health Plus.

1. Complete all of Sections A and B.
2. If the child has insurance, complete all areas of either Section C or D as directed below.
3. Fax the completed form to the NYC Early Intervention Program (EIP) Regional Office **and** bring a copy to the IFSP meeting.
4. If the parent refuses to provide the information, follow the instructions regarding parent refusal and complete the **Parent Refusal to Provide Insurance Information Form**.

Families must be informed that according to State regulations, (NYCRR Sec 69-4.22) "*the municipality shall pay all co-payments and deductibles to meet any requirement of an insurance policy or health benefit plan in accessing funds applied to payment for early intervention services.*"

Families must also be informed that the Early Intervention Official (EIO) must collect information and documentation about their child's insurance coverage, including Medicaid and other government payers.

A. IDENTIFYING INFORMATION

FREQUENTLY ASKED QUESTIONS **USE OF PRIVATE HEALTH INSURANCE IN EARLY INTERVENTION**

Why is my insurance being used? I was advised that Early Intervention is a free service.

- Early Intervention services are at no cost to parents. Using private insurance to pay for services is required under the Early Intervention Program if such insurance is available and covered by NYS Insurance Law. Billing private insurance for your child's Early Intervention services is a normal part of helping to support the program. Parents are not required to pay co-pays or any other costs.
- Your insurance will be billed unless you provide documentation that it is not subject to NYS Insurance Law

Why am I receiving bills from my insurance company?

- The forms you are receiving are not bills but Explanation of Benefit Statements (EOBs). When New York City submits a claim to your insurance company, the company is required to notify you.

The statement mentions that I am responsible for certain costs. Is that true?

- New York City will pay any deductible or co-payment that your insurance imposes for Early Intervention services. In addition, you will not be required to pay any claims that are denied by your health insurance carrier due to lack of coverage, use of an out-of-network service provider, etc. **Parents are not responsible for any costs related to their child's services.**
- When you get a statement or EOB from your insurance company, remember that you are not responsible for any deductions or co-pays. The statements you receive are for your records. The forms you are receiving are not bills but Explanation of Benefit Statements (EOB). As the policy holder, you are notified of any claims being submitted to access your insurance **and should retain these documents for your records.**
- When New York City submits a claim to your insurance company, the company is required to notify you.

Will this affect any services that my family receives outside of Early Intervention that is claimed to my insurance company?

- Under the New York State Insurance Law, payment for Early Intervention services **cannot** be applied to the lifetime

or annual monetary caps on the child/family's insurance policy. Use of third party insurance payment for Early Intervention services will not be applied against the lifetime or annual monetary limits specified in your insurance policy and will not reduce the number of visits otherwise available under the policy.

Please note that the New York City Early Intervention Program will bill only those insurance plans that are covered by New York State Insurance Law, unless you specifically consent to billing a non-covered insurance plan.

My insurance company sent me a check. What should I do with it?

- If your insurance company sends you a check, endorse it and send it to the Early Intervention Program to help pay for your child's services.

Send the check and EOB to the attention of:

Assistant Commissioner, Bureau of Finance and Revenues
NYC Department of Health and Mental Hygiene
Gotham Center, CN# 15-86

FAMILY CONCERNS, PRIORITIES, & RESOURCES INSTRUCTIONS FOR COMPLETION

Purpose: The service coordinator is responsible for assisting the family in identifying their concerns, priorities, and resources in order to guide the development of the IFSP. Complete this form after the MDE is completed and eligibility is established. **DO NOT COMPLETE THIS FORM** if eligibility has not been established.

- The attached Routine Activities Worksheet can guide your discussion.

1. **Family's Routine Activities:** Routine activities are what the child does during his/her day. Routine activities are individualized to each family, and identified by the family. Routine activities *might* include, but are not limited to, the Routine Activities specified on the Routine Activities Worksheet (feel free to use the family's own words). For children in child care (ex: day care), routine activities are what the child does during child care, as well as activities at home and in the community.
 - a. Ask the family to identify routine activities that are:
 - i. Enjoyable for the family/caregiver and child. These times are prime opportunities for learning as the child is already interested and engaged.
 - ii. Difficult for the family/caregiver or child. These times are important to make easier for families by supporting the child's development within them.
 - iii. New. These activities have not yet been tried by the family, but they are interested in attempting with the child.
 - b. Gather this information by asking questions like:
 - What are times of the day that are enjoyable for you and your child? What's your child's favorite time of the day?
 - What are times of the day that are hard for you and your child? What are your child's least favorite times of the day?
 - What else does your child do during the day?
 - What activities would you like to do with your child, but have not been able to yet?
 - You said you came to early intervention because you were worried about.... When are times during the day when your child needs to be able to...? (see response to "What brought you to Early Intervention?" to individualize question)

NOTE: Families do not need to identify all the activities of the day; just those they feel are important to share. These activities can be documented in the sample attached Routine Activities Worksheet.
 - c. Ask the family to identify which routine activities they might want to focus on in early intervention – times when they think (1) intervention support could be helpful and (2) the family has the time and can focus on the intervention both when the teacher/therapist is present, and when s/he is not. Document those identified in Noted Routine Activities.
2. **Currently Looks Like:** Family concerns and priorities emerge from a conversation around the identified routine activities. Gather this information by asking questions about what the activity *Currently Looks Like* **to understand what interventionists need to build on**. Ask questions like:
 - What does your child do now during the routine activity?
 - What is happening now?
What are you (or other adults) doing?
3. **Would like to look like:** This question identifies how the activity could look different - what the family would like the child to be able to do. **This may become the behavioral part of an Outcome at the IFSP**. Ask questions like:

- What can your child learn during these times? [Consider prompting with, “Based on why you came to early intervention...”]
- What would you like to be happening instead?
- What would you like your child to be able to do then? What would that look like?

4. **Family Priority:** Why the learning opportunity is important to the family. For any learning opportunities identified (i.e., *Would like to look like*), ask the family to identify *why* it’s important to *them* that the child learn the outcome behavior.

Note: During this conversation, families might change their mind regarding which routine activities to focus early intervention supports.

5. **Strengths/Resources Available to meet priorities, and Needed to meet priorities:**

- Help the family identify the strengths and resources the family **already has available** that enhance their capacity to meet their priorities and concerns that are important to note for use in designing the intervention plan.
- Help the family identify the additional resources **needed** by the family to further meet those concerns and priorities.

These resources can be:

- Characteristics: Features internal to family members, (e.g., good at problem solving, communicating with others, or soothing the child)
- Knowledge/Information: Understanding the child, the child’s learning characteristics, the child’s diagnosis, how early intervention works, what other supports are available
- Time: To focus on supporting the child’s learning and development
- Strategies: To promote their child’s learning and development
- Social Supports: Family and friends
- Community Connections: Either community activities the family already participates in, or would like to participate in for the child to learn (e.g., library story time or a specific time parents gather in the park), or community resources for the family (e.g., parents with similar interests getting together)
- Material Resources: Including financial or objects/equipment
- Formal Supports: Agencies or programs designed to provide a specific service

- Check off any resource types discussed as available or needed. The same resource type can be checked as both available and needed.
- Describe the specific resources within the resource types checked off. Describe how the resources help/could help the family meet their priorities related to enhancing their child’s development.

Parent Acknowledgement

I understand that my child is entitled to an evaluation and to the convening of an IFSP meeting within forty-five (45) days of the date of referral to the New York City Early Intervention Program (EIP). I understand that the evaluation site I have selected will not be able to complete the evaluation and send the required report to me and the NYC EIP so that this timeline can be met.

**NYC EARLY INTERVENTION PROGRAM
(POST-NYEIS) REASON FOR DELAY OF EVALUATION SUBMISSION FORM
INSTRUCTIONS FOR COMPLETION**

This form should only be completed if delays occur for any child in NYEIS

The contract between the New York City Early Intervention Program (NYCEIP) and provider agencies requires submission of the complete Multidisciplinary Evaluation (MDE) to the Regional Offices (RO) within thirty (30) days of the date the child was referred to the NYCEIP. The Initial Service Coordinator is responsible for monitoring the completion of the evaluation and assisting the evaluation site and/or parent in the timely completion/submission of all evaluations.

The Initial Service Coordinator (ISC) must clearly document the reason for any delay if the selected Evaluation Provider has indicated that it will be unable to complete the evaluation in a timely fashion.

Complete this form if the parent chooses an evaluation site that was unable to complete the evaluation within thirty (30) days of the referral to the Early Intervention Program.

- a. It is the responsibility of both the evaluation site and the ISC to clearly explain to the parent that by choosing an evaluation site that is unable to complete and submit an evaluation within thirty (30) days of referral, an IFSP meeting will not be held within forty-five (45) days of referral.

The Service Coordinator (SC) should indicate:

- a. The name of the evaluation site initially chosen by the parent;
- b. The agency reason(s) for the delay of evaluation submission;
- c. The date that the evaluation is now scheduled; and
- d. If the parent chooses another evaluation site, the name of that agency.

The ISC must sign the form and obtain the parent's signature.

The Evaluation Provider Agency will document the reason for any delay in **completing or submitting the Multidisciplinary Evaluation (MDE)** in NYEIS.

Parents must never be asked to sign this form before any delays occur.

Chapter 4: Evaluation and Eligibility

New York City Early Intervention Program

Policy Title: Screening	Effective Date For All Referrals Starting Staten Island: 7/12/2011 Bronx: 7/26/2011 Manhattan: 8/9/2011 Queens: 8/23/2011 Brooklyn: 9/7/2011
Policy Number/Attachment: 4-A	Supersedes:
Department/Unit: Bureau of Early Intervention	Regulation/Citation: 69-4 1(am), 69-4.8(a)2(iv); EI Memorandum 2005-2

II. POLICY DESCRIPTION:

According to 69-4 1(am) a *Screening* means a process involving those instruments, procedures, family information and observations, and clinical observations used by an approved evaluator to assess a child's developmental status to indicate what type of evaluation, if any, is warranted.

While parents always have the option to pursue a multidisciplinary evaluation for their child upon referral to the EIP, there are some circumstances when performance of a screening is appropriate. Screening tests are generally intended to be brief, easy to administer, and lead to a yes/no decision as to whether or not a developmental problem is likely and further in-depth assessment/evaluation is needed. The evaluator is responsible for determining what type of screening should be conducted (for example, whether a screening should address one or more domains of development, or if the screening should address a specific concern, such as potential hearing loss).

Circumstances under which it may be appropriate for an evaluator to conduct a screening include when there are concerns about only one area of development (e.g., communication development, physical development, etc.), or if there is a *generalized concern* about the child's development, a screening may be conducted to determine whether the child is typically developing or whether there are indications of problems that require further evaluation and assessment; or, very specific concerns for which procedures exist to clearly "rule out" or identify a problem (e.g., hearing loss).

The IFSP meeting must be convened ***within 45 days*** from the date the child was referred to the NYCEIP. In order for the meeting to be scheduled, the screening and multidisciplinary evaluation (if completed) must be completed and the necessary forms and reports, as described in this Policy, must be submitted through NYEIS, and the parent(s) ***within 30 days*** of the child's referral.

I. POLICY DESCRIPTION:

A multidisciplinary evaluation shall be performed to determine the child's initial and ongoing eligibility for early intervention services...The evaluator shall obtain informed parental consent to perform the evaluation and screening prior to initiating the evaluation procedures. (10NYCRR69-4.8 (a) (2))

The IFSP meeting must be convened ***within 45 days*** from the date the child was referred to the NYCEIP. In order for the meeting to be scheduled, the multidisciplinary evaluation must be completed and the necessary forms and reports, as described in this Policy, must be submitted to the Regional Office through NYEIS, the parent(s), the child's primary care provider (with parental consent), and to the Administration for Children's Services (if applicable) ***within 30 days*** of the child's referral.

The MDE is necessary to:

- determine eligibility for the EIP
- assess the status of the child's physical, cognitive, communication, social-emotional and adaptive functioning
- identify areas of developmental strengths and needs
- determine and understand parent's resources, priorities and concerns

For a child who is eligible based on a diagnosed condition with a high probability of leading to a developmental delay/disability, an MDE is required to assist with the development of an

Individualized Family Service Plan (IFSP). An MDE may also be required to confirm on-going eligibility when considerable progress has been made and/or there is a question about the child's on-going eligibility.

Public Health Law defines an eligible child as an infant or toddler from birth through age two with a disability. A disability is defined as a developmental delay or diagnosed physical or mental condition with a high probability of resulting in developmental delay (**10NYCRR69-4.1 (h)**) e.g., low birth weight, Down Syndrome, sensory impairments.

A child is automatically eligible for the EIP where there is a confirmed diagnosis of a physical or mental condition with a high probability of the condition resulting in a developmental delay or disability ([Refer to Early Intervention Memorandum 1999-2 - Reporting of Children's Eligibility Status Based on Diagnosed Conditions with High Probability of Developmental Delay](#)). It is the responsibility of the evaluator to confirm that the child has the diagnosed condition and is therefore eligible for the Early Intervention Program. For children eligible on the basis of the diagnosed condition, the primary purpose of early intervention is to mitigate the impact of the condition on a child's developmental progress. **The child does not have to demonstrate a delay to receive early intervention services if he has a condition with a high probability of developmental delay.**

If a referred child does not have a confirmed diagnosis which would establish automatic eligibility in New York State ([refer to Memorandum 2005-02 - Standards and Procedures for Evaluations, Evaluation Reimbursement, and Eligibility Requirements and Determination Under the Early Intervention Program](#)), consistent with federal regulations under Part C of IDEA, s/he must exhibit a significant developmental delay to be eligible for early intervention services. Developmental delay as defined by PHL 69-4 means that the child has not attained developmental milestones expected for the child's chronological age adjusted for prematurity in one or more of the following areas of development: cognitive, physical (including vision and hearing, oral motor feeding and swallowing disorders), communication, social/emotional or adaptive functioning as measured by qualified professionals using appropriate diagnostic instruments and/or procedures, and informed clinical opinion.

To be initially eligible for early intervention based upon a developmental delay, the following criteria must be met:

- A 12-month delay in one or more functional domains, or
- A 33% delay in one functional domain, or
- A 25% delay in **two** or more functional domains, or
- For children who have been found to have a delay only in the communication domain and if no standardized test is available or appropriate for the child, or the tests are inadequate to accurately represent the child's developmental level in the informed clinical opinion of the evaluator, a delay in the area of communication shall be a severe delay or marked regression in communication development as determined by specific qualitative evidence-based criteria articulated in clinical practice guidelines issued by the Department articulated in 10NYCRR69-4.23.

Or, when appropriate standardized tests are used:

- Two standard deviations (2.0SD) below the mean in one functional domain, or
- One and a half standard deviations (1.5SDs) below the mean in **two** or more functional domains.

The five functional domains include: cognition, communication, physical, adaptive and social/emotional.

Eligibility **cannot be** established based on isolated difficulties, e.g., feeding, sensory integration, articulation unless there is a significant impact on the child’s development in one or more of the five functional domains. This must be documented in the MDE report.

Note: An isolated feeding problem in and of itself may not be sufficient to establish a child’s eligibility for the Early Intervention Program. Feeding and swallowing problems often co-occur in children who have motor disorders, and may be an early indicator of a motor or other developmental health problem. Difficulties with feeding and swallowing are signs and symptoms, and it is important to determine the underlying cause. If the central concern for a child is feeding dysfunction, the MDE must provide sufficient evidence that the feeding problem is significantly impacting on the child’s developmental status. The nature of the feeding dysfunction must be documented in the MDE report, including the statement of the child’s eligibility for the Early Intervention Program. (Refer to Clinical Practice Guidelines Motor Disorders pgs. 66-77 for more in-depth information on the assessment of feeding disorders.)

2. Determine the components of the MDE based on parent concerns.
 - a. Parent's primary concern should be part of the Core evaluation
3. Obtain parent/caregiver signature on the **Consent for Evaluation and Screening Form**.
 - a. One consent is signed for a Core Evaluation
 - b. One consent is signed for a Screening
 - c. Every Supplemental Evaluation must have a separate signed consent.
4. Ask the parent if a recent health assessment was conducted **and** if the parent has appropriate health assessment documentation from the child's primary care provider
 - a. If a recent health assessment was not conducted or health assessment documentation obtained:
 - i. Obtain parental signature on the **Consent to Obtain/Release Information**.
 - ii. Contact the child's physician to assist parent/caregiver with obtaining a health assessment and health assessment documentation.
 - iii. If the child does not have a primary care provider, a health assessment should be conducted as a supplemental physician evaluation

II. Multidisciplinary Evaluation (MDE) Components

1. An MDE is made up of a Core Evaluation (identified as the Developmental Assessment in NYEIS) and, when necessary, Supplemental Evaluation(s).
 - a. The MDE team is composed of at **least** two qualified personnel, one of whom is a specialist in the developmental area that is of concern for the child.
 - b. A MDE Core Evaluation consists of
 - i. An assessment of the five developmental domains: cognitive, physical (including vision and hearing, oral motor feeding and swallowing disorders), communication, social-emotional, and adaptive
 - ii. An assessment of the specific area of concern in development identified at the time of referral:
 - The qualified personnel who conduct the core evaluation should have sufficient expertise to assess the developmental area of the parent's primary concern/ reason for referral
 - iii. A review of pertinent records related to the child's current health status, developmental concerns and medical history is required.
 - Conducted with parental consent
 - iv. A parent interview about the family's resources, priorities,

and concerns related to the child's development and about the child's developmental progress.

- Parent interview may be incorporated as part of the core evaluation report or submitted as a standalone document. In either scenario the parent interview cannot be billed for separately.
- v. A separate family assessment focusing on the resources, priorities and concerns of the family related to enhancing the development of the child (optional on the part of the parent).
- A family assessment includes identifying formal and informal support services
 - Offered and conducted with parental consent
 - The family assessment cannot be billed for separately
- vi. An evaluation of the child's level of functioning and assessment of the unique needs of the child in each developmental domain.
- This includes the identification of services that may be appropriate to meet those needs
- vii. An evaluation of the transportation needs of the child, including:
- Parent/caregiver ability to provide transportation
 - Child's special needs related to transportation and safety issues
 - Parental concerns related to transportation
 - Refer to the **Assessing Transportation Needs Policy** in this chapter of the manual.

Note: In many cases, the Core Evaluation (Developmental Assessment), on its own, will contain sufficient information to determine if a child is eligible for EI services.

c. Supplemental Evaluations

- i. Supplemental evaluations are conducted based on the written justification of the core evaluation team.
- It is expected that, in most cases, the core team will be equipped to assess all five developmental areas, and will not need to seek an additional evaluator and supplemental evaluation.
 - Supplemental evaluations **should not** be routinely provided to all children in the EIP (NYS DOH EIP Memorandum 2005-02).
- ii. NYS Guidance Memorandum 2005-02 pp. 23-24 specify justifiable circumstance for recommending supplemental evaluations, including:
- If the MDE team identifies the need for an in-depth assessment of a child's strengths and needs in a

specific area. The supplemental evaluation may be necessary to provide direction as to the specific early intervention services that may be needed by the child.

- If, at the time of referral, a child has no established primary health care provider, a supplemental physician evaluation or non-physician evaluation may be used to complete the health assessment required as part of the child's physical development.
 - If, at the time of referral, a child is suspected of having a diagnosed condition with a high probability of developmental delay, which necessitated the involvement of an expert qualified to evaluate and diagnose the condition, a supplemental evaluator qualified to conduct an in-depth assessment resulting in a diagnosis may be considered.
- d. Supplemental evaluations may not be conducted before the Core evaluation is completed.
 - i. Supplemental evaluations must be recommended by the core evaluation team,
 - e. May also be conducted when authorized after the child's initial IFSP.

II. Conducting the Multidisciplinary Evaluation

Parental Involvement

1. The evaluation process, including clinical observation, should be conducted in an environment appropriate to the unique needs of the child, with consideration given to the preferences of the parent. Such settings may include:
 - a. Natural settings (e.g., the child's home or daycare setting)
 - b. Unstructured (e.g., play room)
 - c. Structured (e.g., clinic, office, foster care agency)
2. The child's parent(s) must be given the opportunity to be an active participant in the evaluation process, as should other family members and other individuals who care for the child (e.g., daycare, nanny, foster parent, guardian, and caregiver) with parental consent.
 - a. Recognizing the family as an integral member of the evaluation team ensures that parental concerns and priorities regarding the child's development remain the focal points.
 - b. Parent partnership validates the parents' understanding of the child's current functioning and his/her strengths and developmental needs.

Evaluation Procedures

1. Evaluation procedures should be objective, professional, and individualized and consider each child's unique developmental strengths and needs.

2. MDEs should include *informed clinical opinion*, and employ age-appropriate instruments and procedures.
3. Nondiscriminatory evaluation and assessment procedures must be used in all aspects of the evaluation and assessment process. Evaluation and assessment procedures must be responsive to the *cultural and linguistic background of the family*. (Refer to the **Policy on Bilingual Evaluations** in this chapter of the Policy and Procedures Manual.)
4. *No single procedure or instrument* may be used as the sole criterion or indicator of eligibility.
 - a. The Multidisciplinary Team must rely on information from a variety of appropriate sources:
 - i. Standardized instruments and procedures whenever appropriate and possible,
 - ii. Observations of the child,
 - iii. Parent interviews,
 - iv. Informed clinical opinion, and
 - v. Any other sources of information about the child's developmental status available with parental consent. (Refer to Memorandum 2005-02)

Assessment Instruments

1. Standardized, norm-referenced evaluation assessment and/or diagnostic instruments should be used whenever possible unless such instruments are not appropriate for:
 - Child's age
 - Child's culture or language
 - Developmental status or concern
 - a. Results should be scored according to that instrument's guidelines for scoring and reporting, and in compliance with SDOH Memorandum 2005-02.
 - b. **Age equivalents from standardized tests should not be used for eligibility determination**, unless:
 - i. The manual for the instrument supports the use of age equivalents to establish eligibility.
2. Criterion-referenced tests can be helpful in evaluating children when norm-referenced tests are not available or appropriate due to the child's age, condition, language/culture, or other factors that influence test performance.
 - a. Criterion-referenced tests usually do not provide sufficient information to determine the extent of a child's developmental delay(s).
 - b. Criterion-referenced tests can be used in conjunction with other sources of information about a child's development, including informed clinical opinion, to establish a child's eligibility if eligibility is based on the level of developmental delay.
 - c. If criterion-referenced tests are used, the evaluator must:
 - i. Be aware of how the results or age ranges are to be interpreted.
 - This is usually described in the test's instruction

manual and must be discussed in the evaluation report.

3. The instruments used must be the most recent edition. Standardized tests must be reliable and valid, with appropriate sensitivity and specificity.

Note:

- A standardized instrument or instruments approved by the State Department of Health must be used when conducting an MDE.
 - The evaluator must provide a written justification in the evaluation report why such instrument or instruments are not appropriate or if an instrument is not available for the child, if an approved instrument is not used
- Refer to Memorandum 2005-02 p. 8-10 and Anderson, L. “Appropriate and Inappropriate Interpretation and Use of Test Scores in Early Intervention,” *Journal of Early Intervention*, 2004, Vol. 27, No. 1, p. 55-68 for further discussion.

Prematurity and Age Adjustment

1. When evaluating a child who was born prematurely (less than 37 weeks gestation) the evaluation team will decide whether to use adjusted age, as appropriate to the clinical situation and the test/diagnostic instrument being used in the evaluation process.
 - a. The evaluation report should clearly state the amount and type of adjustment that was made, if any.

Note: Ref: Memorandum 2005-02 (p.30) and Wilson, S.L. and Craddock, M. M. (2004) *Journal of Pediatric Psychology*, 29 (8): 641-649

Informed Clinical Opinion

1. Informed clinical opinion is “the best use of quantitative and qualitative information by qualified personnel regarding a child and family, if applicable. Such information includes, if applicable, the child’s functional status, rate of change in development, and prognosis.” 10 NYCRR §69-4.1(w)
 - a. Diagnostic instruments and informed clinical opinion must be used in combination to:
 - i. Interpret results of the MDE,
 - ii. Determine the degree of developmental delay, and
 - iii. Formulate a statement of “eligible” or “not eligible”, stating specifically why the child does or does not meet eligibility criteria
 - b. The use of informed clinical opinion is:
 - i. Required by federal regulations in evaluation and assessment procedures for eligibility purposes.
 - ii. A necessary safeguard against eligibility determination based upon isolated information or test scores alone.

Note: Refer to [Appendix C: Informed Clinical Opinion](#) of this chapter of the manual

III. Immediately After an Evaluation is Complete

1. Individual evaluators should verbally share only preliminary results/impressions with the parent at the conclusion of each assessment session, explaining to the parent that the information yet to be compiled and eligibility for the Early Intervention Program is determined by the MDE team.
 - a. Evaluators should also explain that while a child may have a delay, it may not be severe enough for eligibility.
 - b. Individual evaluators should document in their reports that preliminary results were shared with the parent.

IV. Completing and Submitting the Multidisciplinary Report

1. The evaluation team is responsible for preparing an evaluation report and written MDE Summary.
 - a. **Individual evaluations** must provide sufficient information to support the finding of “eligible” or “not eligible”, including an in-depth assessment of the child’s strengths and needs in the specific areas of development that were assessed.
 - i. Refer to [*Appendix B: Best Practice Recommendations For Report Writing and Submission*](#) of this chapter.
 - ii. Refer to the [**Assessing Transportation Needs in The Multidisciplinary Evaluation**](#) policy in this chapter of the manual.

Note:

- Evaluators may make recommendations about the **type(s)** of services that the child may need, **but evaluators may not make recommendations regarding the frequency, duration, and intensity of such services.**
 - c. The **MDE Summary**
 - i. Refer to the [**MDE/Screening Summary Form**](#) in this chapter of the policy and procedure manual.

Note: If a bilingual evaluation was conducted, the summary should also be provided in the parent’s dominant or preferred language or other mode of communication of the parent, if feasible (refer to the policy on *Bilingual Evaluation* in this chapter of the manual).

2. Completes the applicable NYEIS MDE screens when ready to submit the MDE to the Regional Office.

Note: The following forms have been eliminated by NYEIS:

- **Screening Data Entry Form**
- **Core Evaluation Data Entry Form**
- **Multidisciplinary Evaluation Data Entry Form**
- **Supplemental Evaluation Data Entry Form**

- a. *From the Inbox Menu Bar – Click on “Work Queues”*
- b. *Select View: (Provider ID) Evaluations work queue*

- c. *Select the “Task ID” of the case you wish to work on.*
- d. *Select “A Multidisciplinary Evaluation has been assigned to (your agency) for (child name)”*
 - i. *Select “Manage MDE” under Primary Action*
 - ii. *The complete data entry sections appear*

e. Select “Screening” from the navigation bar

Note:

- This section of NYEIS replaces the **Screening Data Entry Form**
- If the child was referred with a “confirmed eligibility diagnosis,” a screening is not permitted.
- If the child was referred with a “suspected delay”, the screening section must be completed.
 - i. *Select “New”*
 - ii. *In response to the question “Was a screening deemed necessary?”, choose either*
 - *“No” or “No with diagnosed condition”: once this is selected, the screening section is complete*
 - *“Yes”: the following screening sections must then be completed:*
 - *Evaluator Details*
 - *Screening Location*
 - *Screen Domains*
 - *Concern About Specific Domains*
 - *Reason for Screen*
 - *Parent Informed of Results*
 - *Screening Details*
 - a. *Refer to the **MDE crosswalk** for a more detailed explanation of fields*

f. Select “Developmental Assessment” from the navigation bar

Note: This section of NYEIS replaces the **Core Evaluation Data Entry Form**

- i. *Select “New” under the Qualified Personnel Involved*
- ii. *Enter “evaluator name” of % (wildcard)*
- iii. *Select the names of the staff who conducted the developmental assessment (a minimum of two people must be selected)*
 - *The staff member must be already entered as a Licensed/ Certified Professional in your agency’s “Employee/Contractor” section of NYEIS.*
 - *Repeat this step for each evaluator on the developmental evaluation team*
- iv. *Enter the Developmental Domain Results by selecting “View” next to each domain*
 - *Select the qualified personnel involved in the assessment of the selected domain*
 - *Select “Edit” and complete the “Domain Status”*

field and the "Date Completed" field

- Repeat this procedure for each of the five domains assessed.
- If "Test Inadequately Represents Child's Developmental Level" or "No Standardized Test Appropriate" is selected for the communication domain, the "evidence-based criteria" section must be completed
- Select "Save"
- v. Select "Location Type" from the drop-down menu
 - Enter location address if the location is other than the "Child's Home".
- vi. Enter Evaluation Diagnosis Results - all fields in this section are mandatory
 - Select an "EI Eligible Diagnosis Code" if the child has an auto-eligible condition for early intervention
 - Select an "Other Eligible Diagnosis Code" if the child is eligible based on delay. A justification statement is required if an ICD-9 code is selected from this category
- vii. Enter Evaluation Methods
 - If "standardized test" is selected, the test results and scores are required
- ix. Select the "New" button above the heading "Diagnostic Tests Administered" if a test was administered.
 - Enter the mandatory information: Test Name and Date administered plus test scores. Either "Save" the data or add sub-scores and then save all the data.
 - Select "Close"
- j. Select "Family Assessment" from the navigation bar
 - i. Select "Offered and Was Refused," or "New" if accepted
 - ii. If "New" is selected, select "Edit" to complete each section
 - iii. Refer to the [MDE Crosswalk](#) for a detailed description of the NYEIS fields.
 - iv. Select "Close" once complete.

k. Select "Supplemental Evaluation" on the navigation bar (if applicable).

Note: This section replaces the **Supplemental Evaluation Data Entry Form**

- i. Enter evaluator name or % (wildcard) under Search Evaluator for Assignment
 - Select the assigned Employee/Contractor
 - The staff member(s) must be already

entered as a Licensed/ Certified Professional in your agency's "Employee/Contractor" section of NYEIS.

- ii. Select "In-Depth Assessment" **OR** "Diagnostic Evaluation"*
- iii. Select "New" under the "Developmental Domain Results"*
 - Select the developmental domain*
 - Select "Save"*
 - Enter the "Domain Status" field and the "Date Completed" field*
 - Select "Save"*
- iv. For the remainder of the Supplemental NYEIS screen, follow the procedure under the Developmental Assessment section above starting from: 3.i.v Select "Location Type"*

I. Select "External Evaluations" on the navigation bar (if applicable).

Note:

- "If an "external evaluation" is performed on a child by a licensed professional, such as a physician or psychologist, who is not approved by the Department as qualified personnel under the EIP, or who is not under contract with the municipality, a multidisciplinary evaluation that is performed by an approved evaluator under contract with the municipality is still required to determine eligibility for the EIP. The evaluator may, with parental consent, review, verify and use the findings from such an "external evaluation", provided that it adheres to existing regulations for other evaluations [10 NYCRR §69-4.8(a)(5)].
- Evaluation results from an "external evaluation" cannot serve as the sole basis for the child's eligibility or for the sole assessment of one of the five developmental domains. Although the evaluator may use findings from an "external evaluation", the findings do not replace the multidisciplinary evaluation or the requirement that the evaluator determine the child's eligibility for the EIP. If a parent disagrees with the determination of the evaluator, the parent must be advised of their due process rights in accordance with PHL §2549(1)."

- i. Evaluator Details – All information in this section is mandatory:*
 - Evaluator Name*
 - Agency Affiliation Name*
 - Profession (drop down list)*
 - Date Evaluation Conducted*
- ii. Please Check All that Apply – Identify the sources used to determine the assessment results by checking the appropriate boxes.*
- iii. Select "In-Depth Assessment" **OR** "Diagnostic Evaluation" to specify the Type of Evaluation*
- iv. Approved Evaluation Team must certify:*

- *The procedures used by the external evaluator were performed in a manner consistent with EIP requirements*
 - *The findings were used to augment and not replace the evaluation to determine eligibility*
 - *There are no indications present which suggest the need to repeat the tests or procedures performed by the evaluator*
- v. *Health Assessment – Certification is necessary to confirm that the external health assessment was performed recently and accurately represents the child.*
- vi. *General Health Status – Information regarding the child’s health concerns/ issues may be included.*
- vii. *The evaluation diagnosis results are mandatory and must be completed as designated by the diagnosis headers and subsequent questions.*
- *If there has been a diagnosis established as a result of this external evaluation:*
 - *Select “Other Eligible Diagnosis Code” and search for the appropriate ICD-9 Code.*
 - *Multiple codes may be entered*
 - *Date completed is mandatory.*
 - *Indicate if the assessment was bilingual.*
- viii. *Enter Evaluation Methods*
- *If “standardized test” is selected, the test results and scores are required in the attached report*
- ix. *General Evaluation Comments*
- *Comments are not mandatory*
- x. *Select “Save” once completed*

m. Select “MDE Home” from the navigation bar

Note: This section of NYEIS replaces the **Multidisciplinary Evaluation Data Entry Form**

- i. *Select “View” under “MDE summary details”*
- ii. *Select “Edit”*
- iii. *Enter mandatory fields under “Eligibility”*
- *Select “Eligibility Status” from the drop-down list*
 - *Select “Date Eligibility Determined”*
 - *If the child is eligible because of a diagnosed condition, use the date of the evaluation that determined the condition.*
 - *If the child is eligible because of a developmental delay, use the date the evaluation summary is completed.*
 - *Enter “Date Full MDE Completed”*
 - *Parent(s) Received Summary of MDE - Select Yes or No.*

- *Parent must receive a copy of the MDE for the MDE to be submitted.*
- *Parent(s) Received Summary of MDE in Their Dominant Language - Select Yes or No.*
- *Parent(s) Received The Full Evaluation Report - Select Yes or No.*
- iv. *Enter mandatory fields under “Diagnosis Details”*
 - *EI Eligible Diagnosis Code - If a child has an automatic eligibility condition, the condition must be entered in this box.*
 - *NYEIS will generate a list that only includes the ICD - 9 codes entered in previous sections of the MDE*
 - *Date of Diagnosis - Provide the date that the diagnosis was made*
 - *Diagnosis Made By - Select from the drop - down list.*
 - *Other Eligible Diagnosis Code - The diagnosis (and ICD 9 code number) which makes the child eligible must be listed.*
 - *NYEIS will generate a list that only includes the ICD - 9 codes entered in previous sections of the MDE*
 - *If Other ICD Code, Justification - Provide a reason why the code was selected*
 - *Other Diagnosis Not Related to Eligibility - Select all other diagnoses as indicated from the developmental evaluation and supplemental evaluation(s).*
 - *Screening Only Diagnosis Code - Enter the appropriate “V” code*
- v. *Eligibility Statement - Indicate “MDE summary attached”*
- vi. *Child Transportation Needs - Select Yes or No.*
- vii. *Select “Save”*

3. Attaches the following documents to the “MDE Attachments” section in NYEIS **30 calendar days after the child’s initial referral to EIP:**

- **Consents for Evaluation/Screening** (one for the Core Evaluation and for each Supplemental Evaluation) signed and dated by the parent/surrogate parent
- **Health Assessment**
 - **Medical form** (or electronic medical record print-out signed by doctor)
- **MDE Summary** (and translation into the parent’s dominant/preferred language if applicable)
- Full evaluation reports including:

- **Developmental Assessment (including Parent Interview)**
- **Optional Family Assessment**
- **Supplemental evaluations(s) (if necessary)**
- **Attestation Statements** must be included in each report
- **Other sources of information** (w/ parent consent; ex: medical records)
- **Screening Summary** (if applicable)
- **Screening Report** (if applicable)
- **External Evaluation** (if applicable)

Note: Evaluation agencies can use the MDE Checklist to aid them in submitting completed MDE packets and to avoid rejection of the MDE packet by the Regional Office.

- a. *Select “MDE Attachments” on the navigation bar*
 - i. *Select “New” to add an attachment*
 - ii. *Select the “type of Attachment” under “Evaluation File”*
 - *Consents for evaluation and screening are attachment type “Evaluation Attachment”*
 - *Health Assessment is attachment type “Medical Form”*
 - *MDE Summary should be attachment type “Summary”*
 - *Developmental Assessment and parent Interview are attachment type “Developmental Assessment”*
 - *Family Assessment is attached as “Family Assessment”*
 - *Supplemental evaluations should be attached as “Supplemental Evaluations”*
 - *Other sources of information are attachment type “Evaluation Attachment”*
 - *Screening Summary and Screening report are attachment type “Screening”*
 - iii. *Select “Browse” to choose the file name*
 - *Attachments cannot be larger than 1.5MB each*
 - iv. *DO NOT enter any information in the “Location” and “Reference” fields*
 - v. *Complete the “Comments” field by listing the name of the document being attached*
 - vi. *Select “Save”*
 - *A “View” option appears where the attachment can be edited or deleted before it is submitted with the MDE screens to the Regional Office*
 - *Select “New” to attach another attachment*

Dear Early Intervention Official Designee:

I authorize the evaluation of my child by: _____
Name of Evaluation Site

to determine my child's eligibility for the Early Intervention Program. I understand that several people will be involved in the evaluation process. I also understand that the evaluation site that i have selected will coordinate the evaluation(s) and is the only agency authorized to arrange an Early Intervention evaluation for my child.

I have been informed that I will be involved in my child's evaluation and, I will receive the results of all evaluations, and that a copy of all evaluations will be forwarded to the NYC Early Intervention Program. If my child is eligible for the Early Intervention Program, the evaluations will assist in developing my child's Individualized Family Service Plan (IFSP).

INSTRUCTIONS FOR COMPLETION

CONSENT FOR EVALUATION AND SCREENING

This form is to be signed by the birth/adoptive parent or the surrogate parent giving permission for an evaluation **before** any evaluation may be performed. A representative from the evaluation site must also sign this form. If several different EI agencies are participating in a child's evaluation, **each** agency needs a separate consent form.

It is expected that the evaluation site will clearly explain to parents their right to an evaluation within 30 days of the child's referral to the NYC Early Intervention Program, and that any evaluator accepting a child for an evaluation must make all attempts to conform to the contractual obligation of submitting a completed evaluation to the Regional Office via New York Early Intervention System (NYEIS) **within 30 days of the child's referral to the EIP.**

This form is not to be used with a foster parent unless the NYC Early Intervention Program has assigned that person to be the surrogate parent ([Refer to Chapter 2 – Foster Care & Surrogacy](#).) If the parent of a child who is in foster care is available and able to give informed consent for evaluation, that parent may sign this form.

The **Consent for Evaluation** form(s) with the appropriate signature must be submitted with the evaluation reports in NYEIS. Failure to obtain this consent from the parent, person in parental relationship, or assigned surrogate parent **prior** to the initiation of each evaluation **will affect payment for the evaluation.**

An evaluation can be reimbursed by the NYC Early Intervention Program **only** if the evaluator has a contract with NYC DOHMH and has submitted complete documentation to the Regional Office via NYEIS (i.e., **Summary of Multidisciplinary Evaluation**, and evaluation reports).

SUMMARY OF MULTIDISCIPLINARY EVALUATION (MDE)

Screening Evaluation

Child's Name: _____ Date of Evaluation: ____ / ____ / ____
EI #: _____ DOB: ____ / ____ / ____

SIGNATURE OF PERSON COMPLETING SUMMARY:

I certify that the determination of eligibility and the summary of the multidisciplinary evaluation or screening is based upon an interview with the above-named child's parent/surrogate parent (or other guardian if there is no available parent), a general assessment of the child's level of functioning in each of the five developmental domains, and an in-depth assessment in the specific domain(s) in which there is a suspected delay. I further certify that to the best of my knowledge, age-appropriate instruments and procedures and informed clinical opinion were employed in such assessments.

Signature Date: ____ / ____ / ____

Print name, title and license number

Summary of Evaluation:

- I. Name, title and disciplines of the persons performing the evaluation and assessment
- II. The child's health assessment (e.g., recent physical examination report, hospital discharge summary)
- Describe the nature of any delay with obtaining Health Assessment Information from the child's primary care provider (if applicable)
- III. Summary of Parent Interview and optional Family Assessment
- IV. Description of the assessment process and conditions
- V. Measures and/or scores that were used, if any; and an explanation of these measures or scores
- VI. The child's responses and the family's belief about whether the responses were optimal
- VII. How informed clinical opinion was used by the evaluation team in assessing the child's developmental status and potential eligibility for the EIP
- VIII. The child's developmental status in the five developmental domains, including the unique strengths and needs in each area
- IX. A clear statement of the child's eligibility
- X. Nature of child's/family's transportation needs

If a bilingual evaluation is conducted, this summary should also be provided in the parent's dominant or preferred language or other mode of communication of the parent, if feasible.

SUMMARY OF MULTIDISCIPLINARY EVALUATION (MDE)/SCREENING

INSTRUCTIONS FOR COMPLETION

EIP regulations require the evaluation team to prepare a written summary integrating the results of all the evaluations (Core and Supplemental). Any discrepancies between the evaluations must be explained. To the extent feasible and within the parent's preference and consent regarding disclosure to the interpreter, and within confidentiality requirements, this summary should be provided in the dominant language or other mode of communication of the parent. The components of the MDE summary and reports are outlined in 10NYCRR69-4.8 (a) (9) (i-iii)

NOTE: If the evaluation found the child not eligible for Early Intervention services, the evaluation team remains responsible for completing the Summary of Multidisciplinary Evaluation/Screening.

- Check the appropriate box: **Evaluation** or **Screening** to indicate report type.
- Provide the requested identifying information for the child.

Write the date that the MDE Summary/Screening was completed.

- *The person writing the summary must, sign and date the attestation, printing his/her name, title and license number (if appropriate) below the signature.*

Note: The person completing the summary must be a member of the IFSP team (10NYCRR 69-4.8(a) (9) (i))

The Summary of the Multidisciplinary Evaluation/Screening is a narrative report containing the following information:

- I. List of the name, title, and discipline of all individuals involved in the evaluation and assessment of the child.
- II. The child's health assessment, which should include any relevant medical information, such as current health status and medical history, appropriate ICD-9 code for a diagnosed condition with a high probability of resulting in developmental delay, and any other information pertaining to the child's development.
 - a. Describe the Nature of Delay with Obtaining Health Assessment Information from the child's primary care provider (if applicable).
 - Describe the frequent and persistent attempts made to obtain health assessment information
- III. Summary of Parent Interview and optional Family Assessment:
 - a. Parent Interview: include information about the family's resources, priorities and concerns related to the child's development and developmental progress.
 - If the child is in foster care, the parent interview should include both the biological parent and foster parent with parental consent
 - b. Family Assessment (optional): identify formal supports and services available through the EIP or other service delivery systems (e.g., family training, family/parent support groups, services through the Office of People with Developmental Delays) that the family may want to access.

Identify informal supports and community resources available to the family (i.e. family and friends, playgroups that can assist the family in enhancing their child's development, etc.).

IV. Description of the assessment process and conditions:

- a. List the various types of information sources used to determine the child's developmental status (as required by regulation), such as:
 - Standardized or criterion referenced instrument(s) (Detailed in item V)
 - Direct observation of the child (Detailed in item VI)
 - Qualitative criteria for communication only evaluations
 - Interview with parent to determine perceptions of the child's abilities and performance on date(s) of testing (findings detailed in item VI)
 - Informed clinical opinion (findings detailed in item VII)
 - Any other sources of information relevant to the eligibility determination, with parental consent (e.g., medical information, report from relatives or family members, family day care or child care provider, name of foster care agency).
- b. Describe the conditions of the evaluation (required by regulation to ensure the accuracy of the results.) Include the following:
 - The style of the evaluation (e.g., arena, individual)
 - How parent/caregiver was involved
 - The evaluation setting, noting any possible impact on the child's performance
 - The child's state at the time of the evaluation (e.g., tired, irritable, hungry, alert, active).
- c. Describe how the evaluation is responsive to the cultural and linguistic background of the family (to ensure discriminatory evaluation and assessment procedures are employed). This may include:
 - A statement of the extent to which the child was exposed to different languages;
 - Whether a bilingual evaluation was indicated and conducted;
 - Whether and how an interpreter was used (the name and relationship of the interpreter to the family, if any);
 - The methodology used to conduct the bilingual evaluation with or without an interpreter and the child's response; and
 - The repertoire of words or sounds in all languages of exposure.
 - The combined number of words in all languages that the child is exposed to need to be listed and considered together when making a determination regarding the child's developmental status.

V. Measures and/or scores that were used, if any; and an explanation of these measures or scores:

- a. Identify the instruments used and provide an explanation of the scores/ results obtained, including relevance to the child's level of functioning.
 - The instrument used must be from the SDOH preferred list of instruments
 - A justification must be provided if an instrument that is not on the preferred list is used
- b. This may include a discussion of the limitations of a tool when the evaluator has determined that the scores do not accurately reflect the child's level of functioning.
- c. For communication only where no norm referenced instrument is available or appropriate, use the qualitative criteria articulated in NYS 10NYCRR 69-4.23

VI. The child's response to the procedures and instruments used as part of the evaluation process, and the family's belief about whether the responses were optimal:

- a. Report on the child’s response to all evaluation procedures. This may include the child’s spontaneous response, elicited response, or facilitated response to the parent/caregiver or the evaluator, etc.
- b. Report on family’s belief about whether the responses were optimal; provide individualized information.

VII. How informed clinical opinion was used by the evaluation team in assessing the child’s developmental status and potential eligibility for the EIP. (As stated in Memorandum 2005-02, pg 10, and defined at 10NYCRR 69-4.1(w), informed clinical opinion, for the purposes of the EIP, is “the best use of quantitative and qualitative information by qualified personnel regarding a child, and family if applicable. Such information includes, if applicable, the child’s functional status and rate of change in development and prognosis.”)

- a. Based on the evaluators’ professional expertise, describe any qualitative factors impacting the child’s functioning.
- b. Ensure that results of procedures and instruments used from all evaluations are integrated to address discrepancies between reports, and accurately determine child’s functioning ability in each developmental domain.

VIII. Report of the child’s level of functioning in each of the five developmental domains; and report of the unique strengths and needs in each area.

IX. A clear statement of the child’s eligibility:

If eligibility criteria are met	If eligibility criteria are not met
<ul style="list-style-type: none"> • A statement documenting that the child is eligible for the EIP based on a diagnosed condition with a high probability of resulting in developmental delay and associated ICD-9 code; or • A statement of developmental delay consistent with NYCRR69-4.8(a)(9)(iii) (a statement describing “the child’s developmental status including objective and qualitative criteria in sufficient detail to demonstrate how the child meets the eligibility criteria for the program”) and associated ICD-9 code for developmental delay 	<p>A statement documenting reasons why the child is not eligible for the EIP. <u>Examples of reasons</u>: the child’s development is within acceptable limits; the child is not experiencing a developmental delay consistent with the State’s definition of developmental delay (NOTE: <i>It is possible for a child to have a developmental delay and not meet the eligibility criteria for the EIP</i>)</p>

As stated in the Memorandum 2005-02, “Eligibility cannot be made on the basis of isolated delays in specific skill areas. Rather, the MDE team must, using *their* informed clinical opinion, decide whether **composite evaluation findings, considered together**, are consistent with eligibility criteria for the EIP”

X. Nature of child’s/family’s transportation needs:

- a. Information includes: parents’ ability or inability to provide transportation; the child’s special needs related to transportation; safety issues/ parental concerns related to transportation, etc.

Appendix B: Best Practice Recommendations for Report Writing and Submission

When preparing the MDE report and summary, take the following best practices into account. In addition, the report and MDE summary should:

Explain any discrepancies or differences between individual evaluations, between parent report and test results, or between incidental observations of skills.

1. Describe the child's medical history including:
 - a. Birth history
 - b. Diagnosed condition (ex: Reflux)
 - c. Medications
 - d. Hospitalizations and surgeries
2. Describe the child's **recent history** when significant (separation, placement in foster care, arrival of sibling, move, hospitalization, etc.) and discuss possible impact on functioning.
3. Describe the **conditions** of the evaluation:
 - a. Setting of evaluation
 - b. Factors affecting child on the day of evaluation (sleepy, hungry, awakening from nap, etc.)
 - c. Who was present including all evaluators, if arena-style evaluation was conducted and impact on child's functioning
 - d. How the evaluator established rapport with child
 - e. How the parent's participation was facilitated
 - f. Informal and incidental observations of the child's functioning
 - g. How the child and family were introduced to the formal aspects of the evaluation process
4. Describe the child's performance through **vivid and detailed vignettes of behavior**, which will include language and behavior samples, play-based assessments, interviews with parent(s) and, when appropriate, other caregivers, to determine the child's functional developmental status.
5. Report **the family's comments** about how the child's behavior during the evaluation compares to the child's usual behavior.
6. Describe the child's **emerging skills**.
7. **Use family-friendly language**. Explain professional terms if they must be used).
8. Describe the **child's strengths** as well as **needs**.
9. When the child demonstrates a delay, explain clearly what the deficit(s) is/are, both within the context of that developmental domain as well as its impact on the child's overall development.
10. Clearly distinguish whether the delay is due to immaturity and lack of exposure and is expected to disappear with age, or is a true developmental delay.
11. **Address parental concerns clearly and fully**.
12. **Report accurately** measures, scores and any other results from the instruments that were used.

13. Provide an **explanation** of these measures, scores or results in a manner easily understandable by parents and other professionals.
14. **Interpret and integrate** information from all sources (observation of play, parent reports, other evaluations, etc.) not just tests.
15. When describing what skills the child can and cannot do, only list developmentally expected/appropriate skills.
16. **Make use of relevant available medical information** about the child to assess functioning where applicable.
17. **Always include diagnostic information** (and ICD9 code).
18. Adhere to regulations requiring use of clinical opinion in addition to formal assessment, review of pertinent health records, observations, and parental report to arrive at a determination of the **child's functioning ability**.
19. **Clearly document clinical opinion** using, where applicable, the SDOH Clinical Practice Guidelines.
20. Recommend the **types of services** that are clinically appropriate and may be needed to meet the child's needs.
 - a. **Do not make recommendations regarding frequency, duration and intensity of specific services.**
21. Make appropriate recommendations for further evaluations when concerns are raised.
22. Individualize the report. Do not use language that is "canned," "stereotyped," or inappropriate or inapplicable to early intervention (ex: "this will impact vocational skills").
23. Do not make an unwarranted prognosis beyond professional scope or expertise.
24. When eligibility status changes for any reason, ensure that reports document why child is not eligible and that an explanation has been given to the parents.

Appendix C: Informed Clinical Opinion

Developed in conjunction with the NYC Local Early Intervention Coordinating Council: Program and Services Committee (9.25.2009)

Informed Clinical Opinion (ICO) refers to a professional's use of quantitative information (based on test instruments and/or other measurable indicators), qualitative information (based on observation and interviewing) and expertise in a particular area (obtained through professional training) in order to assess an individual's overall functioning. It offers the evaluator the opportunity to utilize his/her professional knowledge in a manner that is critical in providing a better understanding of the unique strengths and needs of the individual being evaluated. In the Early Intervention Program ICO is essential for substantiating the evaluator's recommendations and should be used in conjunction with all other available information in determining eligibility for the Early Intervention Program.

ICO is a required component of every Early Intervention evaluation and Multi-Disciplinary evaluation (MDE) summary. However, it is particularly important when discrepancies exist between an evaluator's clinical impression and any of the following:

- test scores
- caregiver concerns
- findings from other evaluators.

The MDE summary, with input from all evaluators, should explain and discuss areas of agreement as well as discrepancies in order to reach a conclusion regarding the child's overall functioning and eligibility.

New York State provides the following definition of ICO:

Informed Clinical Opinion for the purposes of the Early Intervention Program is defined at 10NYCRR section 69.4.1 (w) as "the best use of quantitative and qualitative information by qualified personnel regarding a child and family, if applicable. Such information includes, if applicable, the child's functional status, rate of change in development and prognosis. When using clinical opinion the evaluator should take into consideration results of standardized instruments, clinical observation, interviews, other measures used, the concerns related to child and family and his/her own clinical background expertise."

Although these regulations underscore the importance of clinical opinion, no specific guidance is provided on how to integrate ICO into both the evaluation report and the MDE in the most useful way. The purpose of this document is to provide a resource for using ICO in the most effective manner in order to ascertain functional status, rate of change in development and prognosis and to determine eligibility for the Early Intervention Program.

Critical Factors in Formulating Informed Clinical Opinion: Individual Evaluation

Data collection

Data regarding a child's functioning is ascertained from four different sources:

1. Caregiver interview
2. Evaluator observations
3. Test performance
4. Medical and/or other relevant evaluations

1. Caregiver Interview

A caregiver interview is essential in understanding the child's functioning. The evaluator should ask open ended, non-judgmental questions regarding the child's functioning in a variety of situations which include: sleeping and eating behaviors, interpersonal relatedness, communication, adaptive skills, child behaviors (tantrums, frustration tolerance) and play activities. The information obtained from the interview should provide very specific details e.g. not only what the child likes to play with, but how the child plays with the toy. The caregiver's concerns should be investigated and responded to in the summary section of the report.

2. Evaluator Observations

The evaluator's observations are critical when substantiating clinical opinion. The evaluator should use qualitative information to create a picture of the child and describe his/her salient characteristics in a way that might not be captured in the quantitative information alone. The following information should be described in detail:

- Child's ability to attend and focus
- Quality of child's interaction with caregiver and with the examiner
- Quality of the child's independent, non-structured play with toys
- Ability of the child to transition
- Quality of the child's ability to move about in his/her environment
- Behavioral attributes, e.g., activity level
- Child's desire to explore and demonstrate curiosity about his/her environment

Whether a child can or cannot complete a specific task is important; however, equally important is the manner in which a child executes the task. Therefore, a description of the quality of the response is essential in forming a clinical opinion. The focus should be on the manner in which the child was able to complete the task: did he/she perform this task deftly and in an age appropriate manner, what strategies did the child use (e.g., using both hands when the task requires only one hand or posturing his/her body in an atypical fashion). In addition, the evaluator must understand a child's functioning within the context of normal development. How does this child's abilities compare to what is expected for his/her age?

3. Test Performance

Whenever possible, a norm referenced assessment instrument should be used to evaluate the child's functioning. However, the test score alone cannot be used to determine eligibility. State regulations require that the MDE include ICO as one of the information sources upon which eligibility is based. Norm referenced and many criterion referenced tests are standardized and can be used for the purposes of documenting a child's strengths and needs; however, they do not provide sufficient information to determine eligibility for the Early Intervention Program. Evaluators should consider the strengths and weaknesses of any test instrument and whether the needs of a specific child are best served by the test. In addition, it is important to consider the psychometric properties of a test instrument and its applicability to a particular age group. Some issues to be aware of:

- Standardized tests may contain components that inherently limit their ability to accurately assess a child's functioning. For example, a test's age range may be too broad to be sufficiently sensitive for a specific age child. Or, the test may have a low item density at the younger ages, but a more adequate density for older age groups. A low density of items may not provide sufficient information regarding the child's functioning in a specific area or an instrument has a large standard error of measurement.
- Developmental assessment instruments base their scores on developmental milestones, not on the underlying factors related to development. In some cases this may limit their ability to fully assess the child's functioning. Developmental milestones do not occur in a vacuum. They consist of many precursors within a developmental trajectory. A description of this trajectory and whether it is developmentally appropriate is critical in describing a child's functioning. For example, the number of words a child uses may be an insufficient indicator of a child's language development when considered separately from other indicators. It is equally important to assess whether the child has developed abilities necessary to form words i.e appropriate oral-motor functioning and the ability to make a variety of sounds.
- The composite or standardized score of an administered test may be rendered as relatively meaningless due to significant intra-domain discrepancies. For example, in some developmental tests fine and gross motor skills are combined into one score. This single, combined score for physical development may demonstrate a significant delay. However, the fine or gross motor scores, individually, may not demonstrate a significant delay. In these cases, an assessment of how the particular delay impacts on other developmental domains should be assessed. For example, a significant delay in the fine motor area might impact on a child's cognitive or adaptive functioning. A child with poor fine motor functioning may not be able to manipulate items in a way that helps him/her learn about his environment, thus limiting acquisition of age appropriate skills. It is critical to examine and interpret these discrepancies. The child's development should be described in comparison to how typically developing children are functioning. Any atypical abilities should be described and interpreted.

4. Medical and/or Other Relevant Evaluations

Parents may have obtained evaluations outside the EIP for their child, e.g., neurological or psychological evaluations. In addition, they may have pertinent medical records that can provide valuable information for the EIP. These evaluations cannot be used to supplant the Early Intervention Multi-Disciplinary evaluation; however, the information from these reports can and should be used to support informed clinical opinion.

Summary

Each evaluator must take the information he or she has obtained through the caregiver interview, evaluator observations, test performance and other relevant evaluations and write an evaluation report that integrates and synthesizes this information. Through this process the evaluator can then describe the significance of the evaluation and provide an interpretation of the results in a manner that can help determine eligibility.

Critical Factors in Formulating Informed Clinical Opinion: MDE Summary

The purpose of a multi-disciplinary evaluation is to assure that a child's functioning in all five domains is fully and accurately assessed to determine eligibility for the Early Intervention Program. ICO is a critical component in documenting eligibility in the MDE summary. ICO requires the integration, synthesis and interpretation of all evaluation findings. In some cases, all evaluations are in concordance and corroborate the parent's concerns. At other times, discrepancies arise among evaluations and/or the caregiver. It is the responsibility of the evaluation team to address and explain these discrepancies.

- The team should integrate information from both qualitative and quantitative data provided by each evaluator and determine the true level of functioning and address the possible reasons for the discrepancies.
- Information from the caregiver interview should be part of each separate evaluation and is an integral component in the overall assessment of the child. At times, the caregiver interview may yield discrepant information among evaluators. Each professional asks questions related to his/her field. It is not uncommon to see different perspectives of the child depending on the questions that were asked. It is the team's responsibility to review, interpret and synthesize information from the evaluators and the caregiver so that these discrepancies can be better understood and explained in the summary.
- Informed Clinical Opinion used within the context of the Team Summary can help provide information regarding how particular deficits, whether they are statistically significant or not, are impacting on the child's development across all domains and determines whether the child is eligible for therapeutic services.

POLICY DESCRIPTION:

All aspects of the multidisciplinary evaluation, including any instruments, tests, and materials used in the evaluation process, must be administered in the child's dominant language unless it is clearly not feasible to do so and consider the unique characteristics of the child. In addition, nondiscriminatory evaluation and assessment procedures shall be employed in all aspects of the evaluation and assessment process. Responsiveness to the cultural background of the family shall be a primary consideration in all aspects of evaluation and assessment.

3. When the child/family speaks a language other than English:
 - a. Evaluation agency is expected to locate an evaluator who speaks the language(s) of the child and family to ensure that:
 - i. The child's core evaluation and any necessary supplemental evaluation(s) are performed by one or more qualified personnel who are bilingual **and if possible** familiar with the child's cultural background.

Note:

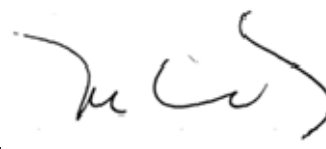

- A parent(s) **cannot** insist that the evaluation be conducted in English or refuse to have the evaluation conducted in the child's dominant language.
- If a parent does not consent to a multidisciplinary evaluation consistent with Federal and State requirements, eligibility cannot be established for the EIP and the municipality is not obligated to develop an IFSP and provide services to the child.

- b. When a bilingual Evaluator (s) is located:
 - i. Evaluator(s) should consider how the following socio-cultural factors impact the child's performance and developmental functioning:
 - Family's values, beliefs and practices
 - *Example: In some cultures, children are fed by the parent and do not have the opportunity to feed themselves until they are much older. This might look like a delay in feeding skills or adaptive development, however according to cultural practices this is the norm.*
 - Communication style
 - ii. When feasible, the evaluator should use tests that have been normed and standardized on the child's linguistic and cultural group.
 - iii. If a child is exposed to more than one language, the evaluation process must take the child's abilities to understand and use each language into account.
 - The receptive and expressive skills of children may develop at different rates in a bilingual/multilingual environment... Because some of the differences in language structure impact the way in which children learn the language, it may appear that a child learning English, who is also influenced by Spanish, is delayed in his language development when in fact it may be a normal variation in the learning process.
(Communication Disorders: Clinical Practice Guidelines pg. 25)

Note: Exposure to another language does not necessarily require a bilingual evaluation. SDOH memorandum 2005-2 FAQ #22

New York City Early Intervention Program

Policy Title: Assessing Transportation Needs in The Multidisciplinary Evaluation	Effective Date For All Referrals Starting Staten Island: 7/12/2011 Bronx: 7/26/2011 Manhattan: 8/9/2011 Queens: 8/23/2011 Brooklyn: 9/7/2011
Policy Number/Attachment: 4-D	Supersedes:
Department/Unit: Bureau of Early Intervention	Regulation/Citation: 10 NYCRR 69-4.8(a)(4)(v)

I. POLICY DESCRIPTION:

Evaluations conducted under the Early Intervention Program must address the issue of the transportation needs of the child, and include this information in the evaluation report without regard to the eligibility of the child for early intervention services at the time of the evaluation. The evaluation team must address the issue of transportation with parent(s) as detailed below, and document the family's responses. A discussion of the transportation needs may be incorporated into any evaluation report, or into the parent interview or family assessment, as determined by the evaluation team.

Consideration of this issue is mandated by Section 69-4.9(a)(4)(v) of the NYS Regulations, which provides that the evaluation shall include:

- (v) an evaluation of the transportation needs of the child, which shall include:
 - a) Parental ability or inability to provide transportation;
 - b) The child's special needs related to transportation; and
 - c) Safety issues/parental concerns related to transportation.

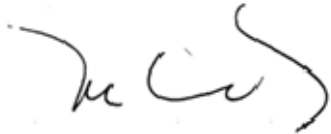

II. PROCEDURE:

Responsible Party	Action
Early Intervention Evaluator	1. Assess the transportation needs for services outside the home with the parent during the course of the Multidisciplinary Evaluation. <ul style="list-style-type: none"> a. The following continuum of transportation services should be discussed: <ul style="list-style-type: none"> i. No transportation needed ii. Parent/guardian may be able to transport child via public transportation or car iii. Parent /guardian unable to transport child – state reason iv. School bus/car service v. Special transportation due to child's medical needs vi. Other needs (e.g., which family members or a nurse will accompany child to services) – be specific.

- b. The evaluation report must address the following transportation issues:
- i. The child's history
 - Sufficient background and information must be given to justify a recommendation for the parent to accompany the child to group developmental services.
 - i. A conclusion that the parent should or should not accompany the child will not be considered sufficient.
 - ii. Medical needs of the child that would dictate a particular means of transportation. (e.g. wheelchair bus)
 - iii. The need for specialized medical equipment or personnel to accompany the child should be cited.

Note:

- If there is no specified medical need for a certain kind of transportation, it is premature for the evaluation to recommend a particular type of transportation.
 - Transportation type will then be determined at the IFSP meeting when it is decided what services the child will be receiving and on what schedule.
2. Assessment of transportation need must be included in the evaluation report and the MDE summary when the full MDE packet is submitted to the Regional Office via NYEIS for review.
- a. Complete submission procedures are located in the **Policy on Multidisciplinary Evaluations** in this chapter of the manual.

NYEIS Multidisciplinary Evaluation: Instructions for Completion

Note: NYEIS navigation instructions appear in *italics*

Screening - This section in NYEIS replaces the Screening Data Entry Form

- *Select “Screening” from the NYEIS navigation bar*
- *Select “New”*

1. **Was a screening deemed necessary?** Select from the drop - down list:
 - a. No - Either the parent is requesting an evaluation, or the child is suspected of having a delay in one or more functional domains
 - b. Yes - The parent may be requesting a screening, or indicating that the child may appear to be slightly delayed
 - c. No - child w/ diagnosed condition - Children with a diagnosed condition that makes them automatically eligible for the EIP should not be screened, but should proceed to an MDE.

Note:

- If the child was referred with a “confirmed eligibility diagnosis,” a screening is not permitted.
- If the child was referred with a “suspected delay,” the screening section must be completed.

- *Select “Save” when the selection is complete*
- *If either “No” option is selected, the screening section is complete*
- *If “Yes” is selected, the NYEIS Screening page will appear. The fields below must be completed:*

2. **Location type** – Select the location from the drop - down list. If the location is other than “Child’s Home,” the “Location Address” must be entered. If location is a provider’s site, must select the “Provider Location.”
3. **Screen domains** - Select all areas that were screened. These areas must be reflected in the Screening report
4. **Concern about specific domains** - Select the area(s) for which the evaluator found a possible delay.
5. **Concern about child’s overall development?** - Select yes or no.
6. **Concern about hearing?** Select yes or no. If yes is selected, the MDE should address hearing
7. **Concern about vision?** Select yes or no. If yes is selected, the MDE should address vision
8. **Performed specific diagnostic screening test?** Select yes or no.
9. **If yes, which test?** Select the specific test from the drop - down.
10. **Was parent informed of the results?** - Select yes or no. The parent must be informed of the results
11. **Date informed** - Enter the date that the screening results were discussed with the parent
12. **Date screening completed or decision not to screen** - Enter the date that the screening was completed.
13. **Screening results** - Select from the drop - down list:
 - a. **Passed** - No MDE needed. Child scored within normal limits and the parent does not request further testing.
 - b. **Child needs MDE** - Child is showing a possible delay in one or more developmental domains
 - c. **Parent requests MDE** - Child does not show a possible delay, but the parent wants an MDE due to continued concerns.

- *Select “Save” to complete the Screening section*
- *The View Screening page will appear*
- *Select “Change/ Assign Rendering Provider” to document the qualified personnel who completed the screening*

- *Enter evaluator name or % (wildcard)*
- *Select the staff member conducting the screening*
- *The staff member must be already entered as a licensed/certified professional in your agency's "Employees/Contractor" section of NYEIS.*

When screening is performed and an MDE does not need to be completed:

- *From the MDE homepage select "View" under the "MDE Summary Details" section*
- *Select "Edit"*
 - *Under the Eligibility category*
 - *Eligibility Status - Select "No MDE, screening only."*
 - *Under the Diagnosis Details category*
 - *Screening Only Diagnosis Code - Enter the appropriate "V" code (usually V79.3)*
- *Enter "Save"*
- *Attach the screening summary and screening report in the "MDE Attachments" section*
 - *Refer to the **MDE Policy** for detailed attachment instructions*
 - *The screening can now be submitted in NYEIS.*

1. Domain status - Select from the drop - down list

- a. *No delay - development within acceptable ranges*
- b. *2.0+ SD below the mean - sufficient alone for eligibility*
- c. *1.5+SD below the mean - similar delay in another functional area needed to establish eligibility*
- d. *12 month delay - sufficient alone for eligibility*
- e. *33% or more delay - sufficient alone for eligibility*
- f. *25% or more delay - similar delay in another functional area needed to establish eligibility*
 - i. *For the communication domain:*

If a test was not administered, or does not represent the child’s functioning, select one of the following options from the drop - down list:

 - a. *No Standardized Test Appropriate, or*

b. Test Inadequately Represents Child’s Developmental Level

Note: The following options are used only to evaluate for on - going eligibility:

- SD or more below the mean
- Outside expected range

2. **Date completed** - The date the evaluation for this Domain is completed
3. **Evidence - based criteria** (Communication Domain ONLY) - This section **must** be completed when the following options were chosen for the Communication Domain Status:
 - a. No Standardized Test Appropriate,
 - b. Test inadequately represents child’s developmental level.
 - i. Dependent on the child’s age (either younger or older than 18 months) select all applicable options in the list.

Note: The evidence - based criteria section **cannot** be completed if a numeric domain status was entered, (for example, 2.0 SD below the mean, etc.).

Family Assessment

- *Select “Family Assessment” from the NYEIS navigation bar*

Note: A family assessment must be offered to all families. A family assessment is the family’s determination of their needs and strengths. A formal tool may be used, or the evaluator may use this page in NYEIS to guide a discussion with the parents. This information is used to assist in developing outcomes or service coordinator tasks for the child’s IFSP. The family assessment may be integrated into an evaluator’s report or written as an individual report.

1. **Select either: “Assessment Offered and Refused” or “New”**
 - a. *If selecting “Assessment Offered and Refused”*
 - i. *Confirm by indicating “Yes”*
 - b. *If choosing “New,” the “Search Evaluator for Assignment” screen will appear*
 - i. *Enter evaluator name or % (wildcard) under “Search Evaluator for Assignment”*
 - ii. *Select the assigned employee/contractor*
 - iii. *The staff member(s) must be already entered as a licensed/certified professional in your agency’s “Employees/Contractor” section of NYEIS.*
 - *Once the evaluator has been assigned, the “View Family Assessment” screen will appear*
2. **Family participants - Select “New”**
 - a. **Name** – Enter the name of the family member participants
 - b. **Relationship** – Select the relationship of the family participant
 - *Select “Save,” or “Save and New” to enter additional participants*
 - *Once the “Family Participants” section is complete, the “View Family Assessment” screen will appear*
 - *Select “Edit” to complete the remaining family assessment fields on the “Modify Family Assessment” page*

Modify Family Assessment

1. **Family assessment tool** - Indicate whether a formal tool was used by selecting Yes or No.
2. **Tool name** - If a formal tool was used, indicate the name.
3. **Other method** - Select Yes or No.
4. **If other method, describe** - Enter how the family assessment was conducted.
5. **Personal interview** - Select yes or no.
6. **I want to know more about** - Indicate if there are other areas for which the parent needs more information.

1. **Eligibility status** - Using the results of the evaluation, indicate the status from the drop - down list.
 - a. **Eligible - Developmental delay** - The child is eligible due to delay(s) determined through evaluation.
 - b. **Eligible diagnosed condition** - The child is automatically eligible due to a medically or clinically diagnosed condition with a high probability of developmental delay. The MDE report must include documentation that the diagnosis was made by an appropriately licensed/certified professional. Please refer to the guidance document from NYS DOH (**Early Intervention Memorandum 1999 – 2 - Reporting of Children’s Eligibility Status Based on Diagnosed Conditions with High Probability of Developmental Delay**) which defines each condition and the qualified personnel who can diagnose the condition.
 - c. **No MDE - Screening only** - Select if only a screening was conducted, no evaluation
 - i. A screening may not be conducted after eligibility has been determined.
 - ii. Refer to the [Screening Crosswalk](#) for detailed instructions of entering screening information into NYEIS
 - d. **Not Eligible - Statement required** - Attach evaluation report.

Note: Ensure that the eligibility status matches the information obtained from the developmental assessment and supplemental evaluation(s)

2. **Date eligibility determined**
 - a. If the child is eligible because of a diagnosed condition, use the date of the evaluation that determined the condition.
 - b. If the child is eligible because of a developmental delay, use the date the evaluation summary is completed.
3. **Date full MDE completed** - Indicate the date that the evaluation summary was completed.
4. **Parent(s) received summary of MDE** - Select Yes or No. Parent must receive a copy of the MDE for the MDE to be submitted.
5. **Parent(s) received summary of MDE in their dominant language** - Select Yes or No.
6. **Parent(s) received the full evaluation report** - Select Yes or No.
7. **EI eligible diagnosis code** - If a child has an automatic eligibility condition, the condition must be entered in this box.
 - a. *Click the magnifying glass*

- b. NYEIS will generate a list that only includes the ICD - 9 codes entered in previous sections of the MDE*
8. **Date of diagnosis** - Provide the date that the diagnosis was made
9. **Diagnosis made by** - Select from the drop - down list. If the diagnosis was made by an external source, documentation must be included in the MDE attachments section and the “External Evaluations” section must be completed.
10. **Other eligible diagnosis code** - The diagnosis (and ICD 9 code number) which makes the child eligible must be listed.
 - a. Click the magnifying glass*
 - b. NYEIS will generate a list that only includes the ICD - 9 codes entered in previous sections of the MDE*
11. **If other ICD code, justification** - Provide a reason why the code was selected
12. **Other diagnosis not related to eligibility** - Select all other diagnoses as indicated from the developmental evaluation and supplemental evaluation(s).
13. **Screening Only diagnosis code** - Enter the appropriate “V” code (usually V79.3)
14. **Eligibility statement** - Indicate “MDE summary attached”
15. **Child transportation needs** - Select Yes or No.
 - a. The Multidisciplinary Evaluation must indicate the transportation needs of the child.
 - i. Consideration shall first be given to provision of transportation by a parent of a child to early intervention services.
 - ii. Transportation may be provided or the parent may be reimbursed at a mileage rate authorized by the municipality for the use of a private vehicle or for other reasonable transportation costs, including public transportation, tolls, and parking fees.
 - iii. If the parent has indicated an inability to provide or access transportation, the evaluator must explain the reason.
 - iv. Refer to the **Assessing Transportation Needs Policy**
 - *Select “Save”*

After all of the necessary NYEIS MDE screens are complete, attach the necessary MDE attachments and submit the MDE as per the **MDE Policy**.

Chapter 5: Individualized Family Service Plan (IFSP)

New York City Early Intervention Program

Policy Title: Individualized Family Service Plan Scheduling Policy	Effective Date: 6/4/2012
Policy Number: 5-A	Supersedes: 5-A – Dated June 1, 2010
Applicable Forms: <ul style="list-style-type: none"> - IFSP Meeting Request and Confirmation Form - Notice of IFSP Meeting (IFSP meeting notice for parents/surrogates) 	Regulation/Citation: NYCRR 69-4.11(a)(1); NYCRR69-4.11(a)(5); NYCRR 69 4.20 (b)(4); Early Intervention Administrative Contract with NYS

I. POLICY DESCRIPTION:

“If the evaluator determines that the infant or toddler is an eligible child, the early intervention official shall convene a meeting within 45 days of the receipt of the child’s referral, to develop the initial IFSP, except under exceptional circumstances, including illness of the child or parent.” **(NYCRR 69-4.11(a)(1))**

“Meeting arrangements must be made with, and written notice provided to, the family and other participants early enough before the meeting date to ensure that they will be able to attend.” **(NYCRR 69-4.11(a)(5))**

“A member of the team performing the Child's Evaluation shall attend meetings for the purposes of developing and reviewing the initial IFSP of a Child. Exceptions to such attendance shall be in accordance with Section 69-4.11(a) (2) (iii) (a) of the Regulations. Under this regulation, in the event that a telephone conference call is to be done, arrangements for such shall be made before the IFSP meeting with appropriate Department employees, and where a knowledgeable authorized representative not a member of the team is to attend, this representative shall be an individual within the category of Qualified Personnel under the Regulations and shall have reviewed the findings of the Evaluation and have discussed it with the Qualified Personnel of the team who conducted the Evaluation.

If the child is over two years of age, the IFSP meeting may be combined with a transition conference (refer to Early Intervention Transition Timelines and Age-Out Dates). “With parent consent, the early intervention official shall convene a conference with the parent, service coordinator, and the chairperson of the Committee on Preschool Special Education or designee, at least 90 days prior to the child’s eligibility for services under Education Law, Section 4410, or no later than 90 days before the child’s third birthday, whichever is first to review program options and if appropriate, establish a transition plan.” **(NYCRR 69-4.20(b)(4))**

The Individualized Family Service Plan Scheduling Policy applies to all IFSP meetings.

Note:

- **Instructions for navigating NYEIS are denoted in *italics* in the body of this Policy**

IFSP Review (6/18/36 month review) Meetings:

1. OSC will submit the **IFSP Meeting Request/Confirmation Form** to the RO within **48 hours** of verbal confirmation, and note if:
 - a. The parent/surrogate would like to exercise the option of a review of records without the EIOD present.
 - b. The parent/surrogate would like to exercise the option of a conference call with the EIOD resent by phone.
 - i. A working telephone number for the conference must be included, on the **IFSP Meeting Request/Confirmation Form**.
 - c. Any interventionist(s) who is unable to attend should be available by phone.
 - i. Participation is required for the pertinent portions of the meeting as indicated by the EIOD.
 - ii. OSC must send to the RO, via fax, the participant's telephone number.

Note: Refer to the **IFSP Review and Annual Meeting Policy** for details regarding review of records without the EIOD present.

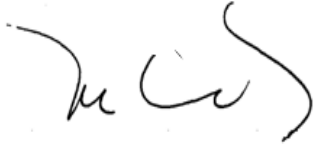

Transition

1. Prior to the IFSP closest to the child's second birthday, transition out of the EIP must be explained to the parent/surrogate by the OSC.
2. At the IFSP closest to the child's second birthday, a Transition Plan must be developed.
 - a. A Transition Conference can only be scheduled with parental/surrogate consent.
 - b. A Transition Conference should include ACS and/or foster care agency staff (if applicable).
 - c. The Transition Conference can be scheduled in conjunction with an Initial, Annual, or Review IFSP meeting (see note below).
3. A representative from the Committee on Preschool Special Education (CPSE) must be invited to a Transition Conference. CPSE administrators are not required to attend the Transition Conference in person; they may be available by phone.
4. The EIOD must be present at a Transition Conference.
 - a. **If an IFSP Review Meeting is scheduled as a Transition Conference, the EIOD must be present.**

Who will be available by phone?

Eval Site Representative Interventionist CPSE Representative Other _____

Phone #(s) of person available by phone: _____

The Service Coordinator MUST notify the RO of the change 24 hrs before the meeting by completing and Faxing Section IV of this form.

**INSTRUCTIONS FOR COMPLETION
IFSP MEETING REQUEST/ CONFIRMATION FORM**

The Service Coordinator (SC) will work with the family to determine a convenient meeting time, date and location for their participation in the IFSP. The Regional Office (RO) will contact the SC by telephone, to determine the family's preference for the meeting. Once the SC is contacted, he/she will complete the IFSP Meeting Request/Confirmation Form as appropriate.

Section I: Completed by SC to submit IFSP meeting request

NOTE: The form has been modified to enable drop-down lists and typed completion of form.

1. **Date** - Write date that the form is sent to the RO
2. **Child's Initials** - First name initial, then last name initial
3. **EI #** - Child's EI ID # or Integrated Case Number
4. **Family's phone #** - A phone number where the family can be reached at all times
5. **Service coordinator**- Name of SC assigned to the child and family, phone and fax numbers for the SC
6. **Type of IFSP**- Use drop-down list to choose IFSP type
7. **Date & Time Requested for IFSP** – Write the date and time of the IFSP meeting **AFTER** it is verbally confirmed with RO Scheduling Unit, parent/guardian, evaluation site representative and others (if applicable and with parent consent).
8. **Location of IFSP Meeting, and Address** – Use the drop-down list to indicate location and write the address **AFTER** it is verbally confirmed with the RO Scheduling Unit, parent/guardian, evaluation site representative and others (if applicable and with parent consent).
9. **Phone Number of IFSP meeting location** - The phone number to be called by members participating by phone.
10. **Special Circumstances:** Describe any special circumstances for which you are requesting more time for the meeting when the situation is complex enough to warrant additional time. It should not be presumed that certain diagnoses, e.g., PDD/autism, will need additional time. As appropriate, the RO will try to schedule additional time.
11. **Service Coordinator must send written confirmation no later than 2 days before the meeting to** – Check the boxes for those invited to attend and sent written confirmation of the scheduled meeting. Send copies of written confirmations to the RO within 48 hours of the verbal confirmation.

Section II: Completed by RO Scheduling Unit when confirming a requested or rescheduled IFSP meeting:

1. **The above IFSP request is confirmed** – Check the first box to confirm meeting if SC faxes form to RO within 48 hours of verbal confirmation.
2. **The above IFSP request CANNOT be confirmed for the following reasons** – Check this box if meeting cannot be confirmed and indicate reason(s). If this form is not received within 48 hours of verbal confirmation, the meeting slot will be removed from the schedule.
3. **Signature and Date** – RO staff will sign, date, and fax back to the SC final confirmation of the meeting request. Meetings are considered confirmed only after the RO faxes back, at least two days before the IFSP date, a signed confirmation/written notice to the SC. A copy of this form will be filed in the child's chart.

Section III: Complete only if the request is to reschedule an already confirmed meeting.

1. **Previous IFSP meeting was cancelled due to** – Check the box (es) indicating who cancelled the previous IFSP meeting when rescheduling.
2. **Service Coordinator must send written confirmation no later than 2 days before the meeting to** - Check those who you invited to attend and sent written confirmation of scheduled meeting. Write date confirmation was sent. Send copies of written confirmations to the RO within 48 hours of verbal confirmation.

Section IV: Complete only if the Evaluation representative, Interventionist or CPSE representative will be available by phone for the meeting.

1. **Who will be available by phone** – Check the appropriate box to indicate who will be available via conference call.
2. **Phone Number(s) of person available by phone** – Provide all the phone number(s) of any individual participating by phone.

The SC must complete and fax this form to the RO at least 24 hours prior to the IFSP meeting when s/he finds out that any of the participants will be available by phone. A copy of the fax confirmation of this form should be brought to the IFSP meeting.

The evaluation site representative or interventionist is expected to call in at the scheduled time of the meeting and to be available for the pertinent portions of the meeting as required by the EIOD (at a minimum: the discussion of the evaluation, outcome determination and recommendations for services).

- The evaluation site representative or interventionist is expected to fax to the EIOD his/her signed attestation (**IFSP Consent For Services Form**) within 24 hours of the IFSP meeting.

Unless the signed attestation form is received from the evaluation site representative or the interventionist, this participant will be considered absent from the meeting.

- Agree on appropriate Early Intervention services that will be provided to achieve identified outcomes.
- Identify and mobilize other services and supports which are not reimbursed or required by the Early Intervention Program, but will enhance the child’s development and family’s capacity to care for their child.” (Early Intervention Memorandum 95-2)

Note:

- **Instructions for navigating NYEIS are denoted in *italics* in the body of this Policy**

II. PROCEDURE:

Responsible Party	Action
Early Intervention Official Designee (EIOD)	<p>The Initial Individualized Family Service Plan (IFSP) meeting is convened at a time and place convenient to the family and within 45 calendar days of receipt of the child’s referral to the New York City Early Intervention Program (EIP).</p> <p>The IFSP is the written plan for providing Early Intervention (EI) services to an eligible child and family. The IFSP is an agreement between the parent/surrogate and the Early Intervention Official Designee (EIOD). The IFSP is developed collaboratively by a team of individuals. Each member of the team serves a primary role:</p> <ul style="list-style-type: none"> • Parent(s)/Surrogate(s): Describes the child; provides information on the family’s concerns, priorities, and resources; collaborates with the other team members to develop desired outcomes for the child and family for the next six (6) months; determines with the EIOD what services will be authorized. • Initial Service Coordinator (ISC): Provides support to the family during the meeting, encouraging their participation; contributes to the discussion as appropriate, enters the IFSP information into NYEIS. • Early Intervention Official Designee (EIOD): Facilitates and guides the meeting ensuring team participation; determines with the parent/surrogate what services will be authorized. • Evaluator: Participates in the development of the IFSP by providing clinical input based on the Multidisciplinary Evaluation (MDE). • Advocate or person outside the family (if invited by the parent/surrogate). • Foster care caseworker (if appropriate). • Committee of Pre-school Special Education (CPSE) administrator (if Initial IFSP is also a Transition Conference). • Service providers (as appropriate). • Other persons such as the child's primary health care provider or child care provider whom the parent(s)/surrogate(s) or ISC (with the parent's/surrogate's consent) may invite. <ol style="list-style-type: none"> 1. The EIOD facilitates the IFSP meeting by: <ul style="list-style-type: none"> • Introducing all members, reviewing parent/surrogate rights; and • Encouraging the active participation of the parent(s)/surrogate(s), the representative of the evaluation team, the ISC, and any other individual(s) present. 2. The EIOD determines if the parent(s)/surrogate(s): <ol style="list-style-type: none"> a. Received the written MDE report and summary, “Your Family Rights in Early Intervention,” and “A Parent’s Guide”. <ol style="list-style-type: none"> i. If parent/surrogate has not received a copy of “A Parent’s Guide”: <ul style="list-style-type: none"> • EIOD will provide a copy or the web link (with parental/surrogate consent) to the guide by the end of the meeting. b. Provided insurance information <ol style="list-style-type: none"> i. If the parent/surrogate has not provided insurance information or has updates to the insurance information, the EIOD: <ul style="list-style-type: none"> • Informs the parent/surrogate about the use of insurance information for the EIP. • Checks the “Integrated Case Home” page “Attachments” to ensure

EIOD Cont.

that a copy of the child's insurance card is present

- *If the Insurance card attachment is missing, obtains a copy of the Insurance card to attach to NYEIS*

 - *Click on the magnifying glass to select the correct address for the selected insurer*
 - *Enter the Insurance Sequence Number to indicate whether this insurance should be billed first*
 - *Commercial Insurance must be billed before Medicaid and, therefore, would be first*

Note:

- **The Insurance Information Form** should only be used if the Insurance Provider Name cannot be found on the Insurance Provider search screen.
- Medicaid coverage information must always be entered into NYEIS.

c. Provided Social Security Information

- i. **Social Security Number Collection Form** MUST be completed by the EIOD as per State Department of Health (SDOH) guidance.
- ii. **The Social Security Collection Form will stay in the child's paper file in the Regional Office. It will NOT be attached to the case in NYEIS.**

Note: The Early Intervention Program (EIP) will provide services whether or not the parent/surrogate provides Social Security Numbers.

d. Understands the results of the evaluation

- i. If parent/surrogate has not received a written copy of the MDE and summary, the EIOD:
 - Asks if the parent/surrogate feels comfortable proceeding with the meeting if the evaluation team representative explains the results before the meeting begins, and if not,
 - Postpones the IFSP meeting until the parent/surrogate has had an opportunity to read and discuss the results of the MDE with the Evaluator, and share reactions to the MDE with the ISC.

3. Team completes IFSP in NYEIS:

- a. *Click on "My Cases" from the Menu Bar*

 - *Must be entered when the initial IFSP meeting occurs more than forty-five (45) days after the date of referral for any reason*
 - *Select the appropriate reason from the drop down menu*
- *Clinically Appropriate Visits per day must not exceed*
 - *The daily visit limitation should equal the number of services authorized per child including service coordination*

ii. *Child’s Level of Functioning*

- *Document family concerns in each area of development, and if family concerns reflect those documented in the MDE*
- ***MDE Summary** must be attached to the IFSP Attachments section in NYEIS*

Note: This information is located on Page 2 of the paper IFSP: Current Development and Family Concerns.

iii. *Child’s Current Setting*

- *Document where the child spends most of his or her time during a typical day*
- *Indicate if the child is in foster care, and whether he/she has visits with the birth parent at the foster care agency*
- *Indicate the languages that the child hears most of the day*
- *Indicate if the child is in Daycare/Child Care Program or if another party assists with childcare i.e. : babysitter, grandparent*

Note:

- This information is located on Page 3 of the paper IFSP: Daily Routines and Activities-Resources section.
- This section must be filled out, in NYEIS, by the ISC and parent/surrogate prior to the IFSP meeting and reviewed/updated by the team at the meeting.

iv. *Family Strengths*

- *Parental Consent Obtained?*

EIOD Cont.

- *Indicate “Yes”. The parent/surrogate has already signed the **Consent to Obtain and Release Information Form** and the **Concerns, Priorities and Resources Form** has been completed with the family by the Initial Service Coordinator*
- *Describe the family’s strengths, priorities, concerns and resources that will enhance the child’s development*
 - *Ensure that responses to the following questions are entered into this section in NYEIS*
 - *Based on our conversation, which of your child’s daily routines and activities would you like EI to help you work with your child on*
 - *Based on your answer(s) to the last question, which concern(s) would you like Early Intervention to focus on (if more than one, list them in order of priority)*

Note:

- This information is located on Page 3 of the paper IFSP, Daily Routines and Activities
- Refer to the **NYEIS IFSP Crosswalk** for detailed instructions.

v. *Outcomes*

- *List desired outcomes of the early intervention services, and include criteria that will be used to determine progress*
 - *EIOD will emphasize that functional outcomes are the cornerstone of the IFSP which describe the practical, desired results that the EI services will help the child and family achieve in the next six (6) months*
 - *Before any functional outcomes are written, the EIOD will discuss that outcomes are:*
 - *Related to everyday routines, activities, and priorities identified while discussing family strengths;*
 - *Designed to help the parent/surrogate encourage the child’s development;*
 - *Identified as developmentally appropriate for the child;*
 - *Designed to be achieved in the authorization period of the IFSP (next six (6) months); and*
 - *Described in a manner agreed upon by the IFSP team.*
 - *Once the functional outcome(s) is/are developed, the team will write the objectives (short term goals) necessary to achieve each functional outcome.*

Note: This information is located on page 4 of the paper IFSP, Functional Outcomes.

vi. *ABA Service*

- *Will any services provided to the child use ABA methodology?*
 - *Choose Yes or No*
- *If Yes, who will provide ABA services*
 - *Currently, NYC EIP does not use ABA aides, select “Qualified Personnel Only”*
- *Comments*
 - *Ensure that this section documents the conversation regarding the New York State EIP recommended amount of*

EIOD Cont.

ABA services and the parent's/surrogate's decision., (For example, 20 hours of ABA services were offered by the EIOD, but the parent/surrogate choose 15 hours per week)

vii. *Natural Environment*

- *Are all services being provided in the child's natural environment?*
 - *Choose Yes or No*
 - *EIOD will explain that federal and state law requires that services be delivered in the natural environment of the child and family whenever possible*
 - *SDOH regulations [NYCRR 69-4.1(ae)] define natural environment as "settings that are natural or normal for the child's age peers who have no disability, including the home, a relative's home..., child care setting, or other community setting in which children without disabilities participate."*
 - *EI services can be delivered in places where the child and family normally spend their time and include activities that are part of the child's and family's*
 - *Team discusses ways in which the therapists may involve and coach the family in using everyday activities/routines as learning opportunities for the child*
 - *Ways in which parent/surrogate would like to be involved in the child's EI services will also be discussed*
 - *If No, explain*
 - *Explain why the service(s) cannot be delivered where the child spends most of his/her time*
 - *The rationale needs to be specific, detailed and developmentally sound*
 - *This information is required by the Individuals with Disabilities Education Act (IDEA)*
- *If any service is being provided in group setting without typically developing peers, explain why the IFSP team agrees this is appropriate*
 - *Explain why the IFSP team agrees that this is the appropriate plan for this child*
- *If child is in daycare, list ways the qualified professionals will train daycare providers to accommodate the needs of the child*
 - *Refer to the NYEIS IFSP Crosswalk for a detailed description and examples*

Note: This information is documented on page 5 of the Paper IFSP, Settings and Incorporating Interventions into Natural Routines.

viii. *Transportation Needs*

- *Transportation Needed?*
 - *Choose Yes or No*
 - *Transportation should only be considered when services are not provided in the home*
- *Caregiver Able to Provide Transportation?*

 - *No transportation Needed- child resides less than 6 blocks from the location of services*
 - *Caregiver – public transportation*

EIOD Cont.

- Caregiver – private car
- Caregiver cannot provide
- Unable to Provide Transportation Reason
 - If the “caregiver cannot provide” option is selected, a detailed reason must be documented
 - Refer to the **NYEIS IFSP Crosswalk** for detailed requirements

Note:

- Consideration is first given to transportation being provided by a parent/surrogate.
- If car service is authorized, a responsible adult must accompany the child.
- Transportation services can only be provided for authorized services by approved providers to:
 - Sites that have SDOH and New York City Department of Health and Mental Hygiene approval, and
 - Subcontracted sites which are listed on the agency’s NYC EIP contract.

ix. *Non-EI Services Needed*

- List other services that may be needed to support the child and family outcomes

 - Parent(s)/Surrogate(s)
 - EIOD
 - Initial Service Coordinator
 - For each, list the Role and Agency name
 - All meeting attendees must sign the **NYEIS IFSP Attendance Sheet**

Note: The NYEIS Attendance Sheet is the last page of the IFSP document that is produced by NYEIS when “Pint IFSP” link is selected from the “IFSP Home Page”.

xii. *Other meeting participants*

- Enter any other IFSP meeting participants, including:
 - Individuals invited by the parent(s)/surrogate(s)
 - CPSE Administrator
 - Foster Care Case Worker
 - For each, list the Role and Agency name
 - All meeting attendees must sign the **NYEIS IFSP Attendance Sheet**

xiii. *Parent Resources*

- Is parent/surrogate eligible for other sources of respite

EIOD Cont.

- *Select Yes or No to indicate if the parent/surrogate may qualify for sources of respite other than through EI*
- *If Yes, what sources*
 - *Indicate whether the family is eligible or has applied for other sources of respite, such as through OPWDD*
- *If yes, date of application*
 - *Enter the date*
 - *Respite Status*
- *If No, explain*

Note:

- This information is located on page 6 of the paper IFSP, Transportation, Assistive Technology and Respite Services.
- The SC should assist the parent/surrogate in obtaining a respite application through OPWDD if the child may be eligible, and the parent/surrogate requests assistance.

xiv. *Transition Plan*

- *Transition to CPSE Discussed?*
 - *Select Yes or No*
 - *If the Initial IFSP is the IFSP closest to the second birthday, Transition must be discussed and the NYEIS Transition Sections completed*
 - *Steps that will be taken to ensure a smooth Transition must be explained*
 - *Refer to the [NYEIS IFSP Crosswalk](#) for additional information*
- *Transition to other Early Childhood and Support Services Discussed*
 - *Select Yes or No*
- *If Yes is selected, list the options that have been discussed with the parent/surrogate including public service options and private service options*
- *Date Transition discussed with parent/surrogates*
 - *If Transition was discussed and documented in the previous questions, enter date of the discussion (this date can be before the date of the IFSP meeting)*
- *Did parent/surrogate consent to allow communication with personnel who will be providing services to the child, to facilitate a smooth transition?*
 - *Select Yes or No*
- *If Yes, then enter procedures to allow qualified personnel to prepare for child's transition*
 - *Include activities such as contacting new teachers/therapists*
- *Other activities that the IFSP participants determined necessary to support the transition of the child*
 - *Include information such as the names of those who might assist, such as current interventionists, staff at the provider agency, community agencies (e.g., [ECDC](#))*

Note:

- If the child is in foster care, the birth parents should be consulted regarding transition plans whenever possible.

EIOD Cont.

- If the IFSP team completes this section in NYEIS, the team must also complete or review the “*Transitions Section*” in NYEIS after the EIOD has “saved” all of the information that was entered on the “*Create IFSP*” NYEIS page.

xv. *Transfers*

- Complete this section **only** if the family will be moving to another NYS municipality in the coming IFSP period
 - Expected transfer date
 - Enter the anticipated move date
 - Receiving municipality
 - Select the NYS county from the drop down list
 - Transfer Comments
 - Enter any information about the parents’ expected move such as address, phone number, whether parent has contacted EI or CPSE in the new municipality

xvi. *Late Services*

- The Delay Status must be completed when the IFSP team is aware that some or all services will be delayed beyond 30 days after the start date of the six month IFSP period
- If **any** service is delayed unexpectedly after the IFSP is authorized, a task is generated to the rendering provider’s Service Authorization Work Queue to provide the reason for the delay
 - Delay status
 - Choose from the drop down list
 - Delay reason
 - Select from the drop down list

xvii. *IFSP Comments*

- IFSP team will discuss any additional concerns and note them in the Additional Concerns section such as:
 - Services that have been recommended but refused by parent/surrogate
 - Reason for waiving billing rules
 - If the discussion indicates that another evaluation type is needed, document the evaluation type and concern
 - If Written Notice was given at the end of the IFSP and the reason for the notice
 - If any of the authorized services do not yet have a rendering provider agency assigned (Pending services)

- f. Once all of the sections on the IFSP home page are completed select “Save” at the bottom of the page
- g. EIOD ensures that the parent/surrogate is given a choice of OSC
- i. Use the **2011 Active Providers, Languages and Specialties** list to give parents/surrogates the choice of OSC
 - ii. Create Ongoing Service Coordination Authorization in NYEIS
 - On the Individualized Family Service Home Screen, under Manage, select, “Add Service Authorization”

I. POLICY DESCRIPTION:

The Individualized Family Service Plan (IFSP) shall be reviewed at six (6) month intervals and shall be evaluated annually to determine the degree to which progress toward achieving the outcomes is being made and whether or not there is a need to amend the IFSP to modify or revise the services being provided or anticipated outcomes. **(NYCRR 69-4.11(b))**

IFSP reviews shall be conducted by an in-person meeting or other means agreed to by the parent, which may include a telephone or video conference call or record review and written correspondence. **(NYCRR 69-4.11(b)(1))**

An IFSP meeting shall be conducted at least annually to evaluate the IFSP for the child and the child's family, and, as appropriate, to revise its provisions. The results of any current evaluations conducted under Section 69-4.8 and any other information available from the ongoing assessment of the child and family must be used in determining the services that are needed and will be provided. **(NYCRR 69-4.11(b)(2))**

The Annual meeting to evaluate the IFSP and Six(6)month reviews must include the parent, EIOD, Service Coordinator, a person directly or indirectly involved in the evaluation, and any other person invited with parent’s consent.. **(NYCRR 69-4.11(b)(3); NYCRR 69-4.11(a)(2-3))**

The New York Early Intervention System (NYEIS) streamlines the process of IFSP reviews. NYEIS contains a feature called Cloning. Cloning allows the user to create a copy of an active IFSP with associated service authorizations and modify it as appropriate for the next IFSP. For some children, the

IFSP will only require modest changes. The Cloning function will be used for IFSP reviews with or without the EIOD present, and Annual IFSP meetings with the EIOD present, when there are no changes to IFSP service authorizations.

Note:

- Instructions for navigating NYEIS are denoted in *italics* in the body of this Policy

NYEIS IFSP Crosswalk – IFSP Details, Child’s Level of Functioning

IFSP DETAILS (Most of the information in this section is in the current IFSP, Identifying Information page 1)

1. **Meeting (Yes/No)** – Yes must be entered for an Initial or Annual IFSP Evaluation. Enter no only for six-month reviews and amendment meetings.
2. **IFSP Meeting Date** – Enter the actual date of the IFSP meeting. Do not enter the date that the ISC completed sections of the IFSP in preparation for the meeting.
 - a. To enter a date:
 - i. Click on the calendar
 - ii. Chose the month from the drop-down list
 - iii. Type in the year
 - iv. Click on the day
3. **Other (Yes/No)** – Enter yes if this meeting is the Transition Conference
4. **Parental Consent Obtained?** Yes must be entered to indicate that the **IFSP Meeting Consent for Services Form** has been signed and is attached in the IFSP Attachments of the IFSP being completed.
 - a. To attach a document in the IFSP attachments section:
 - i. From the Inbox Menu Button – Click on “My Cases”
 - ii. Select the “Case Reference” for this child. This will take you to the child’s “Integrated Case Home Page”
 - iii. Select the “Case Reference” for the IFSP. This will take you to the IFSP home page
 - iv. Select “Attachments”
 - v. Select “New”
 - vi. On the Create Attachment screen:
 - Browse for the file to attach
 - File size cannot be more the 1.5MB
 - Complete the fields under “File Details”
 - DO NOT enter any information in the Location and Reference fields
 - Select the document type
 - Document type for all documents above is “signature”
 - Receipt Date must be the date that the attachment is made
 - Complete the Attachment Description field by listing the name of the form being attached: “IFSP Meeting Consent for Services Form”
 - Select “Save”
5. **Signed Copy of IFSP on file? (Yes/No)** - Yes must be entered to indicate that the **IFSP Meeting Consent for Services Form** has been signed by the parent and attached to this IFSP. Step-by-step instructions to attach a document to an IFSP are listed under the parental consent section.
6. **Reason for IFSP Delay** – Must be entered when the initial IFSP meeting occurs more than forty-five (45) days after the date of referral for any reason. Choose the appropriate reason from the drop-down list.
7. **Clinically Appropriate Visits Per Day Must Not Exceed** – Clinically appropriate visits per day should equal the number of services authorized per child including service coordination. For example, if Occupational Therapy, Physical Therapy, and Special Instructions are authorized, the clinically appropriate visits per day should be “4” to reflect each service type and account for Service Coordination.

Note: For most children 3 visits per day should be sufficient.

CHILD’S LEVEL OF FUNCTIONING (This information is currently located on IFSP, Current Development and Family Concerns Page 2)

8. Provide a statement, based on objective criteria, of the child's present level of functioning in each of the developmental domains (physical, including vision and hearing; cognitive; communication; social or emotional; adaptive). Indicate if the parent has concerns in any domain.
 - a. This section should include a short and concise description of the family's/caregiver's concerns and the child's abilities in everyday life for those areas of concern.
 - i. Note if the MDE results indicated that the child was developing normally in each area of development or if delays were found.

NYEIS IFSP Crosswalk – Child’s Current Setting, Family Strengths, Outcomes, ABA Services

CHILD’S CURRENT SETTING *(This information is currently located on Page 3 of the IFSP, Daily Routines and Activities)*

This section should be completed by the service coordinator in a meeting with the parent prior to the IFSP meeting and saved in NYEIS

Enter the following information into the “Child’s Current Setting” section in NYEIS:

1. **Describe where the child spends most of his or her time during a typical day** – Indicate the settings where the child spends the most time, e.g., home, day care, a relative’s home, a babysitter’s home, a playgroup
 - a. **Day care/caregiver information** –Enter a caregiver’s or program’s name, address, and telephone number.
 - b. **If the child is not in a day care/ child care program/ babysitter, who assists with child care?** Select the individual who assists with child care that the parent wants to be involved in the Family Service Plan. These individuals’ participation in the Service Plan may be direct (working with an interventionist) or indirect (learning new skills from parent/caregiver). For example, a parent may request that the interventionist work directly with the child’s babysitter (direct) and the parent may also want assistance to learn how to show the child’s grandmother speech games to use with the child when they visit the grandmother’s home (indirect.)
 - c. **What language does the child hear most of the day?** – List the language that the child hears or uses during most of the day. This may be different from the dominant language of the parent (e.g., an English-speaking child may have a Spanish-speaking babysitter)
 - d. **Foster Care** - Indicate if the child is in foster care, and whether he/she has visits with the birth parent at the foster care agency

FAMILY STRENGTHS *(This information is currently located on Page 3 of the IFSP, Daily Routines and Activities)*

2. **Parental Consent Obtained?** - Indicate yes. The parent has already signed the **Consent to Obtain and Release Information**, and the **Concerns, Priorities and Resources Form** has been completed with the family by the Initial Service Coordinator
3. **Describe the family’s strengths, priorities, concerns and resources that will enhance the child’s development**

Ensure that the following responses are entered into this section of NYEIS:

- a. Based on our conversation, which of your child’s daily routines and activities would you like Early Intervention to help you work with your child on? List the daily activities that are difficult for the family/caregiver, such as bath time, meal time, nap time, family outings, etc. For example, does the child really enjoy playing with other children yet find it difficult due to a communication delay? Does the child become upset at the shopping mall or on the street when there are a lot of people and noise? Include those activities or routines about which the parent has concerns, such as bathing, mealtime, sleeping, or transitioning from one activity to another.
- b. Based on your answer(s) to the last question, which concern(s) would you like Early Intervention to focus on? List the parent’s concerns in the order in which the parent would like them addressed.

Note: A lot of this information should already have been gathered in the **Family Concerns Priorities and Resources Form** prior to the IFSP meeting

OUTCOMES (*This information is currently entered on page 4 of the IFSP, Functional Outcomes.*)

4. List desired outcomes of the early intervention services to include criteria that will be used to determine progress.

Functional Outcomes – The outcomes, recorded on page 4, represent one of the most important aspects of the IFSP meeting. Outcomes are statements of the changes or results that are expected to happen for the child and family as a result of EI services. All team members at the IFSP meeting should collaborate in developing these outcomes. The outcomes should be related to the child’s developmental needs, the family’s concerns and geared toward the child’s ability to function during the everyday activities outlined on page 3. For example, “*Johnny will be able to sit without support during dinner.*” The team may also develop outcomes for the family, especially to guide services such as Family Counseling. For example, “*Mr. and Mrs. Bowen will learn about Down syndrome and what to expect for their child in order to explain the condition to their friends and family.*”

Specify changes that are expected to occur over the next six months. For example, “*Thomas will be able to communicate his needs by pointing or with words instead of screaming so that the family can visit relatives.*” The outcomes should be unique to the family and give enough information to the interventionist(s) working with the child and family. This will allow the interventionist(s) to develop therapeutic goals and coach family members or caregivers in the activities that can be applied throughout their daily routines. Interventionists will document how they have involved the family in the **Session Note** and **Progress Note** (refer to *Service Delivery Chapter- Chapter 6.*) If desired, family members and caregivers can document their use of the activities or techniques in which they have been coached by the interventionist in a notebook, calendar or other tool.

Each functional outcome should be followed by a list of objectives. Objectives are short-term goals that must be achieved in order for the child to reach the functional outcome. For example:

IFSP Functional Outcome: **Ida will be able to pick up small bits of food like raisins and Cheerios with either hand using the thumb and index figure without resting her arm on the table so that she can feed herself every day during meal time.**

Objective: Ida will pick up a Cheerio with fingers using a scraping movement

Objective: Ida will pick up a Cheerio with the side of her finger and thumb

ABA SERVICES (*This information is not currently entered into the paper IFSP*)

If any services will be provided to the child using ABA methodology, the EIOD must complete this section

5. **Will any services provided to the child use ABA methodology** – Choose yes or no
6. **If Yes, who will provide ABA services** – Currently NYC EIP does not use ABA aides. Select Qualified Personnel Only.
7. **Comments** – Enter any additional information regarding ABA services for this child. Ensure that this section documents the conversation regarding the NYS DOH-recommended amount of ABA services and the parent’s decision.
For example: The parent was offered 20 hours of ABA, but accepted 10 hours of ABA.

NYEIS IFSP Crosswalk – Natural Environment, Transportation Needs, Non-EI Services Needed, Public Programs

8

Public Programs

Enter any public programs the child/family may be eligible for such as (Child Health Plus A or B, Medicaid(Adult), WIC, Lead Program, TANF, Section 8 Housing, Waiver Programs, CSHCN, OMH Services, OMRDD Services, Commission for the Blind & Visually Handicapped or Other).

9

**NYEIS IFSP Crosswalk – Natural Environment, Transportation Needs, Non-EI Services Needed,
Public Programs**

NATURAL ENVIRONMENT *(This information is currently entered on page 5 of the IFSP, Settings and Incorporating Interventions into Natural Routines),*

1. **Are all services being provided in child’s natural environment?** - Choose yes or no
2. **If no, explain** – Explain why the services cannot be delivered where the child spends most of his/her time. The rationale needs to be specific, detailed and developmentally sound. This information is required by the Individuals with Disabilities Education Act (IDEA).
3. **If any service is being provided in a group setting without typically developing peers, explain why IFSP team agrees this is appropriate** – Explain the IFSP team’s reasoning for this decision. For example, does the child have special needs that can best be met in a structured group developmental setting?
4. **If child in day care, list ways the qualified professionals will train day care providers to accommodate the needs of the child** - For example, the interventionist may use a notebook to communicate with the family about the skills on which s/he is working and how the family might practice those skills during the child’s natural routines; phone calls can be arranged at regular times; emails can be exchanged; etc. When appropriate, Family Training sessions can be arranged on a regular basis (monthly, bi-monthly, etc.) at the center or in the home to teach parents/caregivers/siblings to help the child generalize his/her new skills during daily routines. The parent may be interested in having the interventionist attend a monthly family meeting to explain the child’s progress and give suggestions that various family members can incorporate into the child’s and family’s routines.

TRANSPORTATION NEEDS *(This information is currently located on page 6 of the IFSP, Transportation, Assistive Technology and Respite Services.)*

5. **Transportation Needed?** - Choose yes or no
 - a. The team should review the family’s transportation needs related to implementation of the service plan and check the appropriate box
6. **Caregiver Able to Provide Transportation?** - Choose appropriate option:
 - b. No transportation needed (fewer than 6 blocks of travel)
 - c. Caregiver – public
 - d. Caregiver – private car
 - e. Caregiver cannot provide

Note: As per NYS DOH regulations, consideration shall first be given to provision of transportation by the parent of a child. The IFSP team should explore all options. Is transportation needed at all? If so, is the caregiver able to transport the child either by public transportation or by private car? If the family is requesting reimbursement for public transportation or for mileage accrued, note as such.

7. **Unable to Provide Transportation Reason** – If the caregiver is unable to transport the child to the location of service provision, the reason for this inability must be clearly documented. For example, “The family/caregiver works during the day, the child stays at the home of a caregiver who cannot leave the building to transport the child to the location of service.” “The family does not have a car or other means to transport the child to the EI center.” The IFSP team should determine the validity of the reason and proceed to consider whether a school bus or car service is an appropriate option.
 - f. If car service is authorized, a responsible adult must accompany the child. Any special transportation needs (such as a nurse accompanying the child) must be noted; these needs should

be supported by and described in the MDE summary as well as in written documentation supplied by one of the child's medical providers.

NON-EI SERVICES NEEDED *(This section is currently entered on page 7 of the IFSP, Service Coordination Activities)*

8. **Enter any Non-EI services needed by child/family** – List other services that may be needed to support the child and family outcomes, e.g., “Work with the local interchurch council to seek funds for child care so that mother can return to work part-time.”
 - a. **Specifically indicate if this will be an OSC follow-up activity**

PUBLIC PROGRAMS *(This section is currently entered on page 7 of the IFSP, Service Coordination Activities)*

9. **Enter any public programs the child/family may be eligible for**, such as Child Health Plus A or B, Medicaid (adult), WIC, the NYC DOHMH lead program, TANF, Section 8 housing, waiver program, CSHCN, OMH Services, OPWDD Services, Commission for the Blind and Visually Handicapped, or others.
 - a. **Specifically indicate if this will be an OSC follow-up activity**

PARENT RESOURCES *(This information is currently located on page 6 of the IFSP, Transportation, Assistive Technology and Respite Services.)*

3. **Is parent eligible for other sources of respite?** - Choose yes or no
4. **If yes, what sources?** – Enter the sources
 - a. The team should review the statement defining respite services with the family, emphasizing that respite is a temporary service. (If the family needs long-term services, the OSC should assist them in accessing other supports in the community.) Indicate whether a parent/guardian has expressed a need for EI respite services. Indicate whether the family is eligible or has applied for other sources of respite, such as through OPWDD.
5. **Has the family applied for this respite?** - Choose yes or no
6. **If yes, date of application** – Enter the date:
 - b. Click on the calendar,
 - i. Choose the month from the drop-down list
 - ii. Type in the year
 - iii. Click on the day
7. **Respite Status:** – Select the status of the respite application
8. **If No, explain:** - If the family is not eligible for sources of respite outside of the EIP, explain why and document the attempts made to obtain respite.

NYEIS IFSP Crosswalk – Transition, Transfer, Late Services, IFSP Comments

TRANSITION (*Information on this page is currently entered on page 7A and 7B of the IFSP, Transition Plan*)

Identify services/activities necessary to support the child's transition to CPSE or other community services

1. **Transition to CPSE Discussed?** – Choose yes or no
 - a. The steps to a smooth CPSE transition must be explained to the parent, including the dates for *Notification, Transition Conference* and *Referral*. In addition, enter the Department of Education Region and District in which the child resides.
 - b. It is important that the parent understand that it is the parent's responsibility to refer the child to the CPSE for initial evaluations. The OSC should assist the family by helping them write the referral letter and mailing or faxing it to the CPSE. The OSC may, if asked by the parent, assist the family with follow-up. The parent must be informed that his/her child will no longer be eligible for EI services after turning 3 unless the child has been found eligible for services by the CPSE.
 - c. If the parent requests it, the service coordinator may attend the CPSE meeting to determine the child's eligibility for preschool special education services.
2. **Transition to other Early Childhood and Support Services Discussed?**- Choose yes or no
 - a. List the options that have been discussed with the parent and in which the parent shows interest. These may include both government sponsored (e.g., OMRDD, Head Start) and private alternatives (e.g., child care, preschool, playgroups).
3. **Date transition discussed with parents** - If yes to 1 or 2, then enter date of the discussion (this date can be before the date of the IFSP meeting)
 - a. To enter the date, click on the calendar,
 - i. Choose the month from the drop-down list
 - ii. Type in the year
 - iii. Click on the day
4. **Procedures to prepare child for changes in service delivery, including steps to help the child adjust to, and function in, a new setting** - What steps can be taken to assist the transition and the child and family's adjustment to a new setting? For example, SC and interventionists may begin talking to the child and family about changes in services and settings; provide referrals and literature to the family; suggest visiting possible sites or contacting community agencies.
5. **Did parent consent to allow communication with personnel who will be providing services to the child, to facilitate a smooth transition?** – Choose yes or no
6. **If yes, then enter procedures to allow qualified personnel to prepare for child's transition** – Include such activities as contacting new teachers/therapists by phone, sending reports, etc.
7. **Other activities that the IFSP participants determined necessary to support the transition of the child** - Include information such as the names of those who might assist, such as current interventionists, staff at the provider agency, community agencies (e.g., ECDC).

TRANSFER (*This information is not currently entered into the paper IFSP*)

Complete this section if the IFSP team is aware that the family will be moving to another NYS municipality in the coming IFSP period.

8. **Expected transfer date** – Enter the anticipated move date
 - a. To enter the date, click on the calendar,
 - i. Choose the month from the drop-down list
 - ii. Type in the year

iii. Click on the day

9. **Receiving Municipality** - Choose from the drop-down list

10. **Transfer comments** – Enter any information about the parents’ expected move such as address, phone number, whether parent has contacted EI or CPSE in the new municipality.

LATE SERVICES

In the **Late Services** section of the IFSP, the **Delay Status** *must* be completed when the IFSP team is aware that some or all services will be delayed beyond 30 days after the start date of the six-month IFSP period. The EIOD or SC *must* enter a **Delay Reason Code** in this scenario. If an individual service is delayed unexpectedly after the IFSP is authorized, a task will be generated to the rendering provider’s Service Authorization Work Queue to provide the reason for the delay.

11. **Delay status** - Choose from the drop-down list:

- a. All services will be delayed
- b. Some services will be delayed

12. **Delay reason** - Choose from the drop-down list:

- c. Family – delayed response/consent for appointment
- d. Family – missed canceled appointment
- e. Family – problem scheduling appointment
- f. Other
- g. Provider scheduling problem/waitlist
- h. Weather/other emergency declared

IFSP COMMENTS

13. This section should be used for EIODs or service coordinators to enter any items discussed at the IFSP meeting that may not have been written in other sections such as:

- a. Services offered and discussed by EIODs that the parents turned down and the reason
- b. If during the IFSP meeting it becomes evident that another evaluation is needed for additional information
- c. If Written Notice was given at the end of the IFSP and the reason
- d. Any upfront waivers that are authorized
 - i. Indicate the service type(s)
- e. If any of the authorized services do not have a rendering provider agency assigned
- f. If the child is in foster care, how the birth parent will be involved in EI services (if applicable)

INSTRUCTIONS FOR IFSP PAGE 1

IDENTIFYING INFORMATION, SIGNATURES

1. **Child's Name** - The child's complete legal name, written last name first. The child's name should be written **last name first** throughout the IFSP document. Do not use nicknames and/or abbreviations. If the child is/was known by another name, write **AKA** and the other name below the (*last*) or (*first*) sections of the line.
2. **EI Number** - The child's EI number as issued by the NYC EIP.
3. **Child's DOB** - Child's date of birth in month, date, year (2 digits) order. For example, March 25, 2008 would be written 03/25/08.
4. **Today's Date** - Write the date on which the IFSP meeting is being held. This date will appear at the top of each page of the IFSP.
5. **Gender** - Check the box for male (M) or female (F).
6. **IFSP Meeting** - Check the appropriate box to indicate whether the IFSP is an Interim, Initial, 6 Month, etc. Also check the *Amended* box if this is an amended IFSP, so that it is clear which IFSP period is being amended. If the Transition Plan is developed or the Transition Conference is held as part of the IFSP meeting, check the box for *Transition Plan* or *Transition Conference* in addition to the IFSP period.
7. **Date of Initial IFSP** - Write the date on which the initial IFSP meeting is (or was) held. If this is an Initial IFSP, this will be the **same** date as **Today's Date** in the upper right hand corner. For all other meetings, always write the date the initial meeting was held.
8. **Effective Dates** - At the initial IFSP, write the effective dates of the 6 Month Review and Annual IFSP.
 - *The effective date of the 6 month IFSP is the day after the end date of the initial IFSP*
 - *The effective date of the annual IFSP is the day after the end date of the 6 month IFSP*(Refer to the schedules in the Appendix.)
9. **Mother's/Guardian's Name** - The biological or adoptive mother's/guardian's name.
10. **Father's/ Guardian's Name** - The biological or adoptive father's/guardian's name.
11. **Child's Address/Apartment Number** - The complete address where the child resides. If the address is a *private residence*, write **PH** next to *Apt. #*. Be sure to include the borough of residence or city (for Queens) and the zip code. (**NOTE:** This is the address of the foster parent if the child is in foster care. Block out the name, address and phone number of the foster parent before the IFSP is given to the biological parent or advocate.)
12. **Parents' Language** - The dominant language spoken by the family. Indicate more than one language if two languages are regularly spoken in the home. Indicate if parent/guardian uses sign language primarily. This information is used, in part, to determine if accommodations will be needed for future reviews
13. **Home Phone #** - Indicate N/A if there is no telephone.
14. **Alternate Phone #** - An alternate daytime telephone number at which a family member can be reached.
15. **Cell Phone #** - Indicate N/A if there is no cell phone.

16. **Foster Care Information** - Indicate whether the child is in foster care, the names of the foster parent/surrogate, the foster care agency and the caseworker involved, and the *agency* address, telephone and fax numbers. (See NOTE for #12 above.).
17. **Ethnicity/Race** – Check the appropriate box for **both** *Ethnicity* and *Race*. (**NOTE:** This is a federal requirement which *must* be completed.) Parents should be asked to check the boxes that they are most comfortable with. **More than one racial designation for a child can be selected.** If the parent refuses to complete this information, write this on the form.
19. **Participant’s Name and Signature** – Each person attending the meeting, including any interpreter, prints and signs his/her name to indicate his/her presence.
21. **Agency-** The employer of each person present, except the parent/guardian, who may write “N/A” in this section or leave it blank.

NOTE: In an emergency situation, in which a clinician can only participate in the meeting via telephone, the EIOD must document the clinician’s name, title/discipline, Agency name and that the individual was “available by phone.”

MEDICAL INFORMATION

1. List relevant diagnoses or conditions, e.g., cerebral palsy, autism, Down syndrome, failure to thrive, etc. Write the diagnoses in words; do not use the ICD 9 codes.
2. List relevant medical alerts such as allergies, medications or other information that the interventionist should know.

INSTRUCTIONS FOR IFSP PAGE 3

DAILY ROUTINES AND ACTIVITIES

Priorities:

1. Based on our conversation, which of your child's daily routines and activities would you like Early Intervention to help you work with your child on – List the daily activities that are difficult for the family/caregiver, such as bath time, meal time, nap time, family outings, etc. For example, does the child really enjoy playing with other children yet find it difficult due to a communication delay? Does the child become upset at the shopping mall or on the street when there are a lot of people and noise? Include those activities or routines about which the parent has concerns, such as bathing, mealtime, sleeping, or transitioning from one activity to another.
2. Based on your answer(s) to the last question, which concern(s) would you like Early Intervention to focus on (if more than one, list them in order of priority) - List the parent's concerns in order of in which you would like them addressed

Resources:

This page must be completed by the ISC with the parent prior to the IFSP meeting.

1. **Where does your child spend most of his/her time during a typical day?** - Select the settings where the child spends the most time, e.g., home, day care, a relative's home, a babysitter's home, a playgroup.
2. **Day Care/C aregiver Information** –Complete the caregiver's or program's name, address, and telephone number.
3. **If your child is not in a Daycare/ Child Care Program/ Babysitter who assists you with childcare?** Select the individual who assists with child care that the parent wants to be involved in the Family Service Plan. These individuals' participation in the Service Plan may be direct (working with an interventionist) or indirect (learning new skills from parent/caregiver). For example, a parent may request that the interventionist work directly with the child's babysitter (direct) and the parent may also want assistance to learn how to show the child's grandmother speech games to use with the child when they visit the grandmother's home (indirect).
4. **What language does your child hear most of the day?** – List the language that the child hears or uses during most of the day. This may be different from the dominant language of the parent (e.g., an English speaking child may have a Spanish speaking babysitter.)

When early intervention services are provided in places where your family typically lives, learns and plays, (family's daily routine/natural environment), progress is made more quickly. Young children learn best by socializing and playing with people they are close to (parents, family members, babysitters, childcare workers, and other children), and in places they know and like. The questions on this page will help families identify natural learning opportunities throughout the child's day and, how interventions can be made a part of your daily activities.

Priorities:

1. Based on our conversation, which of your child's daily routines and activities would you like Early Intervention to help you work with your child on (ex: **At home:** bath time, meal time, naps, dressing/ **Outside:** Shopping, attending childcare, visiting friends or family **Events:** Family get-togethers/ Places parent and child go together)?

2. Based on your answer(s) to the last question, which concern(s) would you like Early Intervention to focus on (if more than one, list them in order of priority)?

INSTRUCTIONS FOR IFSP PAGE 4
FUNCTIONAL OUTCOMES

1. **Today's Date** – The date of the initial or annual IFSP meeting at which the outcomes are developed.
2. **Date of Review** – The date of the 6, 18 or 30 month review meeting at which the IFSP outcomes are reviewed.
3. **Functional Outcomes** – The outcomes, recorded on page 4, represent one of the most important aspects of the IFSP meeting. Outcomes are statements of the changes or results that are expected to happen for the child and family as a result of EI services. All team members at the IFSP meeting should collaborate in developing these outcomes. The outcomes should be related to the child's developmental needs, the family's concerns and geared toward the child's ability to function during the everyday activities outlined on page 3. For example, "Johnny will be able to sit without support during dinner." The team may also develop outcomes for the family, especially to guide services such as Family Counseling. For example, "*Mr. and Mrs. Bowen will learn about Down syndrome and what to expect for their child in order to explain the condition to their friends and family*"

Specify changes that are expected to occur over the next six months. If necessary, use a second page to list additional outcomes. For example, "*Thomas will be able to communicate his needs by pointing or with words instead of screaming so that the family can visit relatives.*" The outcomes should be unique to the family and give enough information to the interventionist(s) working with the child and family. This will allow the interventionist(s) to develop therapeutic goals and coach family members or caregivers in the activities that can be applied throughout their daily routines. Interventionists will document how they have involved the family in the **Session and Progress Notes** (Refer to *Service Delivery Chapter.*) If desired, family members and caregivers can document their use of the activities or techniques in which they have been coached by the interventionist on a calendar or other tool. (See sample calendar and other suggestions in the *Service Delivery Chapter.*)

4. **Objectives:** List the objectives associated with the Functional outcomes. Objectives are short term goals that should be achieved in order for the child to reach the functional outcome. For example,
IFSP Functional Outcome: Ida will be able to pick up small bits of food from like raisins and cheerios with either hand using the thumb and index figure without resting her arm on the table so that she can feed herself every day during meal time.

Objective: Ida will pick up a Cheerio with fingers using a scraping movement.
Objective: Ida will pick up a Cheerio with the side of her finger and thumb
5. At the **Six Month Review** meeting, write the date of the review meeting on a copy of the *Outcomes* page from the prior IFSP. Review the outcomes and discuss the child's and family's progress toward the outcomes. Check the appropriate box next to each outcome to indicate whether the outcome should be *continued, revised* , or *discontinued*. Write the dates of the **Progress Notes** for the relevant service type and method.

Write new or revised outcomes for the next six month period on a new functional outcomes page.

NOTE: When a new service is added or an Assistive Technology device is authorized, whether at a six month review or an amendment meeting, a new outcome(s) is required. This outcome will guide the interventionist in working with the family and/or using the AT device with the child and family and can be documented on a new *Outcomes* page.

6. **Signatures** – The parent(s) and the EIOD must sign this page at the 6 Month IFSP Review meeting or the Amendment meeting to indicate agreement with the outcomes for the next six month period. The person who writes the information on this page must also sign (i.e., the OSC or EIOD). This is particularly important for the OSC who may be conducting the review meeting without the EIOD being present.

INDIVIDUALIZED FAMILY SERVICE PLAN
Service plan (Page 5): Settings and Incorporating interventions into natural routines.

Child's Name: (Last) _____ (First) _____
EI #: _____ DOB: ____/____/____
Today's Date: ____/____/____

Are all services being provided in child's **natural environment**? Yes No
If no, explain.

If any service is being provided in **group settings** without typically developing peers, explain why the IFSP team agrees this is appropriate:

If the family is unable to be present during therapeutic sessions with the child, how will the service provider communicate with the family to assist them in learning ways to improve the child's functioning in his/her natural environment:

- Calendar
- Notebook
- Phone Calls
- Other:

How will interventions be made a part of your daily routines and activities?

- Teacher/therapist will utilize child's play, mealtime, bathing, dressing, bedtime, morning routine, shopping, playground, family events, and weekends activities for individual intervention
- Parent/Caregiver will participate in intervention sessions when possible and incorporate teacher/therapist suggestion into child's daily routine
- Teacher/therapist will communicate on a regular basis with parent/caregiver, other interventionist, and day care/child care providers to coordinate strategies and accommodate the needs of the child (if child is in a daycare setting).

Teacher/therapist responsibilities:

- Teacher/therapist will provide a schedule of agency holidays and planned time off to the parent/caregiver at the beginning of the authorization period
- Teacher/therapist will review and provide a copy of each progress note to the parent/caregiver.
- Teacher/therapist will submit completed progress notes to the service coordinator at least 2 weeks before each 6 month review period.

INSTRUCTIONS FOR IFSP PAGE 5

SERVICE PLAN

This page describes the ways in which the interventionist(s) may involve the family and coach them in activities to practice in their daily routines. Use language that is clear and understandable for the family. The plan should address how the outcomes might be achieved.

1. **Are all services being provided in the child's natural environment?** – Check *yes* or *no*. If *no* is checked, explain why the services cannot be delivered where the child spends most of his/her time. Please note that the rationale needs to be as specific, detailed and developmentally sound. This information is required by the Individuals with Disabilities Education Act (IDEA).
2. **Is any service being provided in a group setting without typically developing peers?** – Explain why the IFSP team agrees that this is the appropriate plan for this child. For example, does the child have special needs that can best be met in a structured group developmental setting?
4. **If the family is unable to be present during therapeutic sessions with the child, how will the service provider assist the family in learning ways to improve the child's functioning in his/her natural environment.** – For example, the interventionist may use a notebook to communicate with the family about the skills on which s/he is working and how the family might practice those skills during the child's natural routines; phone calls can be arranged at regular times; emails can be exchanged, etc. When appropriate, Family Training sessions can be arranged on a regular basis (monthly, bi-monthly etc.) at the center or in the home to teach parents/caregivers/siblings to help the child generalize his/her new skills during daily routines. The parent may be interested in having the interventionist attend a monthly family meeting to explain the child's status and give suggestions that various family members can incorporate into the child's and family's routines.

INSTRUCTIONS

SERVICE AUTHORIZATION DATA ENTRY FORM

This form records the information necessary for data entry into the KIDS system of the services authorized for the child and family through the Early Intervention Program. Indicate all authorized services, including service coordination, assistive technology services, respite services, special instruction, family support and therapeutic services. Indicate transportation services on the **Transportation Service Data Entry Form**. Indicate specific assistive technology **devices** on the **Assistive Technology Device Data Entry Form**. (NOTE : This form may be completed by the Assistive Technology Unit.)

Document authorizations for *each* provider on a *separate* **Service Authorization Data Entry Form**. For example, if occupational therapy will be delivered through ABC agency and speech services and service coordination will be delivered through DEF agency, complete two **Service Authorization Data Entry Forms**, each with the appropriate *Provider Information*.

1. **Child Information** – The child’s EI number, name, and date of birth as recorded in all other places on the IFSP.
2. **Effective Date of IFSP** – For an initial IFSP, this is the date that the IFSP meeting takes place. (NOTE: If the meeting was convened but the IFSP was not completed at that meeting, use the date that the first meeting took place.)

For a Six Month Review or Annual IFSP, the effective date is the day after the end date of the existing IFSP.

For an amendment to an IFSP, use the effective date of the *current* IFSP.

3. **End Date of IFSP** - 26 weeks after the effective date of the IFSP **unless the child turns 3 before that date:**

If a child turns 3 before the 26 week end date of IFSP, the end date of the IFSP must be the day before the child’s third birthday. For example, the effective date of IFSP may be 1/1/10, and the end date of a 26 week IFSP would be 6/30/10. However, if the child’s third birthday is 4/15/10, the end date of IFSP would be 4/14/10.

If the child has been found eligible for services by the Committee on Preschool Special Education (CPSE) and an IEP form is presented at the IFSP meeting, the end date of the IFSP may be 26 weeks after the begin date if the parent requests that the child remain in EI. Under no circumstances, however, can the child continue to receive services beyond August 31 (for children turning 3 between January 1 and August 31) or December 31 (for children turning 3 between September 1 and December 31). A child may not receive services from both EI and CPSE at the same time. (For further information, see the policy on *Transition*).

If the child is found eligible for services by the CPSE after the begin date of IFSP, but before the child’s third birthday, and the parents wish to continue EI services until the age-out date, a new **Service Authorization Data Entry Form** must be written to extend the service from the third birthday to the age-out date. In the example above, if the services end 4/14/10 because the child turns 3 on 4/15/10, the new form will *add* the service from 4/15/10 until 6/30/10. **Note that under no circumstance can the service extend beyond the 26 week end date of the IFSP.** If the parent chooses to remain in EI until the child ages out on 8/31/10, services can be continued at the next IFSP from 7/1/10 to 8/31/10.

4. **Type of IFSP** – Check the appropriate box to indicate if the IFSP is an interim, initial, 6 month or annual IFSP. If the IFSP is a 6 month or annual, also check the appropriate month (6, 18 or 30 month or 12, 24, or 36 month).

If this is an amended IFSP, check **both** the appropriate box indicating the type of IFSP **and** the box indicating amendment to IFSP. Write the **effective date of the amendment**. For example, if an initial IFSP dated 1/1/09 is being amended on 5/20/09, check the box for *Initial* and the box for *Amendment to IFSP* and write 5/20/09 next to *Dated*.

5. **Provider Information** – For all types of IFSPs, each provider agency that will provide services to the child or family must have a separate **Service Authorization Data Entry Form**. For each provider, include the following information:
 - The Provider Agency Name and Provider EI Number as listed in the Provider Directory
 - The name of the contact person at the provider agency who can respond to questions about the child’s program and his/her telephone and fax numbers
 - The name of the child’s currently assigned OSC, the SC’s #, telephone and fax numbers.
6. **Service Provider not identified at time of IFSP for the following services (Pended)** - List all the services where a provider was not identified during the IFSP meeting. The Frequency (how often) and duration (how long) should be included. Write the date by which the OSC will identify the provider. The date must be within 2 weeks of the IFSP date.
7. **EIOD Signature and Name** – The EIOD’s signature, printed name, and the date s/he actually signed the form. This date may be different from the *Effective Date of IFSP*. **No payment can be made by the Early Intervention Program to a service provider if the Service Authorization Data Entry Form is not signed by the EIOD.**
8. **Insurance Information**- Medicaid or private insurance information must be completed and updated at each IFSP, including amendments. If the child is enrolled in a Medicaid Managed Care Plan, include child’s Medicaid number, as well as insurance Company Information.
9. **Services** – Refer to the **Service Authorization Data Entry Key** for instructions on the codes. **No information should be written in this section other than the specific information indicated.** List each service type to be provided by the service provider agency indicated in *Provider Information*. There are five numbered “service lines” on each **Service Authorization Data Entry Form**. Only one *Service Type* may be written on each service line. Therefore, if more than five services are to be offered by a given provider, use additional forms. Each service line contains the following information:
 1. **Service Type and Code Letter** – The name of the *Service Type* and its corresponding *Code Letter* as listed.
 2. **Method** – The *Method* by which the service is delivered and its corresponding *Code Letter* as listed.
 3. **Location** – The *Location* of the service and its corresponding *Code Letter* as listed.
 4. **Begin** – The date that each service is authorized to start. The *Begin* date can be any date **after** the *Effective Date* of IFSP for an initial IFSP or any date **on or after** the *Effective Date* of IFSP for a 6 or 12 month IFSP. The *Begin Date* should reflect the actual date that the service is expected to begin. **NOTE: A provider will not be reimbursed for any service delivered prior to the *Begin Date*.**
 5. **End** – The date on which the service will end. If the service is to be delivered for the duration of the IFSP, write the same date as the *End Date of IFSP*. If the service is to end before the *End Date of IFSP*, write the actual date the service will end. **NOTE: A provider will not be reimbursed for any service delivered after the *End Date*.**
 6. **Mins (Minutes)** – How long each session/visit is expected to last, e.g., 30 minutes, 45 minutes, etc.
 7. **Days** – The number of days per week the service will be provided. (**NOTE:** If the frequency is less than weekly, e.g., every two weeks or once a month, write this across the days and weeks boxes, e.g., 2xmonth, 1xmonth. If a particular number of units is authorized for the duration of the IFSP, indicate that clearly, e.g., 8 units during 26 week IFSP)
 8. **Weeks** – The number of weeks the service will be provided, not to exceed the total number of weeks in the IFSP.

9. **Units** – The total number of units authorized for the service type, determined by multiplying the number of days by the number of weeks, e.g., 2x26=52 units, or 1x month=6 units. The number of units may also be the total number of units agreed upon in the *Service Plan*, such as 8 units of Social Work during the IFSP period.

For **Service Coordination**, do not fill in columns *Method*, *Location*, or *Days*. Write the number of minutes authorized per week in *Mins* (Column 7), e.g., 30 minutes. A unit of service coordination is equal to 15 minutes. Calculate the number of units by multiplying the number of minutes divided by 15 times the number of weeks, e.g., 30/15=2x26=52 units. Consult the **Service Authorization Data Entry Key**.

10. Waiver Code –

- a. For Initial and Annual IFSPs: If the line of service violates a billing rule and requires a waiver, write the appropriate Waiver Code. More than one Waiver Code can be placed in a box if the authorization on the service Authorization violates more than one billing rule. EIOD must approve the use of the waiver by initialing the waiver box and inserting the start date of the waiver.

Note: This column replaces the former Waiver Form. No additional form is needed to indicate a waiver of the billing rules.

b. For Review and Amendment IFSP (a waiver has been added to an existing service authorization): the EIOD will write the start date for the waiver on the **Service Authorization Form**, check the box on the top for *Amendment* and put in the date of the amendment, and sign with his/her initials. This situation may occur when a new service is authorized for a child resulting in a violation of the billing rules. For example, a child may already have a PT, OT, and special instructor providing services on the day the parent is available. If ST is added, all four services must be given a waiver of the billing rules, which in this case would be *waiver code* #1. If there is room on the original **Service Authorization Data Entry Form** to add the new service for the same provider agency, the EIOD will indicate the new start date(s), waiver code(s), and initial the *Waiver Code* box.

11. **Status** – Check **Add** if the service line is being added; check **End** if the service line is being terminated. It is **necessary** to check the appropriate box for authorizations at every IFSP period.
12. **Bilingual Request**- Check if bilingual is preferred by the IFSP team. If bilingual services can not be located, a monolingual therapist is acceptable. Please notify the EIOD. The **Service Authorization Form** does not need to be resubmitted.
13. **Prescription Needed**- If Occupational Therapy (OT), Physical Therapy (PT), or Nursing was authorized at the IFSP, check to indicate that services cannot begin until a prescription from a physician is received.

INDIVIDUALIZED FAMILY SERVICE PLAN (Page 5B)
Service plan: Co-Visits (Use ONLY if co-visits are authorized)

Child's Name: (Last) _____ (First) _____
EI #: _____ DOB: ____ / ____ / ____
Today's Date: ____ / ____ / ____

Check the purpose of co-visit(s):

- Provide co-treatment for child targeting an area of child need in which 2 or more qualified personnel are providing different interventions.
 - Enable professionals and parents/caregivers to work together to assess child progress and problem-solve on emerging issues related to child and family needs across the areas of needs that are being addressed by differently qualified personnel.
- OR**
- Provide education, training, and instruction to the parent/designated caregiver in use and integration of particular techniques and strategies to enhance the child's development and functioning in the area of need being addressed by the professionals.
(NOTE: Checking this box requires the use of Family Training as the service type.)

Functional outcome(s) addressed by co-visit: _____

Participants: Parent/Caregiver ST PT OT SI SW Other _____
 FT (Indicate number and disciplines of participants) _____

Method: Office/Facility Individual/Collateral Basic Home/Community Individual/Collateral Extended Home/Community Individual/Collateral

Location: Home Center Other _____ **Frequency:** _____

Authorization: Use existing authorized units Additional units to be authorized Waiver needed? Yes No

Comments:

NOTE:
If one or more of the interventionists involved in a co-visit is unable to participate in a scheduled visit, s/he is responsible for contacting the Service Coordinator to request that the co-visit be rescheduled.

The Ongoing Service Coordinator should review the IFSP and, if co-visits are authorized, contact parents and interventionists to coordinate the co-visits.

INSTRUCTIONS FOR IFSP PAGE 5B

CO-VISIT

Page 5A documents required information when a co-visit is authorized. This page is for documentation purposes only and is *not* used for data entry. Co-visits may be authorized at an IFSP or as an amendment to the IFSP. **In most cases, the EIOD will complete this page.** To request authorization of a co-visit as an amendment, the SC should follow amendment procedures and include Page 5A completed through *Frequency*. The EIOD will check the appropriate *Authorization* box.

1. **Check the purpose of co-visit(s)** - Check all that apply. If the third box is checked, *Family Training* must be authorized as the service type. This will usually involve authorizing additional lines of service.
2. **Participants** – Check boxes to indicate all participants in the co-visit. Note that the parent or caregiver will always be a participant if the service is home/community or if the second or third boxes are checked. (Co-treatment in an EI center does not require the presence of the parent/caregiver.) Use the **Other** box to indicate the discipline of any other interventionist who may attend the co-visit.

Indicate the number of providers in the same discipline. For example, if there are two Special Instructors who will be attending the co-visit list it as: SI 2

NOTE: If two interventionists of the same discipline are attending the co-visit, *even if no additional units are required*, a waiver of the billing rules must be given. Indicate this on the **Service Authorization Data Entry Form** by writing the correct *Waiver Code*.

If Family Training is authorized for the co-visit, check FT and indicate the number and disciplines of the participants. For example, check FT – 4 SI, 1 ST, and 1 OT.

3. **Method** – Check the box for the method that will be used for the co-visit.
4. **Location** – Check if the co-visit will take place in the home, center or other location (specify).
5. **Frequency** – Describe the frequency for which the co-visit is authorized. This can be the number of co-visits per month, bi-monthly, once every three months, etc.
6. **Authorization** – Check the appropriate box to indicate if interventionists will use their existing authorized units for the co-visits or if additional units will be authorized. Indicate if a waiver of the billing rules is required by checking “yes” or “no”. If “yes” is checked, remember to write the *Waiver Code* on the **Service Authorization Data Entry Form**.
7. **Comments** – Use this space to describe any other factors relevant to the co-visit.

NOTE: Co-visits do not necessarily require additional service authorizations. An interventionist can use a session from an existing line of service in collaboration with another interventionist. For example, the IFSP may authorize one visit per week for PT and one visit per week for SI and a monthly co-visit with the child and family. In this case, the PT and SI bill under the code for their own service when billing for the co-visit.

NOTE: In all situations, each interventionist must write his/her own **Co-Visit Session Note**, and include information about the co-visit in the **Progress Note** for the respective service.

SERVICE PLAN: TRANSPORTATION, ASSISTIVE TECHNOLOGY AND
RESPIRE SERVICES

Child's Name: (Last) _____ (First) _____
EI #: _____ DOB: ____/____/____

Transportation

Transportation services are authorized to enable an eligible child and the child's family to receive Early Intervention services. As per New York State Early Intervention Program Regulations at 10NYCRR, Sec 69-4.19 (b). "...consideration shall first be given to provision of transportation by a parent of a child..." **Transportation options are evaluated in the following order.**

- No transportation needed.
- Caregiver will transport child either by: Public Transportation Private car **Is reimbursement being requested?** Yes No
- If the Caregiver is unable to transport the child state the reason: _____

The Early Intervention Program will provide transportation by:

- School bus
- Car Service. If requesting this mode please state reasons why other forms of transportation are not appropriate:

Are there any other needs (e.g., nurse on bus)? _____

Assistive Technology Device Needs:

Names/categories of AT equipment: _____

Reason AT device needed to achieve functional outcome. _____

- Form attached Form to be completed Continued assessment needed Child currently has AT equipment Not applicable

Respite Services

Respite is short term, temporary care provided by a trained respite worker or nurse. It is intended to provide support to parents and caregivers who may otherwise be overwhelmed by the intensity and constancy of caregiving responsibilities for their child with special needs. Respite is not a substitute for daycare and the need for childcare is not sufficient alone to justify respite services. *The New York City Early Intervention Program determines the need for respite services based upon the individual needs of the child and family with consideration given to New York State Public Health Laws.*

Does the family express the need for respite services? Not at this time Yes Application attached Application to be submitted

Has the family applied for other sources of respite? Not eligible No *Explain why not.* _____

Yes Give source, date of application and current status. _____

INSTRUCTIONS FOR IFSP PAGE 6

SERVICE PLAN: TRANSPORTATION, ASSISTIVE TECHNOLOGY, AND RESPITE SERVICES

These are additional services that may be required by the family and may not necessarily involve an interventionist. These needs include transportation, assistive technology, and respite services. The need for any of these services should be reviewed at *every* IFSP meeting.

- 1. Transportation** - The team should review the family's transportation needs related to implementation of the service plan and check the appropriate box. **NOTE:** As per NYS DOH regulations, consideration shall first be given to provision of transportation by the parent of a child.

The IFSP team should explore all options **in the order they are listed**. Is transportation needed at all? If so, is the caregiver able to transport the child either by public transportation or by private car? If the family is requesting reimbursement for public transportation or for mileage accrued, note as such.

If the caregiver is unable to transport the child to the location of service provision, **the reason for this inability must be clearly documented on this page**. For example, "The family/caregiver works during the day, the child stays at the home of a caregiver who cannot leave the building to transport the child to the location of service." "The family does not have a car or other means to transport the child to the EI center." The EIOD should determine the validity of the reason and proceed to consider whether a school bus or car service is an appropriate option.

If car service is authorized, a responsible adult must accompany the child. Any special transportation needs (such as a nurse accompanying the child) must be noted; these needs should be supported by and described in the MDE summary as well as in written documentation supplied by one of the child's medical providers.

- 2. Assistive Technology** - The team should discuss and review the need for AT devices and/or services as per the evaluations and MDE summary and include in the plan as needed. Children with visual and hearing impairments and/or motor delays should *always* be considered for AT equipment.

List the names or categories of AT equipment that may assist the child in using EI services to achieve his/her outcomes. Specific devices may include hearing aids, orthotics, or adaptations to commercially available equipment, such as an infant seat or chair for a child with severe tone or muscle issues.

Explain how the AT device will assist in achieving the functional outcome. When specific types of equipment (make, model #) are determined, a request with documentation as outlined in the Policy on *Assistive Technology* must be submitted to the EIOD in the Regional Office or the Assistive Technology Unit.

Check the appropriate box to indicate the status of the child's need or potential need for assistive technology. Check the box "Not applicable" if there is no need for assistive technology.

- 3. Respite Services** - The team should review the statement defining respite services with the family, emphasizing that respite is a temporary service. (If the family needs ongoing or long-term services, the OSC should assist them in accessing other supports in the community.) Check the appropriate category indicating whether a parent/guardian has expressed a need for EI respite services. Note here whether the respite application is attached or whether the application is to be submitted at a later date. Respite applications should be sent to the EI Regional Office of the borough in which the child resides.

Indicate whether the family is eligible or has applied for other sources of respite, such as through OMRDD. If the family has applied, give the date of the application and current status.

NOTE: The OSC is responsible for obtaining the services specified on page 6 and ensuring that the rest of the IFSP is implemented as agreed upon by the participants at the IFSP meeting.

INSTRUCTIONS
ASSISTIVE TECHNOLOGY DEVICE
DATA ENTRY FORM

This form records the information necessary to authorize assistive technology *devices*. (**NOTE:** Assistive Technology *services* are authorized on the **Service Authorization Data Entry Form.**) This signed form authorizes payment for the assistive technology (AT) device(s) to the contracted provider agency, who will in turn reimburse the AT vendor. In addition, this form identifies the codes necessary for medical insurance billing.

This form is completed by an EIOD in the Assistive Technology Unit or the Regional Office who authorizes the device(s) after receiving and approving a completed Assistive Technology Specification Request. A copy of the signed **Assistive Technology Device Data Entry Form** must be sent to the provider agency, the service coordinator and the Regional Office for filing in the child's case record.

1. **Effective Date of IFSP** – For an interim or initial IFSP, this is the date that the IFSP meeting takes place. For a Six Month Review or Annual IFSP, the effective date is the day after the end date of the existing IFSP. For an amendment to an IFSP, use the effective date of the *current* IFSP.

2. **End Date of IFSP** - 26 weeks after the effective date of the IFSP **unless the child turns 3 before that date.**

NOTE: This date should be the same as the end date of IFSP on the **Service Authorization Data Entry Form**. See Instructions for that form. For an interim IFSP, the end date of IFSP is 45 days from the date of the child's referral to EI, even though the end date of the authorization (see # 11 below) may be different.

3. **Child Information** – The child's EI number, name, and date of birth as recorded in all other places on the IFSP. Include the child's borough of residence.

4. **Provider Information** – For each provider, include the following information:

- The provider agency name and Provider EI Number as listed in the Provider Directory.
- The name of the contact person at the provider agency who can respond to questions about the child's program and his/her telephone and fax numbers.
- The name of the child's currently assigned OSC, SC ID #, telephone and fax numbers.

5. **Type of IFSP** – Check the appropriate box to indicate if the IFSP is an interim, initial, 6 month or annual IFSP. If the IFSP is a 6 month or annual, also check the appropriate month (6, 18 or 30 month or 12, 24, or 36 month).

If this is an amended IFSP, check **both** the appropriate box indicating the type of IFSP **and** the box indicating amendment to IFSP. Write the **effective date of the amendment**. For example, if an initial IFSP dated 1/1/09 is being amended on 5/20/09, check the box for *Initial* and the box for *Amendment to IFSP* and write 5/20/09 next to *Dated*.

6. **EIOD Signature and Name** – The EIOD's printed name, signature and the date s/he actually signed the form. This date may be different from the *Effective Date of IFSP*. **No payment can be made by the Early Intervention Program to a service provider if the AT Device Data Entry Form is not signed by the EIOD.**

7. **Vendor, Catalog or Dispensary** – The name of the vendor, catalog or dispensary from whom the device will be ordered.

8. **Category/Service Code** – The *category* is Assistive Technology and the *Service Code* is I for all AT devices. Thus this section has already been completed.

9. **CPT/HCPCS Code** – CPT- 4 codes are used to describe medical procedures and are maintained by the American Medical Association. HCPCS codes are established by the Centers for Medicare and Medicaid Services to identify items, supplies and non-physician services not identified within the CPT- 4 coding system. Refer to the reference manuals published by these institutions for the correct coding.
10. **AT Item/Device Description** – The generic or commercial name of the device and components that are authorized for purchase.
11. **Begin and End Dates** – The *Begin* and *End* dates enclosing the period during which the device is to be delivered to the child/family.

NOTE: Although services authorized at an Interim IFSP meeting, including AT services, must end on the 45th day after the child’s referral to the EI Program, AT devices may be authorized for a period of 6 months to allow sufficient time for delivery.
12. **Quantity** – The number of component parts needed for the completed device (e.g., 2 for bilateral orthotics).
13. **Cost** – The discrete cost of each component needed for the completed, assembled device which is included in the listed price on the ordering invoice as quoted by the vendor. The cost for “for profit” agencies may include taxes or surcharges; however, these charges are usually exempted. Shipping and handling may be included as a *separate* item.
14. **Total Cost** – The total cost is the listed price on the ordering invoice which includes all component costs and the base unit comprising the completed, assembled device.
15. **Status** - Circle *Add* if the AT Item/Device is being added for the first time at an initial, 6 or 12 month or amended IFSP. Circle *End* if it is being terminated from the IFSP.

INSTRUCTIONS

TRANSPORTATION SERVICE DATA ENTRY FORM

This page documents the discussion and authorization of transportation to a service delivery site for child and/or caregiver, if needed. There must be a separate Transportation Service Data Entry Form prepared for each provider (unless there is a bus company contract change, see #6 below) that will indicate an amount to be reimbursed for a transportation-related service. For example, if a child will be transported by a school bus provided by the transportation vendor, Smith Bus Company, and if, in addition, the child's father will be reimbursed by the Early Intervention service provider, LMN Developmental Center, for subway fare when he attends a weekly family support group, two **Transportation Service Data Entry Forms** must be completed. One form will be filled out for the bus company and another for the EI service provider.

1. **Child's Name, EI #, DOB** – Write the identifying information for the child as it appears on all other IFSP pages.
2. **IFSP:** Check the appropriate box for type of IFSP and write in the *Effective* and *End* dates of the IFSP period. **The EIOD will print his/her name, sign and date this form upon completion, indicating that the service is authorized.**
3. **Transportation Provider Information** – Either the bus company or the service provider agency that receives payment for car service, mileage, or public transportation and reimburses the family/caregiver. Include the provider name, provider EI contract # (as listed in the provider directory), agency contact person, and telephone and fax numbers of the transporting agency.
4. **Destination Information** - The name of the agency of destination, i.e., where the child/family is to be transported, agency EI contract #, site address, name of transportation coordinator, telephone and fax numbers.
5. **Service Coordinator** - Provide the SC information as indicated.
6. **Data Entry Unit Only – For Bus Contract Change** – This section will be completed by Data Operations staff when there is a change in the bus contract information that does not involve a change in the authorized service. The SC should **not** submit a new **Transportation Service Authorization Data Entry** form. No action is required by the SC or the EIOD/Regional Office.
7. **Transportation Service Type** – Check the box for *Bus* or *Other*. Write the code for the mode of transportation to be reimbursed.
 - 1 = Public Transportation
 - 2 = Taxi/Car Service
 - 3 = Mileage
 - 4 = Parking
 - 5 = Toll
 - 7 = School Bus
 - 8 = Nurse Accompaniment
 - 9 = Other
8. **Companion Accompanying Child** – If authorized, write the name of the person(s) who will accompany the child on the school bus or car service. Indicate the reason for accompaniment on the school bus. (***The parent or another adult over age 18 must accompany the child for car service.***)_The other information in this section applies to parents/caregivers who will:
 - always accompany their child on the bus, or
 - accompany their child on a school bus to an EI facility for the first few days of the child's attendance at the center, or
 - **occasionally but regularly** accompany the child on the bus in order to attend a Family Support Group, Parent-Child Group, or participate in a session at the EI facility.

SC Primary Roles:

- Coordinate and monitor the delivery of all services.
- Assist families in obtaining EI and non-EI services.
- Facilitate reviews of IFSP every 6 months.
- Inform caregivers of their rights and procedural safeguards under the Early Intervention Program.
- Obtain and update insurance information and explain to parents how information will be used by EI.
- Discuss transition from EI when the child is 24 or more months old.

INSTRUCTIONS FOR IFSP PAGE 7
SERVICE COORDINATION ACTIVITIES

The Service Coordination section includes a list of regularly performed tasks for the Ongoing Service Coordinator (OSC) and the family's/caregiver's selection of an OSC. If additional follow-up activities are required of the OSC, check the applicable boxes.

1. **Service Coordinator Information** – The name of the OSC, SC ID number assigned by NYC EIP, telephone number, email address and name and number of provider agency by whom the SC is employed, as selected by the parent from the list of choices presented at the IFSP meeting.

If an OSC provider has not been identified by the end of the initial IFSP meeting (i.e., services are pending), the family/caregiver may select the ISC as the OSC to help locate a provider(s). Once a provider is located, the family/caregiver may wish to change service coordinators. If the parent selects a new OSC, follow the EIP procedure for changing the SC.

The parent must sign on this page to indicate that s/he has been given options and has selected the OSC.

NOTE: Before a SC can be designated or assigned, s/he must have applied for and received a SC ID number from the Early Intervention Program. In addition, a provider will not be reimbursed by the EIP for the services of the OSC until the *Start Date* for Service Coordination listed on the **Service Authorization Data Entry Form**.

2. **Ongoing SC should** - Check the applicable boxes for OSC F/u activities.
 - a. **Assist family in identifying and applying for Public Programs** – List the programs for which the family may be eligible, such as Child Health Plus or other medical insurance programs offered through Health Care Access and Improvement (HCAI), WIC, Lead program, housing etc.
 - b. **Assist family in identifying and applying for other non-EI services needed by child or family** – List other services that may be needed to support the child and family outcomes, e.g., “work with the local interchurch council to seek funds for child care so that mother can return to work part-time.”
 - c. **Coordinate co-visits; reschedule if necessary** – Check this box if co-visits are authorized. The OSC has the responsibility to coordinate co-visits and to assist in rescheduling as necessary.
 - d. **Locate bilingual services** – If bilingual services have been requested for any of the services authorized, the OSC must make diligent efforts to locate such services. If the OSC is unable to find a provider for the requested bilingual service, s/he must contact the EIOD to discuss alternatives. A monolingual service should not be substituted without the approval of the EIOD.
 - e. **Assist family with transition** – The OSC must assist the family in developing a transition plan for the child whenever a child exits the Early Intervention Program. This includes leaving the program when EI services are no longer needed or when the family moves to another county or state. In these situations, the OSC should help the family access services in the new location. If the child is 2 years old or older, this box must be checked and the OSC must complete pages 7A and 7B.
2. **Primary Health Care Provider** – Name of Primary Health Care Provider, name of Medical Center/Facility, address, telephone and fax numbers.
3. **Permission to Release Copy of IFSP**– The parent will indicate whether s/he wishes to have a copy of the IFSP shared with the child's Primary Health Care Provider by checking the appropriate box, signing and dating the form.
4. **Additional Concerns** – Any concerns discussed at the IFSP meeting (by any participants) that may need follow-up should be described in this section. If billing rules are waived, describe the reasons and specify the circumstances of the waiver(s). If services have been recommended but rejected by the parent, list these services and describe the reason for the parent's rejection of them.
5. **Any further evaluation needed?** – If during the IFSP meeting it becomes evident that another evaluation is needed for additional information, a Supplemental Evaluation can be requested by anyone present. If requested, indicate by checking *yes* and specify what type of evaluation is requested. Explain the reason for the request. A **Request for Additional Evaluation** form should be completed and attached to the IFSP. The OSC must follow-up to assist the family in scheduling the evaluation and ensuring that it takes place in a timely manner.

INFORMATION REGARDING TRANSITION: Pages 7A and B must be completed for any child leaving EI, regardless of his/her age. These pages must be filled in at the IFSP closest to the child's 2nd birthday and updated at each subsequent IFSP. For children entering the EIP after age 2, these pages must be completed at the initial IFSP.

1. Children who complete their IFSP outcomes or no longer require EI services may exit EIP at any time prior to the third birthday. My service coordinator is responsible for helping me identify, locate, and provide access to other early childhood programs when appropriate.
2. If the parent is considering CPSE services, the following steps will need to be taken:
 - a. **NOTIFICATION:** I understand that I will need to give written consent to notify the CPSE of my child's potential eligibility. Notification must occur by ____/____/____ to Region/ District _____.
 - b. **TRANSITION CONFERENCE:** I understand that if I choose to request that my EIOD arrange a transition conference with my service coordinator and the chair of the CPSE or designee, I will need to give written consent for a transition conference which will be held by ____/____/____.
 - c. **REFERRAL:** I understand that it is my responsibility to refer my child to the CPSE. My service coordinator can assist me if I ask. Any delays on my part to refer my child may potentially interfere with the ability of the CPSE to establish eligibility before my child's third birthday. Referral must occur by ____/____/____.
3. I am aware that all EI services will end on the day before my child's 3rd birthday: ____/____/____, if my child is not found eligible for CPSE services. If my child does not need preschool special education programs and services, or if I choose not to refer my child to the CPSE, my service coordinator is responsible for helping me identify, locate and access other early childhood programs.

TRANSITION PLAN

This page and Page 7B must be completed for any child leaving EI, regardless of his/her age. If the child remains in EI, these pages must be filled out at the IFSP closest to the child's second birthday and updated at each subsequent IFSP review. For a child entering EI after age 2, these pages must be completed at the initial IFSP and any subsequent reviews.

- 1. Information regarding transition** – The parent will sign and date in this box after the information has been explained. If the child no longer requires EI services, the Ongoing Service Coordinator (OSC) will assist the parent to access other early childhood programs as appropriate. If the parent is considering CPSE services, the steps to be taken must be explained and the dates for *Notification*, *Transition Conference* and *Referral* filled in. In addition, write the number of the Department of Education Region and District in which the child resides.

It is important that the parent understand that it is the parent's responsibility to refer the child to the CPSE for initial evaluations. The OSC should assist the family by helping them write the referral letter and mailing or faxing it to the CPSE. The OSC may, if asked by the parent, assist the family with follow-up. The parent must be informed that his/her child will no longer be eligible for EI services after turning 3 unless the child has been found eligible for services by the CPSE. **Include the date on which the child's services will end, i.e., the day before the child's third birthday, in #3 of this section.**

At the parent's request, the service coordinator may attend the CPSE meeting to determine the child's eligibility for preschool special education services.

- 2. Parent has chosen not to** – The parent must indicate by initialing on the appropriate line which steps toward transition s/he has refused. **Include the date, i.e., the day before the child's third birthday, on which the child's EI services will end.** The parent must sign and date in this box if referral to the CPSE has been refused.

TRANSITION PLAN

This is the second page of required documentation for children leaving EI for any reason and for children who are 2 years of age or older.

1. **What types of setting/services are being considered?** – List the options that have been discussed with the parent and in which the parent shows interest. These may include both government sponsored (e.g., CPSE, OMRDD, Head Start) and private alternatives (e.g., child care, preschool, playgroups).
2. **Date by which steps to prepare the child and family to adjust to a new setting should begin** - Complete the date, either 6 months prior to the child's discharge or when the child is leaving EI before his/her third birthday.
3. **Describe steps to be taken to ensure a smooth transition** –What steps can be taken to assist the transition and the child and family's adjustment to a new setting? For example, SC and interventionists may begin talking to the child and family about changes in services and settings; provide referrals and literature to the family; suggest visiting possible sites or contacting community agencies.
4. **Who will assist?** – List the names of those who might assist, such as current interventionists, staff at the provider agency, community agencies (e.g., ECDC).
5. **Parent's Signature** – The parent should:
 - Complete this part of the form by indicating why the child is leaving EI before the 3rd birthday (e.g., family is relocating, child no longer needs services),
 - Understand the options to refer the child to EI or CPSE depending on the child's age,
 - Sign and date the form.
6. **Update** –At each subsequent IFSP meeting, update the status of the child's progress toward transition by filling in the date on the appropriate line. Refer to the policy on *Transition* for further information.

INDIVIDUALIZED FAMILY SERVICE PLAN (IFSP) MEETING CONSENT FOR SERVICES FORM

This form is used at the conclusion of all IFSP meetings to obtain the Parent/Surrogate consent for services. This form allows all EI municipal staff, service providers, and service coordinators to share information about the eligible child, while also allowing the parent/surrogate to specify if they prefer to give a limited release. Families may also indicate whether they have concerns with the IFSP.

A. IFSP Attestations and Consents:

- 1. First Parent Signature, Agreement with Plan** – Signature of the parent(s)/surrogate(s) indicating that s/he has read the bulleted points and understands his/her rights and responsibilities. *The EIOD must ensure that the parent/surrogate understands his/her rights in the Early Intervention Program (EIP) and has received copies of My Family's Rights and the EIP Policy on Make-up Sessions.*

- 2. Second Parent Signature, Agreement with Plan** – Signature of the parent(s)/surrogate(s) indicating agreement/disagreement with the plan outlined on the previous pages. Check the appropriate box and record any disagreement the parent(s)/surrogates(s) has with the recommended services on this page. The parent(s)/surrogate(s) **must sign and date** this form.

If the parent(s)/surrogate(s) and the EIOD do not agree on any part of the IFSP, the sections of the proposed IFSP that are not in dispute should be implemented. The parent(s)/surrogates(s) may exercise their due process rights to resolve the disputed areas. The EIOD and SC must ensure that the parent(s)/surrogate(s) understand their due process rights to request mediation or an impartial hearing. The parent(s)/surrogate(s) should be referred to the EIP's "A Parent's Guide" for information on mediation/due process forms and procedures.

- B. Consent to Release Information to Early Intervention Providers of Service** - This section replaces the "Consent to Release/Obtain Information" form for EI providers after the initial IFSP meeting. The parent/surrogate signature here authorizes exchange of information regarding the child's EI records and service plan between all EI providers, service coordinators, evaluators, and municipal staff. The parent(s)/surrogate(s) may opt to indicate a limited release.
- C. Attestations and Consents** - The evaluation representative and the EIOD must sign and date the IFSP attestation at the initial IFSP meeting. The EIOD will use the official NYCEIP stamp and sign and date this page for each IFSP, indicating authorization of the plan.

I. POLICY DESCRIPTION:

Any service authorization and evaluation errors discovered by the service provider agency that cannot be corrected by the provider without generating an approval task for the Regional Office in NYEIS must be reported to NYCEIP NYEIS Help Desk for correction. All requests must be submitted via email to nycnyeis@helth.nyc.gov weekly (every Monday), but within ten (10) business days of discovering the error.

All **NYEIS Data Change Request Forms** must be reviewed by the service provider agency for accuracy prior to submitting the request to the NYC NYEIS Help Desk. Upon completion of the Department's review, the NYCEIP will update NYEIS or submit the request to the New York State NYEIS Help Desk. Incomplete Data Change Request Forms will be returned to the provider agency.

**NYC EARLY INTERVENTION PROGRAM
REQUEST FOR PRESCRIPTION FOR SERVICES**

Child's Name: _____ DOB: _____
EI #: _____ Date: _____

Dear Physician/Nurse Practitioner,

At the request of the parent, we are writing to inform you that your patient has been found eligible for the NYC Early Intervention Program (NYCEIP). The NYC Early Intervention Program provides educational and therapeutic services to children with developmental delays and disabilities and supports families/caregivers, using everyday routines to promote development.

The NYC EIP staff met with the family on (date) _____, and discussed the parents' concerns, priorities and resources in order to develop the Early Intervention Individualized Family Service Plan (IFSP).

Based on the IFSP meeting, your patient will receive the following services:

Speech Therapy: _____ (per week / month)
*Occupational Therapy: _____ (per week / month)
*Physical Therapy: _____ (per week / month)
*Feeding Therapy _____ (per week / month)
Special Education: _____ (per week / month)
Other: _____ (per week / month)

* Based on the New York State Practice Acts, Occupational Therapy (OT), Physical Therapy (PT), and Nursing services require a prescription. The prescription can specify the above frequency or say "As per the IFSP." A separate prescription is needed for OT and PT services. Please attach a prescription if you agree with the plan.

Are there any medical concerns about this child participating in a therapy program?
If yes, please let us know of the limitations of his/her participation, (e.g., cardiac or respiratory disease, etc.).

There are no restrictions There are restrictions (**Attach specific medical clearance**)

The service plan will be reviewed by the NYCEIP every six (6) months and adjustments to the plan will be made based on the child's progress. With parent permission, please keep us updated on any medical information or diagnoses that may impact his/her interventions within the NYCEIP.

If there are any questions about this request, please contact me at the below number/address:

I. POLICY DESCRIPTION:

“Providers shall make reasonable efforts to notify the child’s parent within a reasonable period prior to the date and time on which a service is to be delivered, of any temporary inability to deliver such service due to circumstances such as illness, emergencies, hazardous weather, or other circumstances which impede the provider’s ability to deliver the service.

Providers shall notify the child’s parent and service coordinator **at least five (5) days** prior to any scheduled absences due to vacation, professional activities, or other circumstances, including the dates for which the provider will be unable to deliver services to the child and family in conformance with the Individualized Family Service Plan and the date on which services will be resumed by such provider.

Missed visits may be rescheduled and delivered to the child and family by such provider, as clinically appropriate, agreed upon by the parent and in conformance with the child’s and family’s IFSP.”

Sessions delivered in excess of the authorized frequency per week/month to compensate for a prior missed session (make-up) may be rescheduled by the service provider according to the procedure indicated below.

NYC EARLY INTERVENTION PROGRAM

MAKE-UP POLICY - INFORMATION FOR FAMILIES

Your child's services should begin within two (2) weeks (14 days from the date of the IFSP authorization). Make-up sessions will not be provided from the date that services are authorized to the date that they begin.

Make-up sessions are not mandatory. However, if a make-up session is held, the NYC Early Intervention Program (NYC EIP) expects that it will be held within **two (2) weeks** of the missed session. A session can only be made-up if it is medically or therapeutically appropriate for your child. It will not be made-up if it violates your child's prescription for services.

- Six make-up sessions per service will be authorized at the time of the IFSP meeting.
- Make-up sessions must happen within two weeks of a missed session.

Special child/family circumstances will be considered by the EIOD. Your service coordinator will contact the Regional Office to discuss child/family circumstances.

Services can be made-up in the following ways:

1. When the make-up session is on a **different day** than a regularly scheduled visit (Example: If a visit is on Tuesday, the make-up session can happen on any day except Tuesday).
2. If the make-up session does not break any New York State billing rules. **NYC will not give waivers for make-up sessions.** Talk to your service provider about how often services can be provided.
3. Group sessions may be made-up only if:
 - a. An appropriate group is available. Your service provider will need to make sure that the group is appropriate for your child.
 - b. An appropriate teacher or therapist is available. If the teacher or therapist does not know your child, s/he may not know how to work with him/her.
 - c. The bus company has room for you and your child or you can transport your child to and from the program.

Not all groups are right for all children, the needs of each child must be considered.

Services cannot be made-up in the following ways:

1. A session cannot be made longer to make-up for missed sessions. For example, if speech therapy is approved for a half-hour, it cannot be made-up as an hour session.
2. Sessions cannot be made-up before they are missed.
3. Sessions **will not** be made-up for family vacations.
4. Missed services cannot be made-up for scheduled agency closings. The agency providing services to your child should give you a copy of their calendar indicating the days that they will be closed.

NYC EARLY INTERVENTION PROGRAM

MAKE-UP POLICY - INFORMATION FOR FAMILIES

Therapist Absences

The therapist or the agency that s/he works for must tell you if a therapist will not provide your child with services for more than 14 calendar days [two (2) weeks]. You can choose to ask for a new therapist or to wait for him/her to come back as long as your child does not go without services for more than three (3) weeks. You should call your service coordinator, right away with your choice, if this happens.

You should also tell your Service Coordinator if your child's therapist or teacher:

- a. Keeps changing the schedule;
- b. Misses a lot of sessions;
- c. Asks you to combine services (for example, a service is authorized two (2) times a week for 30 minutes. The therapist wants to come one (1) time a week for 60 minutes. This is not allowed);
- d. Asks you to sign session notes that are blank or are written for days that s/he did not give services to you or your child.

If you have questions or concerns about services, call your service coordinator. If you still have concerns, call your Regional Office at the numbers below and ask for the EIOD or Assistant Director. You can also call Beverly Samuels, Director of Consumer Affairs at 347-396-6828.

Policy Title: Extending the IFSP	Effective Date: 6/4/2012
Policy Number/Attachment: 6-F	Supersedes: Policies 6-F and 6-G dated 10/17/10
Forms: <ul style="list-style-type: none"> - IFSP Meeting Consent for Services Form (NEW) - Provider Progress Note - Closure Form - Individualized Educations Plan (IEP) - DEP-1 	Regulation/Citation:

I. POLICY DESCRIPTION:

The New York City Early Intervention Program (EIP) recognizes two types of circumstances when a current IFSP period may require an extension of 30-60 days.

- A. **Circumstance “A”:** It is the expectation of the EIP that Six Month Review and Annual Individualized Family Service Plan (IFSP) meetings occur prior to the expiration of the current IFSP. It is recognized, however, that circumstances may interfere with the timely scheduling of these meetings and authorization of services. In these circumstances the EIOD and parent may agree to extend the current IFSP period for up to 30 days the first time, and 30 days at a time thereafter, with no changes to the service plan, so services can continue without interruption. In these cases, the next IFSP period will be diminished by the amount of the Extension. **A current IFSP must be present in NYEIS in order to avoid gaps in services.**

Note: The use of extensions by Service Coordinators (SCs) and providers will be monitored.

- B. **Circumstance “B”:** When a child is aging out of the EIP, and there is a gap between the date that the service authorization ends and the date that the child transitions out of EI. **The Extension of IFSP Policy** will be applied to these children when:
- They are leaving the EIP **60 days or less** beyond the existing authorized IFSP
 - AND**
 - No changes to the existing IFSP are being requested

Examples of children that meet “Circumstance B”:

1. *“Jane” has **been found eligible** for services from the Committee on Pre-school Special Education (CPSE). Her CPSE meeting has been held, and the Individualized Education Plan and DEP-1 are available and also indicates Jane will stay in the EIP until her effective age-out date of 8/31/09. Jane’s current IFSP is effective for the period 2/5/09 to 8/5/09. Her next IFSP Review is due 8/6/09, which is less than 30 days from the date of her transition out of the EIP (8/31/09). Her next IFSP and current services can be extended from 8/6/09 to 8/31/09.*

2. “Tamara” is **found not eligible** for services from the CPSE. She has an IFSP for the period 12/3/11 to 6/4/11 and is due for an IFSP Review. Her DOB is 8/1/08. She will age out on the 7/31/11 (the day before her 3rd birthday). Her next IFSP and current services can be extended from 6/5/11 to 7/31/11.

INSTRUCTIONS FOR COMPLETION - CLOSURE FORM

The **Closure Form** may be completed by the Initial (ISC) or Ongoing Service Coordinator (OSC) under the circumstances described below (See Appendix A).

This form should not be completed if:

1. **The child will be leaving one EI Provider and continue to receive any services through another EI provider within the five boroughs of New York City;**
2. **If an active case is transferred from one borough to another borough; or**
3. **If an active case is transferred to another New York State municipality**

The individual completing the form will:

1. Complete the identifying information.
2. Complete *Effective Date of Closure* (if applicable) - Effective Date of Closure should only be indicated in those scenarios described in the **Case Closure Policy**.
3. Complete *Date of Submission* – The date of submission must be the date that the **Closure Form** is attached in NYEIS.
4. Complete the SC information.
5. Write the SC telephone and fax numbers.

When the **Closure Form** is completed and submitted by any of the ISC/OSC as an attachment to the child's Integrated Case in NYIS, the appropriate staff in the Regional Office will review the form and supporting documentation.

Initial and Ongoing Service Coordinators:

1. Complete **Section I** of the **Closure Form** when any of the conditions listed under "Closure Reason" occurs (see Appendix A: Closure Reason and Definition of Categories).
2. Obtain parent signature on the Closure Form.
3. Keep a completed copy of the **Closure Form** in the child's Service Coordination Case Record.
4. Submits a request to close all open Service Authorizations in NYEIS.
 - a. Refer to the **Case Closure Policy** for detailed instructions.
5. Attach the Closure Form and supporting documentation (if applicable) to the child's Integrated Case in NYEIS.
 - a. If the parent is unavailable for signature, attach the SC notes, certified letter (if applicable) and certified label (if applicable) documenting unsuccessful contact attempts and parent availability issues. For more information refer to the Case Closure Policy.
 - b. Parent signature is **NOT** necessary in cases of child death.
6. Fax copies of the Closure Form to the following: the evaluation site (if prior to the IFSP meeting); and transportation and respite providers, if authorized.
7. If a child is found not eligible for EI services, the SC should discuss referral to Developmental Monitoring (At-Risk) with the parents.
 - a. Indicate if parent agrees with a transfer to DM in Section II of the **Closure Form**.
 - b. Select the risk indicators associated with the transfer to DM.
 - c. Select any other risk criteria as applicable to the DM transfer.

Note: Ongoing Service Coordinators only - If the child is transitioning out of EI after an IFSP has been written, the Transition to CPSE and Other Transitions sections in NYEIS **must** be completed. Refer to Closure Policy for further details.

Regional Office Staff:

1. Review the **Closure Form** and any supporting documentation attached to the child's Integrated Case in NYEIS.
2. Send Prior Written Notice (if applicable)
3. Close the child's EI case in NYEIS.
4. If appropriate, upon transfer open the case in Developmental Monitoring.

Ageout, Not eligible for 3-5, no other referrals made	Children who have been determined to be not eligible for services by the CPSE and age out of EI with no referrals to other programs.
Ageout, Not eligible for 3-5, referred to other programs	Children who have been determined to be not eligible for services by the CPSE and age out of EI with referrals to other programs such as: preschool learning center, Headstart, child care center, health and nutrition services.
Ageout, Eligibility for 3-5 unknown, no other referrals made	Children who have aged out of EI and for whom eligibility for services by the CPSE is unknown or the process is incomplete. Also include children for whom parents did not consent to transition planning or to referral to CPSE.
Duplicate record for this child	Child is already active in NYEIS with another ID number
Closure due to amendment approval	A joint decision was made at an IFSP that services were no longer needed.

New York City Early Intervention Program

Policy Title: Session Note	Effective Date: 5/03/2013
Policy Number/Attachment: 6-K	Supersedes:
Attachments: NYC Early Intervention Program Session Note	Regulation/Citation: NYCRR 69-4.9(g)(6)(7); 69-4.26(a)(15) Early Intervention Memorandum 2003-1

I. POLICY DESCRIPTION:

Providers of Early Intervention must maintain and make available to the municipality and the State Department of Health (SDOH) upon request, complete financial records and clinical documentation related to the provision of early intervention services including information and documentation necessary to support billing to third party payors (including the medical assistance program) and the State, and to permit a full fiscal audit by appropriate State and municipal authorities. (NYCRR 69-4.9(g)(6))

Agency and individual providers must maintain Early Intervention Program records for each eligible child that includes documentation necessary to support claims to third party payors, including the medical assistance program, and to the Department for reimbursement of early intervention services. NYCRR 69-4.26(a)(15)

“Session notes specifically document that the early intervention provider delivered certain diagnostic and/or treatment services to a child and/or caregiver on a particular date. Session notes also assist payors, parents, early intervention providers and municipalities in assessing the extent to which services are helping the child/family to achieve the goals contained in the IFSP. Session notes must be completed by all qualified personnel (i.e. special educator, physical therapist, social worker, etc.) delivering the early intervention services authorized in a family's IFSP for *each service delivered*.” (NYS DOH EIP Memorandum 2003-1)

The session note is also a valuable clinical tool to document how well previous activities worked for the family and child, what occurred during the session, what strategies and natural routines were used, and what learning activities are planned next. The session note can be used by the parents/caregiver as a reference tool, and can help support collaboration and communication among the other interventionists working with the child on the same functional outcomes.

II. PROCEDURE:

INSTRUCTIONS FOR COMPLETION
SESSION NOTES**

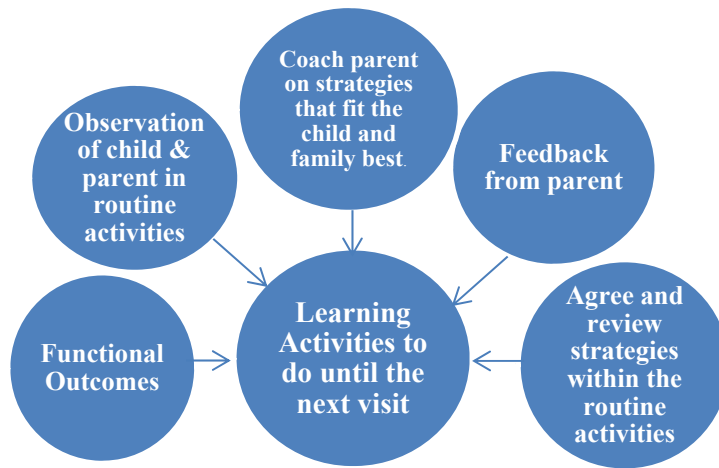

GENERAL DIRECTIONS

The interventionist must complete this form for each session completed and document whenever a session is cancelled and the reason for the cancellation on the form. The family should receive a copy of the session note as close as possible to the completed session. A copy must also be submitted to the interventionist's provider agency for billing purposes.

All Session Note fields are mandatory. Refer to the [Session Note Policy](#)

DEMOGRAPHIC/AUTHORIZATION INFORMATION

Child's Name:	Information must be the same as in NYEIS (do not use nickname).
DOB:	Enter child's date of birth.
Sex:	Enter the sex of the child (M, F).
EI #:	The EI # appears at the top of the "Child Homepage" in NYEIS.
Interventionist Name:	Print the name of the interventionist who is completing this form.
Credentials:	Interventionist's discipline/credentials, e.g. speech therapist (Speech/Language Pathologist, MS, CCC/SP, special educator (MS Ed.), etc.
National Provider ID (NPI):	Write the National Provider ID (NPI). [See NY State regulations from June 2010.]
Service Type:	IFSP authorized service delivered by the interventionist, e.g. Speech, Physical Therapy.
Session Date	Date session was held.
IFSP Service Location:	This is the location the IFSP indicates the service is to be provided (i.e., facility, etc.).
Date note written:	Date that the interventionist completes the note. It is expected that notes are written contemporaneously or as close as possible to the session.
Time:	Exact duration of session. From begin time to end time . AM/PM must be indicated in order to support billing.
ICD-9 code	The relevant ICD-9 code as indicated on the child's evaluation.
HCPCS Code (if applicable)	Enter the Level II HCPCS code for the service or product provided by a non-health care interventionist (for example, Special Educator).
CPT Code(s)	Enter the CPT code(s) as indicated by the interventionist's professional association. <ul style="list-style-type: none"> • Depending on the CPT code, a session may require that more than one. For example, if the same service was provided for a 30 minute session and the CPT code is for 15 minutes of service, the CPT code would be listed twice. (See Early Intervention Memorandum 2003-1).
Session Cancelled:	When a session is cancelled: <ol style="list-style-type: none"> 1. Indicate that the session was cancelled and document the reason under question #1. 2. The missed session must be made up before: Write the date that is 2 weeks from the missed session. The make-up session should occur prior to this date. 3. This is a make-up session for: If this session is a make-up session, check this box and indicate the date of the missed session. <p>Note: Refer to the Make – Up Policy</p>
Session Participants	Check the box that indicates the session participants. Specify others not listed (e.g., siblings).
Parent/ Caregiver unable to participate	Indicate the reason the parent/caregiver was not able to participate.
Questions #1 to #5 support the interventionist in their work with the parent/caregiver and the child. Below is a diagram to visually show what kind of information is to be covered - (Refer to the Appendix for definitions of terms.)	

<p>1. Describe the progress/responses that the child has made toward the IFSP outcomes since the last session. Incorporate parent/caregiver feedback.</p>	<p>The information in this section guides what will be worked on during the current session.</p> <p>In this section, the interventionist must document:</p> <ol style="list-style-type: none"> 1. The progress the child has made since the last visit (i.e., generalization to other routines, ease of doing, obstacles encountered, etc.) after observing the child & parent/caregiver in the routine and talking with the parent/caregiver. 2. Document feedback from the parent/caregiver as to what strategies worked and did not work. <p>The interventionist may also update information about the child/family if there are changes in medical or developmental status or in community services.</p>
<p>2. IFSP Functional Outcome(s) and Objective(s) addressed during this session:</p>	<p>Document the IFSP functional outcome(s) and objective(s) that was worked on in this session with the child and parent/caregiver.</p> <p>Note: Ongoing discussion with the parent/caregivers about what their concerns, priorities and resources currently are will help guide the functional outcome or objective that will be worked on.</p>
<p>3. Routine Activities worked on during the session:</p> <p>Strategies used within the Routine Activities:</p>	<p>The session note must include documentation that services are being delivered within the context of the family’s natural routines and are functional for the child.</p> <ol style="list-style-type: none"> 1. The routines must be specific to the family’s cultural and social environment and are of a concern and priority for them. 2. The routine activities should include but are not limited to those listed in the functional outcomes in the IFSP. 3. It is expected that a range of family routines be documented when appropriate. Routines should not be limited to “play routines”. <p>Check off all those that were used during the session or write in the daily routine if it is not listed. Routine activities may include:</p> <ul style="list-style-type: none"> • Activities of Daily Living (ADL) Routines which cover hygiene routines, food routines, & dressing routines; • Play/Socialization routines, • Community/Family routines; • Song/Rhyme Routines; • Book Routines; and <p>Indicate the strategies used to help the families/caregivers successfully support the child’s participation in daily activities.</p> <p>The following are examples of strategies:</p> <ul style="list-style-type: none"> • Positive reinforcement at all levels; • Parent models -child imitates; • Verbal cues only; • Gesture with verbal cues;

Procedural Notes:

A ***Family Activity Sheet*** is available to help support the parent/caregiver in the learning activities until the next session (located following the session note in this chapter of *the NYC Policy and Procedure Manual* and on the www.nyc.gov website).

The ***Family Activity Sheet*** is a voluntary tool that can be used to document the strategies that the family plans to use during targeted daily routines. The type of tool that the parent/caregiver decides to use is individual to the family. They may decide to use either the Family Activity Sheet, or a communication notebook, or a calendar or even a combination of these tools. They may also use different tools at different times, or decide not to use any tool.

New York City Early Intervention Program

Policy Title: Provider Progress Notes	Effective Date: 5/03/2013
Policy Number: 6-L	Supersedes: N/A
Attachments: Provider Progress Note	Regulation/Citation: NYCRR 69-4.9(g)(7); 69-4.26(a)(15);(b)(5)(10) Early Intervention Memorandum 2003-1

I. POLICY DESCRIPTION:

Providers of Early Intervention must maintain and make available to the municipality and the State Department of Health (SDOH) upon request, complete financial records and clinical documentation related to the provision of early intervention services including information and documentation necessary to support billing to third party payors (including the medical assistance program) and the State, and to permit a full fiscal audit by appropriate State and municipal authorities. (NYCRR 69-4.9(g)(6))

Records must be maintained in accordance with NYCRR 69-4.17(a) that document the performance of activities required to be completed by the provider on behalf of an eligible child and the child's family.

Periodic progress notes summarizing the effectiveness of the service and progress being made toward major outcomes/rehabilitation goals should be prepared by all early intervention providers, at a minimum, for six-month reviews and annual evaluations of the IFSP. It is recommended that periodic progress notes be completed every 90 days.” (Early Intervention Memorandum 2003-1) .

2. Describe the learning activities (strategies + routine activities) that were successful for the family and specify the functional outcomes and objectives related to these activities.

3. What changes were made to the coaching techniques or learning activities when they were ineffective for the family/caregiver? When you modified the coaching techniques or learning activities; were they successful or if not, why? Please address each functional outcome and the relevant objectives as applicable.

4. Describe all collaborative efforts made to address the IFSP outcomes (Examples: interaction with other therapists, day care staff, community resources, and medical providers (with written parent consent)). Please include the family members/caregivers you have been working with.

5. Based on your on-going assessment of the child, what is the overall progress in this child's functional abilities? How was progress determined (e.g. standardized instrument & informed clinical opinion)?

- i. **Describe the child's current skills. Underline skills that have been achieved since the last progress note (or IFSP).**

- ii. Indicate if the child's functional abilities are/are not within the normal developmental range. If this child's skills are not within the normal range, what skills will you be working on in the next 3 months?

6. For 6-Month/Annual Progress Notes only: If the child is still eligible for early intervention services, are there new functional outcomes or objectives recommended? The functional outcomes must contain all 6 components and be written in parent friendly language. The new/revised functional outcomes or objectives must be discussed with the parent before submission to NYCEIP.

I certify that I have received and reviewed a copy of the child's IFSP and evaluation/progress notes prior to starting services, have provided services in accordance with the IFSP service's specified frequency and duration, and have worked towards addressing the relevant IFSP outcomes. I further certify that my responses in this report are an accurate representation of the child's current level of functioning.

INSTRUCTIONS FOR COMPLETION
PROGRESS NOTES**

GENERAL DIRECTIONS

The therapist/teacher must complete this form at the 3, 6, 9, and 12 month interval after a child's initial IFSP meeting.

- The 3 and 6 month progress notes must be submitted at least two (2) weeks prior to the 6 month review.
- The 9 and 12 month progress notes must be submitted at least two (2) weeks prior to the Annual Review.

At the top of each page, please circle the IFSP interval that this progress note covers.

Please write notes clearly so that others can understand them. All questions must be answered or progress notes will be returned.

DEMOGRAPHIC/AUTHORIZATION INFORMATION

Child's Name:	Information must be the same as in NYEIS, (do not use a nickname).
EI # and DOB:	Make sure that all identifying information is correct. The EI# is the number that appears at the top of the "Child Homepage" in NYEIS.
IFSP Period:	These are the dates (from/to) of the current IFSP (not the recording quarter).
Provider Agency Name and ID#:	Agency and identification number of the agency for which the interventionist works.
Interventionist Name:	Print the name of the interventionist who is completing this form.
Discipline:	Interventionist's discipline, e.g. speech therapist, special educator, etc.
Service Type:	IFSP authorized service delivered by the interventionist, e.g. Speech, Family Training.
Interventionist's Phone Number:	Direct number (cell, etc.) at which the interventionist can be reached if there are questions about the report. Do not use the provider agency's number.
Language of Sessions:	Please indicate the language(s) used during the sessions.
Date Reviewed Note with Parent/Parent Signature:	The interventionist must review the report with the parent prior to submission and document such review. If parent is interested in voluntarily completing the Parent Progress Note, the service coordinator may give the form to the parent or the parent may access it on the nyc.gov website.
Authorized Frequency:	How often the service was authorized at the IFSP (Ex: 1 x 30)
Date you started working with the child	State the date that you delivered the first intervention session.
Where have services been delivered?	Location of services, e.g. parent's home, babysitter's home, day care center, agency location, etc.
Has the parent(s) been present for the session, if not, how have you communicated with the family?	Indicate whether the parent has been present for the session. If not who was present? Describe your method of communication with the family. (Ex: Phone calls, meetings at work, notebook left in the parent's home or day care center, etc.).
If there have been any gaps in service delivery of more than three consecutive scheduled visits, describe the length and the reason(s)	Explain the reason for, and length of, any gaps, whether make-up sessions were delivered, whether there was a gap between your service delivery to the child and that of the previous interventionist, etc.
List the child's medical diagnosis(es)	List all diagnoses. Indicate if any diagnoses are newly identified.
Is the child using assistive technologies (AT)	Check Yes or No
Is a new AT device being requested?	Check Yes or No
Indicate the type of device, and how the device is helping (or will help) to achieve an IFSP Functional Outcome?	If the child is currently using an AT device, or if an AT device is being requested, indicate type of device and how the device will help achieve an IFSP outcome. Specify the functional outcome(s) related to the AT device. If a child needs an AT device, refer to the AT Chapter for directions on requesting AT devices.

Progress Note Question Instructions

1. Below list all the IFSP functional outcomes and objectives. Indicate the progress for each.
(Refer to the Appendix for definitions of terms if needed.)

- a. For each functional outcome, rate the child's progress during the time period covered by this report.
 - i. Next break down each functional outcome into short-term objectives that have been, and are currently being worked on.

Example:

IFSP Functional Outcome #1: Ida will be able to pick up small objects, such as raisins or Cheerios, with either hand using her thumb and index finger without resting her arm on the table so that she can begin feeding herself everyday during meal time.

Objective 1a: Ida will pick up a Cheerio with fingers/scraping movement.

Objective 1b: Ida will pick up a Cheerio with side of finger and thumb.

- c. **For each objective listed, check the appropriate box to indicate if the objective has been achieved (Y), is not present (N), or is Emerging (E)** – the skill has started to develop but has not been incorporated into all aspects of the child’s routine.
- i. *If it has not been addressed yet, please write in “not addressed yet” next to the objective.
- d. **Was this functional outcome and objectives identified at the IFSP meeting? If not, the date it was changed and reason:**
- ii. Indicate whether *this* IFSP functional outcome and its objectives was identified at the IFSP period.
If not, when were the functional outcome &/or objectives changed (ex., the date) and provide an explanation why.

Example:

An additional objective was added to build upon Ida’s progress and achievement of the functional outcome:

Objective 1c: Ida will pick up a Cheerio with tip of finger and thumb while her arm is on the table.

Note:

- The information that you have documented in your session notes will assist you in completing these questions.
- The questions must be addressed for each functional outcome and its objectives.
- Attach additional sheets to this progress note as needed.

2. Describe the learning activities (strategies + routine activities) that were successful for the family and specify the functional outcomes and objectives related to these activities.

- a. Describe in detail what types of strategies are being integrated within specific routine-based activities the family used to achieve each objective/functional outcome. Include the family’s feedback as to how well these learning activities worked when you were not present. This question asks about the successes.

Example:

Objectives 1a, 1b, and 1c: During mealtime, Ms. Mills presents Ida with small bits of foods on a flat surface (ex: Ida’s favorite flat plate); these include peas, diced cooked carrots, and Cheerios. Ms. Mills picks up one cheerio at a time on Ida’s high chair tray to show Ida what to do.

Objectives 1b and 1c: Ms. Mills encourages Ida to turn the pages of a book with thin paper during story time.

Note:

- Describe and highlight what the child can do now which he/she was previously unable to do.
- Address each relevant outcome.
- Provide an overall picture of how the child is functioning within daily routines and how the learned skills have been incorporated.

3. What changes were made to the coaching techniques or learning activities when they were ineffective for the family/caregiver? When you modified the coaching techniques or learning activities; were they successful or if not, why? Please address each functional outcome and the relevant objectives whenever applicable. –

- a. Explain how you changed your coaching techniques or the learning activities if the child’s progress was limited or if it was difficult for the family to incorporate strategies into their daily routines.
- i. This question asks about how you worked with the family to modify your coaching techniques and the learning activities to better fit the parent/caregiver and child.
- ii. Indicate when functional outcomes or objectives are not achieved and explain why.

Example of a change to an activity: Because Ida prefers to use all her fingers in a raking motion when presented with a plate of Cheerios, Ms. Mills started presenting Ida with one Cheerio at a time in the palm of her hand to encourage the use of Ida’s thumb and index finger. In addition, throughout the day, Ms. Mills started encouraging Ida to turn a wall light switch on and off.

Example of a change to intervention approach: I found that Ida was tired at the time of my scheduled visit. The parent and I discussed what would be better times for Ida. We agreed and switched the time to after her nap. After this change, Ida had better results.

4. Describe all collaborative efforts made to address the IFSP outcomes (Examples: interaction with other therapists, day care staff, other caregivers, community resources, and medical providers (with written parent permission)). Please include

the family members/caregivers you have been working with.

- a. Describe communication with the other EI therapists and how you worked with them to achieve the functional outcomes. With parental consent, have you communicated with relevant medical providers?
 - i. At the parent's request, how have you assisted the family in finding other resources (e.g. books, articles)?
 - ii. Have you communicated with day care staff, taught techniques to grandparents, nannies, etc. who are part of the child's routine activities?

5. Based on your ongoing assessment of the child's progress, what is the child's overall progress in this child's functional abilities? How was progress determined (e.g. standardized instrument and informed clinical opinion)?

- a. When documenting the evidence on which a determination regarding the child's current functional abilities is based, please refer to the *NYS DOH Memorandum 2005-02 – Standards and Procedures for Evaluations, Evaluation Reimbursement and Eligibility* as well as any relevant NYS DOH Clinical Practice Guidelines.
 - i. **Describe the child's current skills. Underline skills that have been achieved since the last progress note (or IFSP).**
 - Give a detailed description of the child's current skills. Underline new skills that have been achieved in the last 3 months.
 - ii. **Indicate if the child's functional abilities are not within normal developmental range. If this child's skills are not within the normal range, what skills will you be working on in the next 3 months?**
 - Based on the child's current skill level, list the skills that will be needed for the child to make progress in the next 3 months.

Note: If an instrument is administered, report the results according to the instrument's manual.

6. For 6-month/Annual progress notes only: If the child is still eligible for early intervention services, are there new functional outcomes recommended? The functional outcomes must contain all 6 components and be written in parent friendly language. The new/revised functional outcomes must be discussed with the parent before submission to NYCEIP.

- a. Interventionists may submit new functional outcomes when the child is still eligible for early intervention services and the new outcomes and related objectives more closely reflect the learning characteristics of the child (for example, when the previous outcomes have been achieved).
- b. Ensure that the functional outcomes you recommend:
 - i. include identified family routines;
 - ii. reflect the family's current priorities and concerns;
 - iii. are individualized to the child and family;
 - iv. take into consideration the child's disabilities, characteristics, strengths and needs, and
 - v. are written in parent friendly language with no clinical or technical terms.

Note:

- To review the criteria for on-going eligibility in the NY State Guidance and Memorandum 2005-02 at http://www.health.ny.gov/community/infants_children/early_intervention/memoranda/2005-02/ongoing_eligibility.htm
- Refer to the **Appendix: Functional Outcome and Embedded Coaching Terminology for Session and Progress Notes**. For additional detailed information about functional outcomes, take the training posted on the NY City EIP website on the Interventionist page: <http://home2.nyc.gov/html/doh/html/earlyint/interventionist.shtml>

Certification: Sign, date, provide license number and print name. Include interventionist's discipline/credentials, e.g. speech therapist (Speech/Language Pathologist, MS, CCC/SP, special educator (MS Ed.), etc. If a certified professional, indicate "certified" and do not write license number.

This field may also include the signature, License/Certification number of a supervisor in the case of student interns, CFYs, OTAs, and PTAs, as applicable. The date of the supervisor signature should also be indicated.

Procedural Notes:

- The family should receive a copy of all completed progress notes.
- Please address any questions the family may have related to the progress notes.
- Please write the progress note so that others (e.g., the family, EI/OD, team) may understand it. It should be written legibly, clearly and in parent friendly language.
- Discuss with the family their current concerns, priorities & resources, daily routines, and child's developmental status in preparation for 6- and 12-month IFSP reviews.
- **Submit completed progress notes no later than 2 weeks prior to the IFSP review meeting.**

What/Will do what: This is what the child will do (that is reasonable for the next 6 months) How/Measure for success: This is how everyone on the team including the parents/caregivers will know that the outcome has been met. It should be observable. Under What Condition: This is any specific situation or adaptation that is reasonable. Routine Activity: These are events that occur typically during the child’s day and are individualized by the family’s culture and environment. “So that”/Why: This is what the family would like to achieve or the reason why it is important. <p align="center">The six components that make up a Functional Outcome</p> <p>Example: Functional Outcome #1: Ida will be able to pick up small objects, such as raisins or Cheerios, by using her thumb and index finger <i>Who</i> <i>Will Do What</i> <i>Criteria for Success</i></p> <p>while sitting in her high chair so that she can begin feeding herself during meal time. <i>Under What Condition</i> <i>Why it is important to the Family</i> <i>Routine Activity</i></p> <p>Note: The <i>Functional Outcome Assistant</i> tool may be used to assist in the creation of the functional outcome.</p>
<p>Objectives</p>	<p>Objectives are short term goals that should be achieved in order for the child to reach the functional outcome. Objectives should be specific, measurable, and written in parent friendly language.</p> <p>Examples of three objectives for the functional outcome listed above:</p> <p>Objective 1a: Ida will pick up a Cheerio with fingers/scraping movement. Objective 1b: Ida will pick up a Cheerio with side of finger and thumb. Objective 1c: Ida will pick up a Cheerio with tip of finger and thumb while her arm is on the table.</p>
<p>Routine Activities</p>	<p>Routine activities are events that occur within the child’s day (ex: bedtime, snack time, time at the playground, reading time) and that provide opportunities to learn and practice strategies with family members. Routines activities are also known as daily or natural routines.</p> <p>Examples of routine activities*:</p>

Strategies/Methods/Approaches	<p>Strategies/Methods/Approaches are ways that the family and interventionist support the child’s learning in routine activities. Visual Support	Adaptation of the social environment																				
Coaching Techniques	<p>Coaching techniques are ways that the interventionist coaches the parent/caregiver in using the different strategies to support their children during routine activities. Coaching techniques should be individualized for the learning characteristics and preferences of the parent/caregiver in order to be effective. More than one coaching technique may be used during the session.</p> <p>Examples of coaching techniques include but are not limited to:</p> <ul style="list-style-type: none"> • Parent/caregiver tried activity, therapist assisted • Observation of parent/caregiver and child performing activities • Giving the parent a picture illustrating the way to position the child after demonstrating the method • Discussed activity with parent/caregiver • Videotaping learning activity and viewing it with parent • Demonstrated parent/caregiver activity while providing explanations and descriptions • Tried different strategies with parent/caregiver to determine best fit for child and family • Parent/Caregiver tried activity and therapist provided verbal guidance • Reviewed communication tool with parent/caregiver • Reviewed with parent/caregiver the strategies the family developed and tried and provided feedback 																				
Learning Activities	<p>Learning activities incorporate the strategies and the routine activities to create natural learning opportunities for the child and family to practice and build upon their competencies.</p> <div style="text-align: center;"> <p>The diagram consists of three blue circles arranged horizontally. The first circle on the left contains the text 'Learning Strategies'. To its right is a plus sign '+'. The second circle in the middle contains the text 'Routine Activities'. To its right is an equals sign '='. The third circle on the right is larger than the others and contains the text 'Learning Activities'.</p> </div> <p>Since learning activities occur during the child’s and family’s natural daily routines and fit the family’s culture</p>																				

	<p>and lifestyle, these learning activities should <u>not</u> be considered extra tasks or homework.</p> <p>For the session note, this is where the interventionist outlines the steps for the learning activities that both the parent and interventionist agreed on and that the parent/caregiver will do with the child until the next visit.</p>
<p>Embedded Coaching</p>	<p>Embedded Coaching is a family centered approach that facilitates communication and collaboration between the Early Intervention professional and the parent/caregiver. Family centered approaches help support families in providing multiple, natural learning opportunities during everyday routine activities for their children to learn and develop.</p> <p>There are three main components of Embedded Coaching (Keilty, Bonnie (2010), <i>Practice Mentor Guide</i>, NYC DOHMH EIP Learning Collaborative):</p> <ol style="list-style-type: none"> 1. <u>On-Going Authentic, Routines-Based Assessments:</u> <ol style="list-style-type: none"> a. Interventionists observe the child in his/her routine activities, and engage in conversations with family members and other important adults, to gain an understanding of each child’s unique developmental profile as the child functions in his/her natural environment. b. Assessment data include the child’s strengths, needs, and learning characteristics within the context of everyday life, as well as the developmental impact of the social and physical environment. c. This authentic picture provides data to identify individualized approaches that fit the child, and his/her family <u>everyday activities and routines</u>. 2. <u>Embedded Interventions (into the child’s everyday activities and routines):</u> <ol style="list-style-type: none"> a. Interventions occur during home and community routines, activities, and other times of the child’s day that are specifically identified by family members as activities in which they would like support. b. Interventions are scheduled at the time of day when the specific routine activity usually occurs and includes the people who are usually a part of the routine activity. c. Interventionists limit changes in the way the routine activity happens, and suggest only those changes necessary for the child to successfully participate and learn. d. Agreed-upon developmental strategies are not only tailored to the unique strengths and needs of the child, but also fit the individual family’s routine activities, and the family’s own cultural values, where strategies will be used in between visits. 3. <u>Collaborative Coaching Approaches:</u> <ol style="list-style-type: none"> a. Specific approaches used to ensure that adult family members and other important people in the child’s life (e.g., child care providers) are confident and competent in using agreed-upon strategies in between intervention visits to promote the child’s learning and development. b. The interventionist explains, models, and supports family members as they practice the strategies. c. Professionals provide feedback on strategy use and elicit feedback from the family members on their comfort and confidence in using the strategies. d. Successful collaborative coaching results in: <ol style="list-style-type: none"> (1) intervention strategies that fit the individual family context and (2) family members who are effective in, and willing to, use the agreed-upon developmental strategies in between professional visits, during their everyday routine activities. <p>*For additional information on Embedded Coaching, please review the Interventionist page on the NYC DOHMH Early Intervention website.</p>

NYC EARLY INTERVENTION PROGRAM INSTRUCTIONS FOR COMPLETION CHANGE IN SERVICE(S)/SERVICE PROVIDER/SERVICE COORDINATOR INSTRUCTIONS

GENERAL DIRECTIONS:

The Service Coordinator (SC) must complete this form when there is a proposed change in Service(s), Service Provider, or Service Coordinator. After completing the identifying information about the child and the currently assigned service coordinator, place an "X" in the appropriate section and complete/attach the relevant information. Once the parent has indicated his/her review of the proposed changes by signing in the relevant section (a change in provider of services and initial service coordination do not need parent's signature), the SC must attach the completed form along with the appropriate documentation to the child's Integrated Case in NYEIS.

SECTION I - SERVICE PROVIDER

Complete the Service Provider Name, State Provider Early Intervention Number, of the current **and** the new service provider.

- The current provider information is located by selecting *the Service Authorization (SA) Reference number for the SA you wish to amend.*
- The new service provider information is obtained when *the "Change/Assign Provider and Location" Button is selected and the SC searches for a new provider agency*

NYEIS Authorization Reference Number of the service authorization being amended - located on the bottom of the NYEIS IFSP.

A change in provider agency/rendering provider does not require a parent signature. **However, the date that the parent was notified of the change in provider agency/rendering provider must be provided.**

SECTION II – INITIAL SERVICE COORDINATOR

Complete the Initial Service Coordination (ISC) agency name, and the individual ISC name for the current and proposed ISC/ ISC agency

Include the NYEIS Authorization Reference Number of the service authorization being amended – located in the *"Service Coordination Service Authorizations"* section on the child's Integrated Case Page in NYEIS.

Although a change in the Initial Service Coordinator (ISC) should be discussed with the parent, the parent does not need to give consent.

SECTION III – ONGOING SERVICE COORDINATOR

Indicate the Service Coordinator (SC) names, SC NPI #, and State Provider ID # for the current and proposed Service Coordinators/Service Coordination Agency.

- The current provider information is located by selecting *the Service Authorization Reference number for the Service Coordination SA you wish to amend*
- The new service provider information is obtained when the *"Change/Assign Service Coordination Provider" Button is selected and the SC searches for a new SC provider agency/ Ongoing Service Coordinator*

NYEIS Authorization Reference Number of the service authorization being amended - located on the bottom of the NYEIS IFSP.

The parent's written consent is necessary when there is a change in the Ongoing Service Coordinator (OSC). The reason for the change must be documented on agency letterhead.

SECTION IV - CHANGE IN SERVICES

This form must be submitted in NYEIS reflecting only changes being requested with the **Justification for Change in Frequency, Intensity, or Method of Services form**, progress notes, recent evaluations and the required justification. Refer to the policy on Amendments in Chapter 7 of the Policy and Procedure Manual for instructions requesting an addition to ongoing service coordination units.

PLEASE NOTE:

To request a change in Initial Service Coordination Units refer to the **Changes in Initial Service Coordinator or Initial Service Coordination Units Policy**.

***All proposed changes, except for a change in the ISC, and a change in the provider of services already on an IFSP must have written parental consent.**

 - b. What successes or difficulties has the family had in integrating these activities?
 - c. When suggested activities were integrated into everyday activities, what changes in the daily routines have you observed?
4. Service Plan Coordination
 - a. Have you coordinated with other team members to achieve IFSP outcomes?
 - b. Have you addressed the same or different IFSP outcomes as other therapists? Explain.
5. IFSP Outcomes:
 - a. What is/are the functional outcome(s) that you are currently working on as stated in the IFSP?
 - b. What are the short term objectives that you are currently working on to reach the functional outcome(s)?
 - c. What progress has the child made toward the IFSP outcomes since initiation of this service plan?
 - d. What alternate strategies have you used to replace ineffective strategies? Have they been effective?
6. What will the recommended change offer that the present plan does not?
 - a. Does the proposed plan recommend a new functional outcome?
 - b. What new, short term objectives are being proposed to reach the functional outcomes?
 - c. What are the new strategies being proposed to achieve the short term objectives?
 - d. Will the new plan involve strategies and methods that cannot be reinforced by activities that are part of the child's daily routine? If yes, describe why and indicate if changes in the daily routine are possible.
7. List any changes in the child's medical diagnoses, conditions or medications since the last IFSP which may have an impact on the child's reaction to EI Services. Describe how a change in the child's medical condition or medications will affect the service delivery plan.

New York City Early Intervention Program

Policy Title: Transition Out of The Early Intervention Program (EIP)	Effective Date: 6/4/2012
Policy Number: 10-A	Supersedes: N/A
Attachment(s): <ul style="list-style-type: none"> • Notification to ACS and Foster Care Agency of Transition Out of Early Intervention Form • Notification of Potential Eligibility to the CPSE • Parent Consent for Transition Conference and Invitation to the CPSE Chairperson for Transition Conference Form • Parent Referral to the CPSE for Initial Evaluation • Consent for Transmittal of Parent Referral for Initial Evaluations, EIP Evaluations, and Program Records to the CPSE • Transition Notice Information Document • Transition Timelines and Age-Out Dates 	Regulation/Citation: EI Regs., Sec. 69-4.1(m); 69-4.11(10)(xiii); 69-4.20(a)-(d); 69-4.6(c)(7); 69-4.26(13)

I. POLICY DESCRIPTION:

All children leaving the Early Intervention Program (EIP) require a Transition Plan. Planning should begin in preparation for the Individualized Family Service Plan (IFSP) closest to the child's second (2nd) birthday and no later than six (6) months before the child turns three (3) years of age or when the child is leaving the EIP for any reason. **(NYCRR 69 4.6(c)(7); 69-4.11(10)(xii))**

Children who make significant progress in the EIP may not require preschool special education services. Children who may continue to need services when they age out of the EIP may be eligible for preschool special education services authorized through the Committee on Preschool Special Education (CPSE). **(NYCRR 69-4.20(a)(c))**

“Under Public Health Law (PHL), a child’s eligibility for the EIP ends the day before his or her third (3rd) birthday, unless the child has been referred to the CPSE and has been found eligible for services under Section 4410 of the Education Law. Parents of children found eligible for 4410 services before the child’s third (3rd) birthday, can choose to begin services on the first age eligible date, the child’s third (3rd) birthday or remain in Early Intervention (EI) until mandatory age out date.” **(NYCRR 69-4.1(m))**

The following transition procedures also apply to children in foster care who are in the EIP. The local social services commissioner (Agency for Children’s Services in New York City)(ACS), and the foster care case worker must be invited to participate in the transition planning process. **(NYCRR 69-4.20 (2))**

All decisions made by the surrogate parent should be in consultation with the ACS case planner, and the foster care case worker.

Note:

- Instructions for navigating NYEIS are denoted in *italics* in the body of this Policy

Note: The EIOD must be present at the Transition Conference.

- Sends invitation (**The Consent for Transition Conference Form**) to CPSE chair/administrator;
 - Sends the **Parent Consent for Transition Conference and Invitation to the CPSE Chairperson for Transition Conference Form** to the RO, within one (1) business day of receiving written parental consent, with the **IFSP Meeting Request and Confirmation Form** to initiate the Transition Conference/IFSP meeting.
- iv. If the parent/surrogate does **not** consent to a Transition Conference:
- Attaches the **Parent Consent for Transition Conference and Invitation to the CPSE Chairperson for Transition Conference Form** indicating parental choice **to the child's** most current IFSP in NYEIS.

Note: Parents/surrogates must be given a chance to participate in a Transition Conference even if the child has already been referred to CPSE.

- c. Referral to the CPSE for Initial Evaluation:
- i. Discuss timelines to refer child to the CPSE to ensure there is sufficient time to complete the evaluation and eligibility determination before the child's third (3rd) birthday.

Note: Referral can be made at any time by a parent/surrogate, but is recommended to occur no later than 90 days before the child's third (3rd) birthday or as early as 120 days before the child's first potential age-eligibility for preschool special education services. This will assist with the timely continuation of services, if the child is found eligible for the CPSE.

- ii. If parent/surrogate decides to refer his/her child to the CPSE:
 - Completes the **Parental Referral to the CPSE for**

SC Cont.

Initial Evaluation Form and obtains parent/surrogate signature:

- **With parental consent**, mail (return receipt requested) or fax the referral to the CPSE;
 - The parent/surrogate may choose to send the referral form to the CPSE.
 - Completes the **Consent to Transmit Parent Referral of Initial Evaluation, EIP Evaluations, and Program Records to CPSE Form** indicating if the parent/surrogate would like any part(s) of the EI record released to CPSE; and
 - Sends the **Referral Form** and any agreed-upon section of the EI record to CPSE no later than 90 days before the child's third (3rd) birthday or as early as 120 days before the child's first potential age-eligibility for preschool special education services.
- iii. If the parent/surrogate decides **not to refer** his/her child to CPSE:
- Informs the parent/surrogate that they can reconsider as the Transition Plan is reviewed and updated;
 - Review **the Early Intervention Transition Timelines and Age-out Dates** with the parent/surrogate;
 - Provides the parent/surrogate with the **Transition Notice Information Document**;
 - Gives the parent/surrogate a referral form in case he/she reconsiders at a later date; and
 - Informs the parent/surrogate that if child continues to need EI services, but is not referred to, found eligible, and a meeting held with the CPSE, Early Intervention services will end the day before the child's third (3rd) birthday.

Note: Children who make significant progress in EI may not need preschool special education services; therefore a referral to CPSE may not be necessary in every situation. However the steps discussed under numbers 1 - 5 above must be completed regardless of the families' ultimate transition choice.

5. Attaches the following transition forms to the child's most current IFSP in NYEIS:
- **Notification to ACS and Foster Care Agency of Transition Out of Early Intervention Form (if applicable),**
 - **Parent Consent for Transition Conference and Invitation to the CPSE Chairperson for Transition Conference Form** (If parent/surrogate declines the Transition Conference),
 - **Parent Referral to the CPSE for Initial Evaluation Form, and**

New York City Early Intervention Program

Policy Title: Referral of Children to Early Intervention who are dually eligible for EI and CPSE	Effective Date: 6/4/2012
Policy Number: 10-B	Supersedes: N/A
Attachment(s): <ul style="list-style-type: none"> • Consent to Transmit Parent Referral for Initial Evaluation, EIP Evaluations and Program Records Form • Notification of Potential Eligibility to the CPSE Form • Parent Consent for Transition Conference and Invitation to the Committee on Preschool Special Education Chairperson for Transition Conference Form • Parent Referral to the CPSE for Initial Evaluation Form 	Regulation/Citation: NYS Regs, 69-4.1(m); 69-4.20(a); 69-4.6(c)(7), 69-4.26(13)

I. POLICY DESCRIPTION:

A child may be referred to the Early Intervention Program (EIP) when also potentially age eligible for services through the Department of Education’s Committee on Preschool Special Education (CPSE). It is the responsibility of the Initial Service Coordinator (ISC) to explain dual eligibility and assist the parent in making an informed decision.

This policy applies to any child who:

1. Is two(2) years six(6) months (2.6) or older at the time of referral to the EIP

Note:

- **Instructions for navigating NYEIS are denoted in *italics* in the body of this Policy**

The Early Intervention Program (EIP) under the Federal Individuals with Disabilities Education Act (IDEA) is required to release the following contact information to your local school district:

- **Parent's name**
- **Child's name**
- **Address**
- **Phone Number and**
- **Date of Birth**

This information is sent to notify your local school district of your child's potential eligibility for preschool special education programs and services when your child turns three (3) years of age. This information helps your school district prepare for your child's transition to preschool special education programs and services.

The EIP provides written notice to the Committee on Preschool Special Education (CPSE) of the local school district where your child lives at least 120 days (when your child is 24-30 months) before your child is first potentially eligible for services under section 4410 of Education Law..

A parent may opt-out (object) to the written notification and not have this information sent to the CPSE.

A. I understand the notification requirement and that I have 30 calendar days from the day that I signed this form to opt-out of the written notification to the CPSE by the Early Intervention Program. If I do not contact my Service Coordinator (SC) in writing or by phone within 30 calendar days of today's date, written notification will be sent to my CPSE.

Or

B. I understand the notification requirement and choose to opt-out today and not have written notification sent to my CPSE.

Or

C. I understand the notification requirement and choose to have CPSE notified of my child's potential eligibility thereby waiving the 30 calendar day opt-out period.

 - b. School District: Write the number of the school district of child's residence
 - c. Phone number: Write the phone number of the above referenced administrator
 - d. Fax number: Write the fax number of the above referenced administrator
4. Explain the parents' rights to opt-out of (object to) notification to the CPSE of the child's potential eligibility. Have the parent/surrogate check whether:
 - a. They are unsure whether they want to have their contact information sent to the CPSE. Ensure that they understand that if they do not opt-out within 30 days of this meeting, the EIP will send this information to the CPSE; **or**
 - b. They are opting-out of notification to the CPSE; **or**
 - c. They choose to have the EIP notify the CPSE of the child's potential eligibility (parent waives the 30 day opt-out period).
5. The parent/surrogate must sign the form.
6. If the parent/surrogate chooses box A and, within 30 days declines notification to the CPSE, the SC must immediately notify the responsible Early Intervention Official Designee (EIOD) of their decision.
7. This form must be faxed to the EIOD by the SC within 48 hours of obtaining signature.

I understand that to ensure my child continues to receive Early Intervention (EI) services on and after his/her third (3rd) birthday, s/he must be referred to, evaluated by, found eligible, and have a meeting with the Committee on Preschool Special Education (CPSE) for preschool special education services by the CPSE of my local school district (the district where my child lives) before his/her third (3rd) birthday.

I understand that as of my child's third (3rd) birthday, my child will no longer be eligible for the New York City Early Intervention Program (EIP) unless s/he has been found eligible for preschool special education programs and services. If my child is not found eligible before my child's third (3rd) birthday, EI services will end the day before his/her third (3rd) birthday.

Consent to Convene a Transition Conference

The Transition Conference is an opportunity to provide parents and caregivers information to assist families with making an informed decision about the programs and services available through the Committee on Preschool Special Education (CPSE) System.

At this meeting the referral to the CPSE, and available programs and services are discussed. A transition plan is also developed.

I want the NYC EIP to arrange a Transition Conference. The Early Intervention Official Designee (EIOD), my Service Coordinator (SC), and chairperson of the CPSE or his/her designee will be invited. I also consent to the following agency(ies) or individual(s) attending: _____

I do NOT want to have the NYC EIP arrange a Transition Conference. I know that my child can be referred to CPSE without a conference. I understand that to ensure my child continues to receive Early Intervention services on and after his/her third (3rd) birthday, s/he must be referred to, evaluated by, and, found eligible for preschool special education services by the CPSE.

NYC EARLY INTERVENTION PROGRAM

PARENT TRANSITION NOTICE INFORMATION

You have indicated that you do not want to refer your child to the Committee on Preschool Special Education (CPSE) at this time.

Please read this notice carefully. It contains important information for your child.

Your child's Early Intervention (EI) services will end *the day before your child turns three(3) years old* if:

- You choose not to refer your child to the CPSE;
- Your child is not evaluated by the CPSE before s/he turns three (3);
- Your meeting with the CPSE does not occur before your child turns three(3);
- Your child is evaluated and found not eligible for services by the CPSE.

Only the *CPSE* can decide if your child is eligible for preschool special education.

The NYC Early Intervention Program is required by law to *notify* the CPSE that your child may be eligible preschool special education programs and services. You must let your Early Intervention Official Designee (EIOD) and Service Coordinator (SC) know if you do not want the CPSE to be notified (Opt-Out of Notification).

Your SC can help you with the following steps:

- Meeting, if you choose to do so, with your EIOD, SC, and CPSE Chair or designee;
- Developing a plan to transition out of (leave) EI;
- Referring your child to the CPSE;
- Having your child evaluated by the CPSE; and
- Meeting with the CPSE.

If your child is found eligible for special education services s/he can stay in EI or go to CPSE as follows:

- S/he can stay in EI until August 31 of the year s/he turns three (3), if born between January 1 and August 31 and start preschool special education services in September;
- S/he can stay in EI until December 31 of the year s/he turns three (3) if born between September 1 and December 31 and start preschool special education services in January.

OR

- S/he can begin CPSE as early as January 2 of the year s/he turns three (3) if born between January 1 and June 30;
- S/he can begin CPSE as early as July 1 of the year s/he turns three (3) if born between July 1 and December 31.

Your SC can answer any questions you may have.

NYEIS Transition Crosswalk

Transition information is captured in two (2) separate areas in NYEIS:

1. The “Transition” section of the IFSP – Refer to the Transition section of the [NYEIS IFSP Crosswalk](#) for detailed instructions for completion
 - The IFSP section on Transition must be completed by the EIOD at the IFSP meeting closest to the child’s second (2nd) birthday and updated by either the EIOD or Service Coordinator (SC) at each IFSP meeting after that.
2. The “Transitions” section in NYEIS – The section is *found on the left Navigation Pane of the Child Integrated Case. The “Transitions” section is separated into two parts:*
 - *Transition to CPSE*
 - *Other Transitions*
 - Both parts of the “Transitions” section must be completed by the SC in preparation for the IFSP closest to the child’s second (2nd) birthday.
 - i. The “Transitions” section must also be completed or updated by the SC if the child leaves Early Intervention prior to the third (3rd) birthday.

The NYEIS “Transitions” sections replace the transition plan on pages 7A and 7B of the old paper IFSP form.

Chapter 11: Procedural Safeguards

New York City Early Intervention Program

Policy Title: Procedural Safeguards Related to Early Intervention Records	Effective Date: 2/28/2011
Policy Number: 11-A	Supersedes: N/A
Attachments: <ul style="list-style-type: none">• Consent to Obtain/Release Information Form	Regulation/Citation: 10 NYCRR69-4.17(c) – (e)

I. POLICY DESCRIPTION:

All Early Intervention (EI) staff and provider agencies are subject to requirements pertaining to Early Intervention records in accordance with each of the following:

- Requirements relating to confidentiality/disclosure, access to records, and amendment of records contained in the Early Intervention Program regulations in 10 NYCRR 69-4.17 (c) – (e) under the heading **Procedural Safeguards**. The program regulations require each municipality and all Early Intervention providers to adopt procedures that meet the requirements in 34 CFR Part 99. (FERPA) and sections 34 CFR sections 300.560 through 300.576, with modifications specified in 34 CFR 303.5(b) to preserve the confidentiality of records on eligible children participating in the Early Intervention Program.
- Federal Family Educational Rights and Privacy Act (FERPA) and regulations (34 CFR Part 99). The Family Educational Rights and Privacy Act (FERPA) is the federal law that protects the privacy of student education records. FERPA protections apply to student special education records under IDEA *and* to Early Intervention records under Part C of IDEA. The State, municipalities and EI providers must comply with the requirements contained in FERPA. IDEA federal regulations in Section 300.560-300.576 relate to requirements under FERPA and also pertain to EI records
- Individuals with Disabilities Education Act (IDEA) and regulations (34 CFR 303; 34 CFR 300.560 through 300 576).
- Title II-A of Article 25 of PHL and 10 NYCRR69-4 Medical Assistance Program (Medicaid).

Any breach of confidentiality (such as the loss or theft of records) must be reported to the Designated Confidentiality Coordinator of the Early Intervention Program no later than one (1) week post discovery.

NYC EARLY INTERVENTION PROGRAM PRIOR WRITTEN NOTICE

Child's Name: _____
EI ID #: _____

DOB: _____
Date of Notice: _____

The NYC Early Intervention Program is required to provide you with written notice ten (10) business days before proposing or refusing to initiate or change the identification, evaluation, or placement of your child or the provision of appropriate Early Intervention services to your child or family.

The purpose of this form is to provide prior notice that the following action will be considered final on _____. A copy of your "Family Rights in Early Intervention" is enclosed. If you disagree with the action, you may appeal in one or more of the ways explained in the enclosure. You may wish to talk with your Service Coordinator (SC) who can explain your due process rights in further detail.

Notice of Ineligibility:

- Your child was evaluated and found not eligible for the NYC Early Intervention Program. His/her case is being closed.
- Your child was re-evaluated and found no longer eligible for the Early Intervention Program. His/her case is being closed.

Evaluation:

- Your request for an evaluation is being denied.

Change in IFSP:

- Your request to add service(s) is being denied.
- Your request to increase service(s) is being denied.
- A change in service provider is being made.
- A service(s) is being terminated.
- A service(s) is being decreased in frequency.
- A service(s) is being changed in location/method.

Notice of Closure:

The NYC Early Intervention Program is closing your child's case for the following reason:

- We were unable to contact you for an IFSP meeting*.
- You missed two (2) IFSP meetings without contacting your child's SC or responding to his/her attempts to contact you.*
- We have received notification that you have moved to a locality outside of NYC.
- Therapists/SC have been unable to contact you*.

*Attempts to contact parents are defined as three (3) unsuccessful attempts made on different days, in the form of phone calls, and letter (with at least one attempt made through certified letter).

INSTRUCTIONS FOR COMPLETION

PRIOR WRITTEN NOTICE FORM

Prior written notice is the responsibility of the Regional Office/EIOD.

EIODs must complete the **Prior Written Notice Form** when:

- a. Any of the circumstances outlined in the **Procedural Safeguards Policy** occurs.
 - b. A child was found ineligible for Early Intervention.
 - c. A request for evaluation is denied.
 - d. Changes in services are authorized with which the parent has not previously agreed.
 - e. A request for an amendment in service units or types is being denied.
 - f. A **Closure Form** that has not been signed by the parent is received from the Initial or Ongoing Service Coordinator (ISC/OSC).
- Prior Written Notice must be sent to the family whether the request is made in writing or via a telephone conversation with either the family, or the service coordinator at the parent's request.

The EIOD will check the appropriate box to indicate the reason for the **Prior Written Notice Form**. The EIOD must provide a specific explanation of the reason for denial of an evaluation, change to or denial of a service, or closure to minimize any confusion or misunderstanding.

The EIOD does not use this form when:

- a. A parent has already given written consent to a change (at an IFSP meeting, on a **Change in Services Form**, on a signed **Closure Form**, etc.) and the EIOD agrees with the change.
- b. A case is being closed because the child is transitioning or aging out of Early Intervention.

Mediation versus Impartial Hearing

Mediation	Impartial Hearing
Similarities:	
❖ The basis of the dispute can be the same as it is for an impartial hearing.	❖ The basis of the dispute can be the same as it is for mediation.
❖ The goal is to achieve resolution of the disputed issues. A decision is not made by the mediator, but by the parties involved.	❖ The goal is to achieve resolution of the disputed issues. The impartial hearing officer makes the decision as to the resolution.
❖ A mediation meeting is conducted by a qualified and impartial mediator through an agency contracted by SDOH.	❖ A due process hearing is conducted by a qualified and impartial hearing officer (judge) employed by SDOH.
Differences:	
❖ Parties establish the ground rules.	❖ Ground rules are established by the hearing officer and federal and state law.
❖ The process is voluntary at every phase.	❖ Once one party initiates due process, all necessary parties must participate or they run the risk of the hearing officer ruling against them by default.
❖ The parties identify the potential solutions.	❖ Resolutions available are determined by the hearing officer in accordance with federal and state law and regulations.
❖ The mediator acts as a facilitator and does not pass judgment on specific issues.	❖ The hearing officer, while impartial, does make conclusions of fact and law and renders a legal judgment that may include specific resolutions.
❖ Only when resolution is achieved is a signed agreement between the parties developed.	❖ Parties do not have to agree for a hearing officer to make a decision that is binding for both parties
❖ Mediations are held in each borough at a time convenient to all parties.	❖ Hearings are held in Manhattan.
❖ Participants informally discuss the issues. Discussions during mediation and the contents of the signed settlement agreement are confidential.	❖ Participants are sworn in and testimony is given. The hearing may be open to the public and the decision, after deleting personally identifiable information, is available to the public.
❖ Although mediation is less formal, it must be available to families, and adhere to federal (IDEA) and state laws and regulations.	❖ A due process hearing is more formal and is a required step in the administrative process available under the IDEA to resolve disputes.

**New York City Early Intervention Program
CHILD INFORMATION CHANGE FORM INSTRUCTIONS**

GENERAL DIRECTIONS:

The service coordinator completes this form whenever a child's personally identifiable information in the Early Intervention (EI) system has been identified as incorrect (with the exception of insurance), e.g., name change, wrong date of birth, address change, etc. Indicate with a check the information that is being changed and complete the requested section(s) for this child. In all cases, "from" should be the information currently in the EI system and "to" should be the new information being submitted.

NOTE: IS THERE A CHANGE OF INSURANCE INFORMATION?

If yes, complete the *Insurance Information* form and attach a copy of the new insurance card with the form.

The Initial/Ongoing Service Coordinator must keep a copy of this form in the child's case record and must send a copy to the Regional Office and to all evaluator(s)/service provider(s).

Complete the following:

- **CHILD'S NAME (Last, First and Middle):** The child's complete legal name (no nicknames), last name, followed by first and middle names. Verify correct spelling.
- **EI ID #:** The unique identification number assigned to this child by the NYC Early Intervention Program (EIP).
- **DOB:** Child's date of birth, in month, day and (four digit) year order.
- **Date Information Changed:** The effective date of change for this information (rather than the day the form was completed).
- **Service Coordinator & Service Coordination #:** The service coordinator name and associated NYC EIP assigned identifier number.
- **Provider Agency & Agency EI #:** The employing service coordination agency name and associated EI contract number.

CHANGES OF FAMILY AND CHILD INFORMATION

A. CHANGE OF TELEPHONE NUMBER: The former and current telephone numbers of the child's caregiver/parent.

B. CHANGE OF NAME (OR SPELLING OF NAME): The current legal name of the child (no nicknames). Verify correct spelling. Documentation of the correct name/spelling (birth certificate, Medicaid card, etc.) must be attached. If documentation is not available, attach a letter of explanation.

C. CHANGE OF ADDRESS FOR CHILD: The former and current addresses of the child. Be sure to include the Apt. No. and Zip Code. If the child is moving out of the borough, ensure that appropriate notification has been made to the EI Program office in that area.

D. CHANGE OF CAREGIVER/PARENT: The former and current name of the caregiver/parent. Attach any available legal documentation. **Surrogate Parent:** Attach a letter of explanation and/or any additional information available. The service coordinator also needs to complete a new Surrogate Parent Assignment by EIOD form and submit it to the EIOD for approval.

E. CHANGE DATE OF BIRTH: The child's date of birth as it appears in EI records and the corrected date of birth. A copy of the child's birth certificate or Medicaid card must be attached to this form when indicating the change. (If documentation is not available, attach a letter of explanation.)

Policy Title: Requirements for Early Intervention Program Employment of Department of Education Employees	Effective Date: January 1, 2011
Policy Number: 13-A	Supersedes: N/A
Attachments: Applicable Forms: <ul style="list-style-type: none"> • Notification to the Department of Health and Mental Hygiene of the Employment of a Department of Education Employee by an Early Intervention Provider • Release to Receive EI Services from a DOE Employee 	Regulation/Citation: N/A

I. POLICY DESCRIPTION:

The NYC Conflicts of Interest Board has approved a waiver allowing Department of Education (DOE) employees to be employed by Early Intervention (EI) agencies. DOE employees may work for EI agencies, providing service coordination, evaluation, or services, with the following caveats and requirements:

1. The ruling applies only to DOE employees working as salaried employees or under contract/subcontract to EI agencies. It does not apply to DOE employees who function as principals, stockholders, or directors of EI agencies. Persons in those positions must seek determinations from the DOE ethics officer. If a DOE employee is working in an EI agency without having a Department of Health and Mental Hygiene (DOHMH) waiver in place or in progress, DOHMH will have to terminate its contract with the agency, unless the individual resigns from either the DOE or the EI agency. DOE employees should direct questions on these issues to the DOE Office of Ethics and Conflict of Interest.
2. DOE employees may not also be employed by CPSE programs, since these programs contract with the DOE. Thus, a release form has been developed to ensure that parents realize that if and when a child transitions to CPSE, a DOE employee may not provide services to the child. This release form must be signed by every parent whose child receives EI services from a DOE employee and kept on file by both the EI agency and the DOE employee.

All EI agencies are required annually to submit to DOHMH a list of DOE employees that they employed or subcontracted with in the previous year. The deadline for 2011 submission is March 1, 2011. In following years (2012 and forward) the deadline will be February 1.
